## FOREWORD

The Mississippi Community College Board (MCCB) sets forth the guidelines in this manual to assist with admission and enrollment verification functions at the campuses of Mississippi's fifteen public two-year colleges, as well as at the State Board offices.

The enrollment audit is a fairly rigorous and intense process, requiring adequate preparation by the colleges and the MCCB staff. This manual attempts to provide all parties with the necessary information needed in preparation for the audit, so that the audit process may be conducted in a manner that is professional and non-threatening, as well as fair and equitable to all fifteen institutions.

The guidelines in this manual will be revisited annually to ensure continued compliance with all applicable state and federal laws and to provide all parties clear guidance with regard to policy and practice.

## ACKNOWLEDGEMENTS

The MCCB thanks the following individuals who contributed to the development of these Enrollment Audit Guidelines:

## **GUIDELINES FOR COLLEGES**

## WHO GETS REPORTED FOR FUNDING?

Each year the legislature passes a Community and Junior College Appropriation bill, which establishes very specifically which students may be counted for the purposes of state reimbursement. The language in this bill is standard and does not typically change from year to year. **FY20's appropriation bill is SB 3015**, which reads:

“Academic, Technical, Career, Associate Degree Nursing and Associate Degree Allied Health funds shall be disbursed on the basis of prior year full-time equivalency (FTE) of hours generated during the summer, fall and spring semesters for each public community and junior college student actually enrolled and in attendance the last day of the sixth week of each semester, or its equivalent, counting only students who reside within the State of Mississippi. However, associate degree nursing students who reside outside the State of Mississippi may be counted for pay purposes.”

## WHAT TO EXPECT DURING AN ENROLLMENT AUDIT

### WHEN WILL THE AUDIT OCCUR?

Depending upon the size of the institution to be evaluated, the enrollment audit will take from 1-2 days to complete. The MCCB has a process to develop an audit schedule that is mutually acceptable to the Agency and its fifteen colleges. The process is as follows:

- ✓ Once an institution has finalized its data upload and has verified its Secondary Verification reports, an email will be sent by MCCB staff to the campus registrars requesting a mutually agreeable audit visit date, preferably within a week or two from finalizing the upload.
- ✓ MCCB staff will work with the Registrar to find the most convenient date for both parties.
- ✓ The visit date will be displayed on eARS' login page lower center section of the page. See sample below.
- ✓ The admission sample will become available the day before the scheduled audit. The link will be displayed on eARS on the login, also in the center section of the page. See sample below.
- ✓ **The attendance of the large majority of classes will be electronically audited through the Student Schedule data upload. This will significantly reduce the manual reviews of class rosters, greatly expediting the overall audit**
  - **The colleges are still expected to turn in attendance in PDF format or by allowing access to their attendance software systems to validate the scripts.**

The screenshot displays the eARS system interface with three main sections:

- Pre-Audit Summary:** Shows a green box with the text: "Pre-Audit was verified - 12/10/2012 5:05:18 PM" and "Click link to download VCC Student Schedule from Snapshot data."
- Upload & Validation Summary:** Features a table titled "Summer 2012 Complete" with the following data:

Date	Process	Status
1/3/2013	Faculty File	Complete
1/3/2013	Course File	Complete
3/11/2013	Primary Student File	Complete
3/11/2013	Student Schedule File	Complete

Below the table, it indicates "FINALIZED - Locked" and provides links for "Enrollment Summary Report" and "Admission Sample Summer". The visit date is listed as "Tuesday, March 12, 2013".
- Administration:** Includes a "User Access" section with options: "Add User", "List Users", and "Change Password".
- Data Management:** Includes options: "Upload Support File" and "Onsite Visit Scheduled".

## WHAT WILL THE AUDIT TEAM REQUIRE THE DAY OF THE AUDIT?

- ✓ A suitable workspace at the college for the term of the audit
- ✓ Access to one computer per audit team member, with internet access
  - Dual-monitor computers preferred
  - Wired or wireless access for auditors who bring their own laptops also preferred
- ✓ Access to a printer
- ✓ Access to a photocopier, if needed
- ✓ Access to relevant admission and attendance documents (in alphabetical order)
  - If possible, documents should be in electronic format, such as, PDF, Document Imaging, etc.
  - Documents in document imaging systems should be grouped (batched) by campus/site and sorted in alphabetical order (last name) and containing only appropriate documentation
- ✓ Access to appropriate college personnel, as needed

## WHAT ADMISSION AND ATTENDANCE DOCUMENTS WILL THE ENROLLMENT AUDIT TEAM INSPECT?

To complete the audit, the team will require access to a randomly selected, representative sample of your student admission files and all of your course attendance rosters for the semester being audited. Electronic format of these documents is highly preferred. All files and rosters must be provided at the time auditors arrive on campus the day of the audit.

The audit will be completed far more efficiently if all documents are collected for the team and presented in an organized and easily accessible format. This will allow the team to conduct its review with a minimum disruption to your staff.

### Admission files (both hard copy and electronic format)

Admission files should be in alphabetical order and contain, at minimum and preferably in this order:

- ✓ Completed, signed admission applications (electronic signature showing the student's initials and date of birth date is acceptable);
- ✓ Official transcripts (high school, high school equivalency, home school, or college OR - for Ability to Benefit students, test scores) on which admission is based:
  - If a student previously attended your institution (5 years or more prior) and has not subsequently enrolled at another postsecondary institution, your institution's transcript will satisfy admission requirements.
  - If not accepting credits from proprietary schools, do not base admission on a proprietary school transcript.
  - If a high school student graduates early (for example, December), but the high school does not certify graduates until the date of the regular class graduation (for example, May), two documents may be accepted in lieu of the final transcript in the interim: (1) a high school transcript showing all completed coursework, plus (2) a signed letter from the high school stating that the student has met all graduation requirements and stipulating the date graduation will be certified. These two documents will be accepted only during semesters that occur between the early graduation and certification dates. Once a student's graduation is certified, a final, official transcript with the graduation date must be on file for any subsequent semester of enrollment.
  - Faxed transcripts are not considered official for pay purposes.
  - Electronic Transcripts (e-transcripts) from eScript-Safe, Parchment, Naviance, National Student Clearinghouse (formerly SPEEDE), Hobson's National Transcript Center and others are considered official if they are transmitted from a secured network member site and include a statement of authenticity.
  - GED, HISET or TASC transcripts must show passing scores in all testing areas.
- ✓ Two Proofs of Residency documents (from list of approved documents), if required for proof of residency;

- One of the proofs must be a government-issued identification with a clear picture of the student.
- ✓ Mississippi code section 37-15-38, states “Students may be admitted to enroll in community or junior college courses under the dual enrollment programs if they meet that individual institution's stated admission requirements”.
- ✓ Armed Forces Veterans and Beneficiaries eligible under state statute 37-103-25. Determining eligibility is rather complex, thus the task is best performed by the School Certifying Officer (SCO), who once he/she determines, or is officially notified by the MS Veterans Administration Board (MSVAB), that a veteran is eligible will issue a signed letter or form.
  - For the audit we require a signed letter/form from the SCO to be enclosed in the student’s admission folder
  - It should be noted that once the student has been determined to be a veteran or beneficiary, this benefit applies to the current semester and all subsequent semesters of enrollment
  - Enrollment does not have to be continuous and the benefit has no expiration
  - The student does not have to use other VA benefits to receive the in-state tuition benefit
  - The student is not required to have a MS address as this benefit is for a nonresident veteran or beneficiary
  - In-state veterans usually will have a Mississippi Driver’s License with the VET logo
    - A driver’s license from another state with the Veteran designation is not acceptable
- ✓ International Students: International Students are expected to have the documents that correspond to their admission status (current visa, if classified as an international student; translated transcripts if admitted based upon transcript; and proof of residency, if student has established residency status in MS or the U.S.). Colleges may set their own admission standards for international students. You will want to familiarize yourself with SEVIS if you are admitting students on F, J or M visas, because you are required by federal law to report certain information on those students to the federal government. You can find out more information on SEVIS here: <http://www.ice.gov/sevis/> . However, please note that the MCCB does not audit your admission standards or your SEVIS compliance.

#### Attendance rosters (both hard copy and electronic format)

Attendance rosters should be organized by campus/site, alphabetized by course identifier, and contain, at minimum:

- ✓ Dates of class meetings (First half of term)
- ✓ Recorded attendance (all absences noted)
  - A student who register late and misses classes at the start of the term must show those absences
  - All absences are treated as absences – excused or not excused
  - Official school closings, like for tornado or other emergencies are not treated as absences
- ✓ Last date of attendance
- ✓ Certification by instructor (signature OR – if electronic, college designated electronic signature and date-of-birth)

#### **HOW WILL I KNOW WHICH ADMISSIONS FILES TO PULL FOR MY AUDIT SAMPLE?**

In order for the colleges to pull their admissions sample in time for the audit, the sample list will be posted online one day prior to the audit visit. Colleges may access their audit sample by logging in to eARS

## WHO WILL NEED TO ASSIST THE AUDIT TEAM AND FOR HOW LONG?

A representative of the college should be available to greet the team upon arrival, orient the team to the campus, and direct team members to their designated workspace. The work of the audit team is both time and labor intensive, so the MCCB respectfully requests all non-audit related communication with audit personnel be limited.

During the course of the audit, the lead auditor will notify the college staff of any documentation the audit team needs to eliminate concerns regarding attendance and/or admissions. The MCCB prefers that documentation be provided on-site, so that concerns do not rise to the level of findings, therefore it is important that the staff designated to assist with the audit be knowledgeable and have access to all attendance and admissions documents.

The schedule of activities for the visit will include:

- ✓ Introduction to appropriate campus staff.
- ✓ Examination of a randomly generated sample of admissions files.
- ✓ Examination of ALL (100%) course attendance rosters.
  - College utilizing the automated attendance upload will be manually reviewed at 10%, after the scripts are validated and deemed accurate.
- ✓ Exit interview with appropriate college staff.

## WHAT HAPPENS NEXT?

- ✓ Exit Interview

At the completion of the audit visit, the audit team will conduct an exit interview with College personnel (to be determined by the college) to discuss and clarify observations made during the course of the audit, to answer questions, and to inform the College of additional information needs, if necessary. At that time, the lead auditor will provide the College a list of admission and attendance findings, compiled from all audit team members.

- ✓ 72-Hour Window

Once the audit team leaves a campus, the College has 72 hours (3 business days) to provide the lead auditor additional evidentiary documentation on **admission findings**. There is no 72 hour window on **attendance findings**, except in cases where attendance records are brought back to the MCCB for audit. When the attendance audit is performed off-site, Colleges will have 72 hours (3 business days) from the time they are notified of attendance findings to provide missing documentation on attendance records.

- ✓ Final Audit Exceptions Report (attendance and admission)

The lead auditor will verify each audit exception and will issue a Final Audit Exceptions Report to the College within 10 working days of the close of the 72-hour window. Once the Final Audit Exception Report is issued, audit exceptions become final.

## **GUIDELINES FOR AUDITORS**

# ADMISSION

## STATE BOARD POLICY 9.2

- ✓ Academic and Technical students must meet one of the following criteria for admissions:
  - The completion of at least one unit less than the minimum acceptable high school units as prescribed by law, i.e. if the state requires 21 high school units to graduate, a student can be admitted into a community/junior college with 20 high school units; or,
  - A High School Equivalency Diploma or Certificate; or,
  - A High school diploma; or
  - A Mississippi Occupational Diploma; or
  - A state-approved Career Certificate from a Mississippi Community or Junior College; or
  - An official transcript from an accredited college or university.
- ✓ Career students must meet one of the following criteria for admissions:
  - The completion of at least one unit less than the minimum acceptable high school units as prescribed by law, i.e. if the state requires 21 high school units to graduate, a student can be admitted into a community/junior college with 20 high school units; or,
  - A High School Equivalency Diploma or Certificate; or,
  - A High school diploma; or
  - A Mississippi Occupational Diploma; or
  - A state-approved 30 credit hour Career Certificate from a Mississippi Community or Junior College; or
  - The completion of a federally approved ability-to-benefit test.
- ✓ A student not meeting the requirements stated above may be admitted as non-degree seeking under the following conditions:
  - Meets the requirement to enroll in dual enrollment/dual credit Academic, Career or Technical Classes; OR
  - Meets the requirements to enroll in an approved career-pathway program that integrates Adult Basic Education (ABE) with skills training (Career or Technical).
    - i. The Reauthorization of the Higher Education Act allows a student who did not receive a high school diploma (or its recognized equivalent), or who did not complete a secondary school education in a home-school setting, to be eligible for Title IV financial aid. This can now be done through a combination of ATB alternatives and enrollment in an eligible career pathway program (as determined by the Title IV eligible institutions' staff).
    - ii. The Dear Colleague of May 22, 2015, states "...the student must be enrolled in an "eligible career pathway program," as defined in section 484(d)(2) of the HEA." See Recent Legislation section for the complete letter.

## WHAT DOCUMENTS DO I LOOK FOR IN AN ADMISSIONS FILE?

Admission files must contain:

- ✓ A completed and signed application (electronic signature showing the student's initials and date of birth date is acceptable);
- ✓ Official Transcripts\* (or for Ability to Benefit students, test scores) on which admission is based;
  - Contains either a seal, a signature, or both, demonstrating it was issued by the high school
  - Contains all the necessary graduation information on the student (courses, terms and years)
  - It is in the usual form provided by the individual high school. In some cases, the official transcripts provided by the high school are, in and of themselves, copies. If that's the case, simply make sure they meet criteria above.

- Faxed transcripts are not considered official for pay purposes.
- Dual enroll, dual credit and early college student must present a current partial high school transcript.
- Electronic Transcripts (e-transcripts) from eScript-Safe, Parchment, Naviance, National Student Clearinghouse (formerly SPEEDE), Hobson's National Transcript Center and others are considered official if they are transmitted from a secured network member site and include a statement of authenticity.
- HSE (GED, HISET or TASC) transcripts must show passing scores. HSE transcripts must either be signed OR, if printed by the admitting institution from the Oklahoma Scoring System, must be initialed or stamped by the admitting institution's personnel to signify the transcript was printed on site from the system.
- Residency documents, if required for proof of residency;
- ✓ For integrated pathway students, a certification of enrollment in an MCCB approved career-pathway program that integrates Adult Basic Education (ABE) with skills training (Career or Technical).

### **CAN A DIPLOMA SUBSTITUTE FOR AN OFFICIAL TRANSCRIPT?**

- ✓ Diplomas will be accepted in lieu of transcripts ONLY in extraordinary circumstances and with prior written approval of the MCCB monitoring staff. Extraordinary circumstances occur when school records are no longer available due to school closure, fire or other natural disaster. All attempts to obtain these documents must be exhausted prior to accepting a diploma for admission and written documentation of the extraordinary circumstance must be attached to the diploma.

### **WHAT ABOUT HIGH SCHOOL EQUIVALENCY TRANSCRIPTS?**

- ✓ A print-screen of the diploma preview snapshot to be included in the file (this snapshot is not a certified document, thus it should not be released to the student); or,
- ✓ An original transcript from GED, HiSET or TASC. If a question arises about the validity, then do the snapshot print-screen from Diploma Sender.
- ✓ All admissions officers have access to Diploma Sender.
- ✓ If there are questions then contact Sandy Crist (scrist@mccb.edu).

Note. For the audit files, either the electronic version (PDF) or the verifiable paper version will do. Colleges should use whatever form (paper or electronic) they currently use to provide audit records to the monitoring teams. A transcript printed from GED services – either in electronic form (pdf) or in paper form – is preferable to a copy of a printed transcript. Copies can be hard to read, and are questionable, as a result, from a “verifiable” standpoint.

### **WHAT TYPE OF TRANSCRIPT SHOULD A HOME-SCHOOLED STUDENT PRESENT?**

- ✓ Home school transcripts may be developed by the parent OR by a third-party home school transcribing agency. At minimum, home school transcripts should:
  - List the school name and address
  - List all courses taken and dates completed.
  - Have a cumulative GPA calculated on a 4 point scale.
  - Include the graduation date, if the student has graduated. Prior to graduation, an "anticipated graduation date" can be listed.
  - Be signed and dated by the "School Principal," which in most cases will be the parent.
  - Home school transcripts must be notarized if grades are conferred by a parent. In cases where a third party home school association or organization validates and confers an official transcript, that official transcript is not required to be notarized.

## WHAT ABOUT INTERNATIONAL STUDENTS?

- ✓ International Students are expected to have the documents that correspond to their admission status (current visa, if classified as an international student; translated transcripts if admitted based upon transcript; and proof of residency, if student has established residency status in MS or the U.S.). Colleges set their own admission standards for international students. The MCCB does not audit a college's admission standards or its SEVIS compliance.

## HOW TO EXTRACT FROM DIPLOMA SENDER?

- ✓ Login to Diploma Sender
- ✓ Select student
  - Select Diploma Details tab – Make sure it is 'Valid'
  - Select Test Sessions tab – Make sure it is 'Pass'
- ✓ Click on View
  - Print-Screen the Test Results (they show in Preview mode)
  - Put in the student folder

## WHAT ABOUT STUDENTS WITHOUT A HIGH SCHOOL DIPLOMA OR HIGH SCHOOL EQUIVALENCY (HSE)?

Students without a high school diploma or HSE may fall into one of two categories:

1. Dual Enrolled High School Student
2. Those enrolled in an approved iPathway program that integrates Adult Basic Education (ABE) with skills training (Career or Technical).

If a student does not have a HSE Diploma, HS Diploma, Occupational Diploma, Home-School Diploma, or College Transcript, and is not dually enrolled, he or she can still qualify for admission to a career (vocational) program by completing a U.S. Dept. of Education approved "Ability-to-Benefit" test.

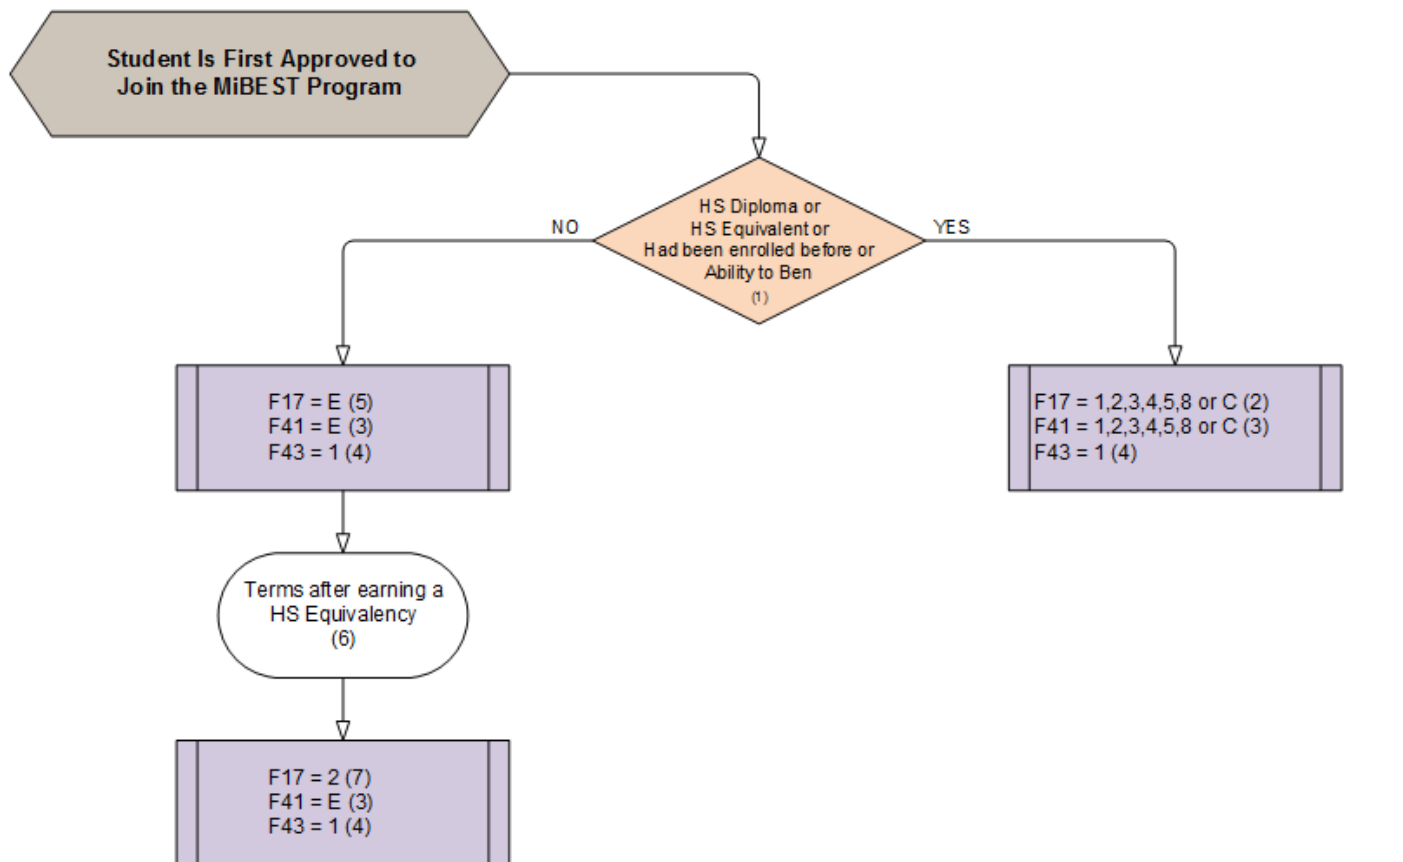

- ✓ Student must be enrolled in a career integrated pathway, i.e., MI-BEST.
- ✓ The most recent list of approved Ability to Benefit exams are found in the June 24, 2015 Department of Ed, Federal Student Aid webpage:  
<https://ifap.ed.gov/eannouncements/062415ATBTests.html>
- ✓ Students admitted solely on the basis of an Ability to Benefit Exam may only be admitted to career (vocational) programs.
- ✓ They are NOT ELIGIBLE for reimbursement for:
  - Associate Degree (Academic or Technical) program courses
  - Academic preparatory courses (developmental/remedial coursework)
  - Activity courses (HPR, PE, sports, etc.)

## WHAT IF THERE IS MISSING DOCUMENTATION IN A STUDENT'S ADMISSION FILE?

- ✓ Audit team members should notify the lead auditor of any missing documentation in a student's admission file. The lead auditor will make attempts to obtain the missing documentation from the College staff. All attempts should be made to obtain the documentation prior to the audit team departing the campus. However, colleges have 72 hours (3 working days) from the date of the audit to provide missing documentation on admission records. There is no 72 hour window on attendance records (unless the attendance audit is conducted or completed off-site).

## WHAT ABOUT MI-BEST STUDENTS?

A MI-BEST students is a type of student who might not have a high school diploma or high school equivalency. Before processing admissions, these students need to work with the navigator and be admitted into an iPathway program.

F17 = Term Admission Compliance  
 F41 = Initial Admission Compliance (first term at the college)  
 F43 = Integrated Pathway Flag

### Notes

- (1) Some MiBEST students will have a valid admission document, such as a High School Diploma, High School Equivalency, Ability to Benefit, Occupational Diploma, etc.
- (2) Reflects document used for admission compliance (1=HS Diploma, 2=HS Equivalency, etc.)
- (3) Reflects document used for the initial admission compliance (1=HS Diploma, 2=HS Equivalency, etc.)
- (4) Indicates student is or has been MiBEST – once set, always set
- (5) Allows student to be admitted even though does not meet any admission's requirement
- (6) Student is to earn a HS Equivalency in his/her first semester in the MiBEST program (might take longer)
- (7) Admission compliance after student passed the HS Equivalency exam

# RESIDENCY

## GENERAL RESIDENCY DETERMINATION

- ✓ The law (MCA 37-103-3) states that a person entering the state to enter an educational institution is considered a nonresident; therefore, a Mississippi domicile listed on an admissions application does not in and of itself prove in-state residency, if other admission documents (transcripts, for example) point to *possible* out-of-state residency prior to admission. The following flowcharts provides guidance on how to make a residency determination:

## IN OR OUT STATE RESIDENT - CLARIFICATION

- ✓ The State of Mississippi reimburses the colleges only for students who are residents of the state. As with most laws there are exceptions, such as, MPACT beneficiaries, out-of-state Veterans, students who attended all high school years and graduated in Mississippi, etc.
- ✓ Therefore, wherever the word 'Resident' is used in these guidelines, flowcharts and tables, it must be understood that the purpose is to determine if a student's credit hours can be reimbursed, provided all other conditions are met.
- ✓ A student flagged as in-state resident may not be officially a MS resident, that is, the student may not be able to obtain a MS Driver's License or vote. Conversely, a resident may be considered as an out-of-state student if sufficient proof of residency is not timely provided.

## RESIDENCY OF MINORS - CLARIFICATION

- ✓ In the State of Mississippi the residency of a minor is based on his/her parents' residency.
  - Divorced parents: whichever parent has legal custody.
  - Guardians: guardianship must be issued by a MS court.
    - Living with auntie or grandma without legal MS guardianship does not qualify.
  - Deceased parents: residency of last surviving parent.
- ✓ The 4 year exception
  - A student residing in MS, presenting a high school transcript showing graduation from a Mississippi secondary school and been a secondary school student in Mississippi for not less than the final four years will be considered In-State resident.
  - A student presenting a transcript with less than 4 years of high school in Mississippi might be considered In-State upon presenting valid proofs of residency.

## RESIDENCY FLOWCHARTS

Is student a special case? (1)

Yes – follow proper procedures or call board

No – Is student under 21?

Yes – Do parents have a MS address? (2)

Yes – Any other flags about MS residency? (4a)

Yes – Does student have two proofs of MS residency (7)

Yes – MS Resident

No – Out of State

No – Resident

No – Student attended 4 years of MS high schools & grad in MS (5)?

Yes – Student resides in MS - has a MS address (3)?

Yes – MS Resident

No – Out of State

No – Does student have a MS address (3)?

Yes – Any other flags about MS residency (4b)?

Yes – Does student have two proofs of MS residency (6)

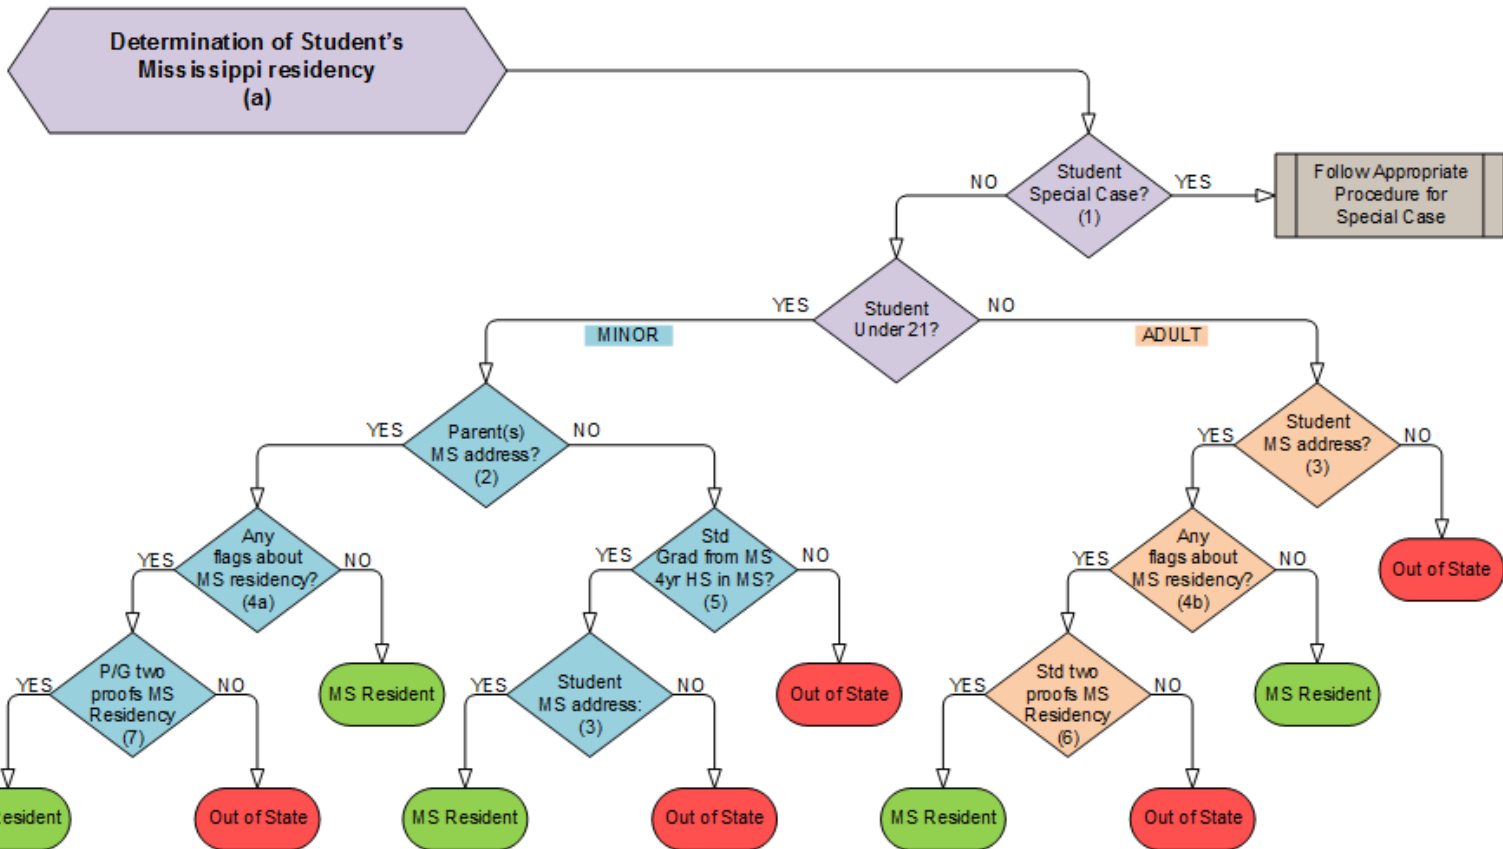

Yes – MS Resident

No – Out of State

No – Resident

No – Out of State

### Notes

(a) Gather documentation – application to college, transcripts (HS, other college(s), GED), drivers license and other proofs of residency, military orders, visa, etc.

(1) Title 38 Veteran or Dependent, Married and claiming spouse's residency, child of CJC employee, MPACT beneficiary, military (active duty, spouse, child, recent discharge, etc.), visa, etc.

(2) Parent, parents or legal guardian (as appointed by a MS court)

(3) As shown on application

(4a) Anything that raises a question about parents' residency. Example, PO Box address, HS transcript showing out-of-state work, proof of residency was issued after registration date, etc.

(4b) Anything that raises a question about student's residency. Example, Out-Of-State transcript, PO Box address, proof of residency was issued after registration date, etc.

(5) Properly signed and validated MS high school transcript showing completion of all 4 years in MS and graduation date

(6) Student MS Drivers License plus another approved document (utility bill, current voter registration, recent tax return, etc)

(7) Parent, parents or legal guardian MS Drivers License plus another approved document (utility bill, current voter registration, recent tax return, etc)

Residency Flowchart notes:

(1) Special cases:

- Veterans and beneficiaries
- Married persons may claim the residency of their spouse
- Children (under 21) of parents who work for a CJC are considered residents
- MPACT beneficiaries are considered residents
- Military:
  - Mississippi Active duty military and MS National Guard members are considered residents
  - According to the AG's office, if the military documents list the Home of Record as MS, that individual is considered a Mississippi resident
  - Spouses and children of armed forces members are to follow one of the charts below

(2) Parent, parents or legal guardian (as appointed by a Mississippi court)

- Parents of a minor with out-of-state address

(3) As shown on student's application

(4a) Anything that raises a question about residency (flags), such as,

- PO Box address
- A proof of residency issued after registration date
- High School transcript with Out-Of-State course work
  - this includes dual enroll, dual credit and early college students
- 'Work-Only' or 'School-Only' social security card
- Application states 'Not a Citizen'

(4b) Anything that raises a question about residency (flags), such as,

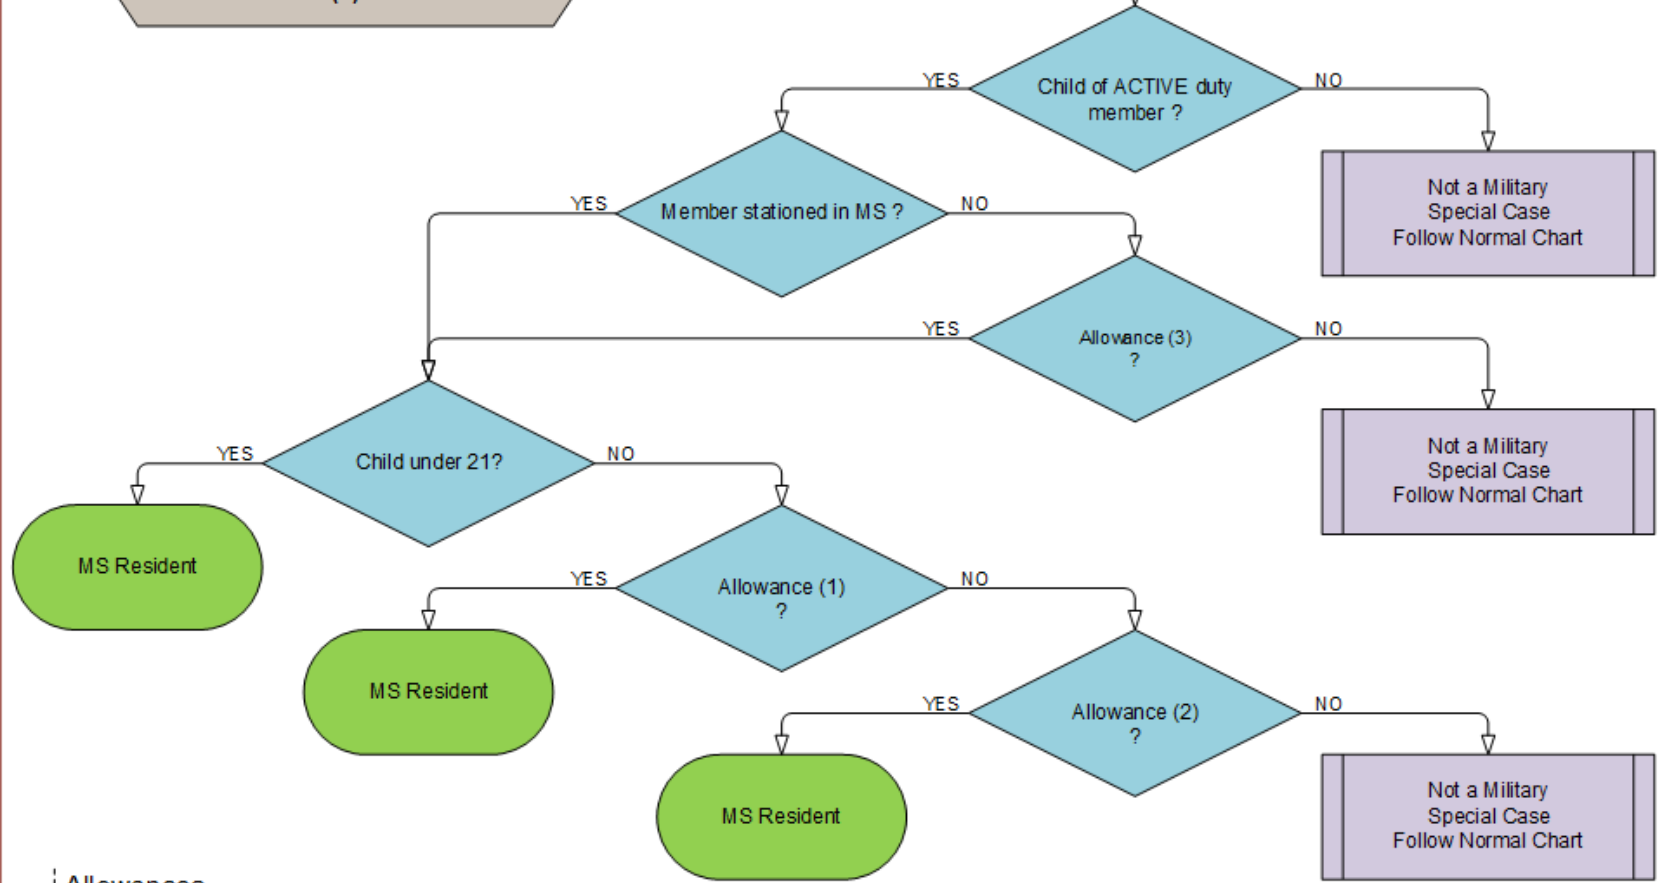

- PO Box address
- A proof of residency issued after registration date
- High School or College transcript with Out-Of-State course work
- 'Work-Only' or 'School-Only' social security card
- Application states 'Not a Citizen'

(5) Properly signed and validated Mississippi high school transcript showing completion of all 4 years in MS and graduation date

(6) Student MS Driver's License plus another approved document (utility bill, current Mississippi voter registration, tax return, etc.)

(7) Parent, parents or legal guardian MS Driver's License plus another approved document (utility bill, current Mississippi voter registration, tax return, etc.)

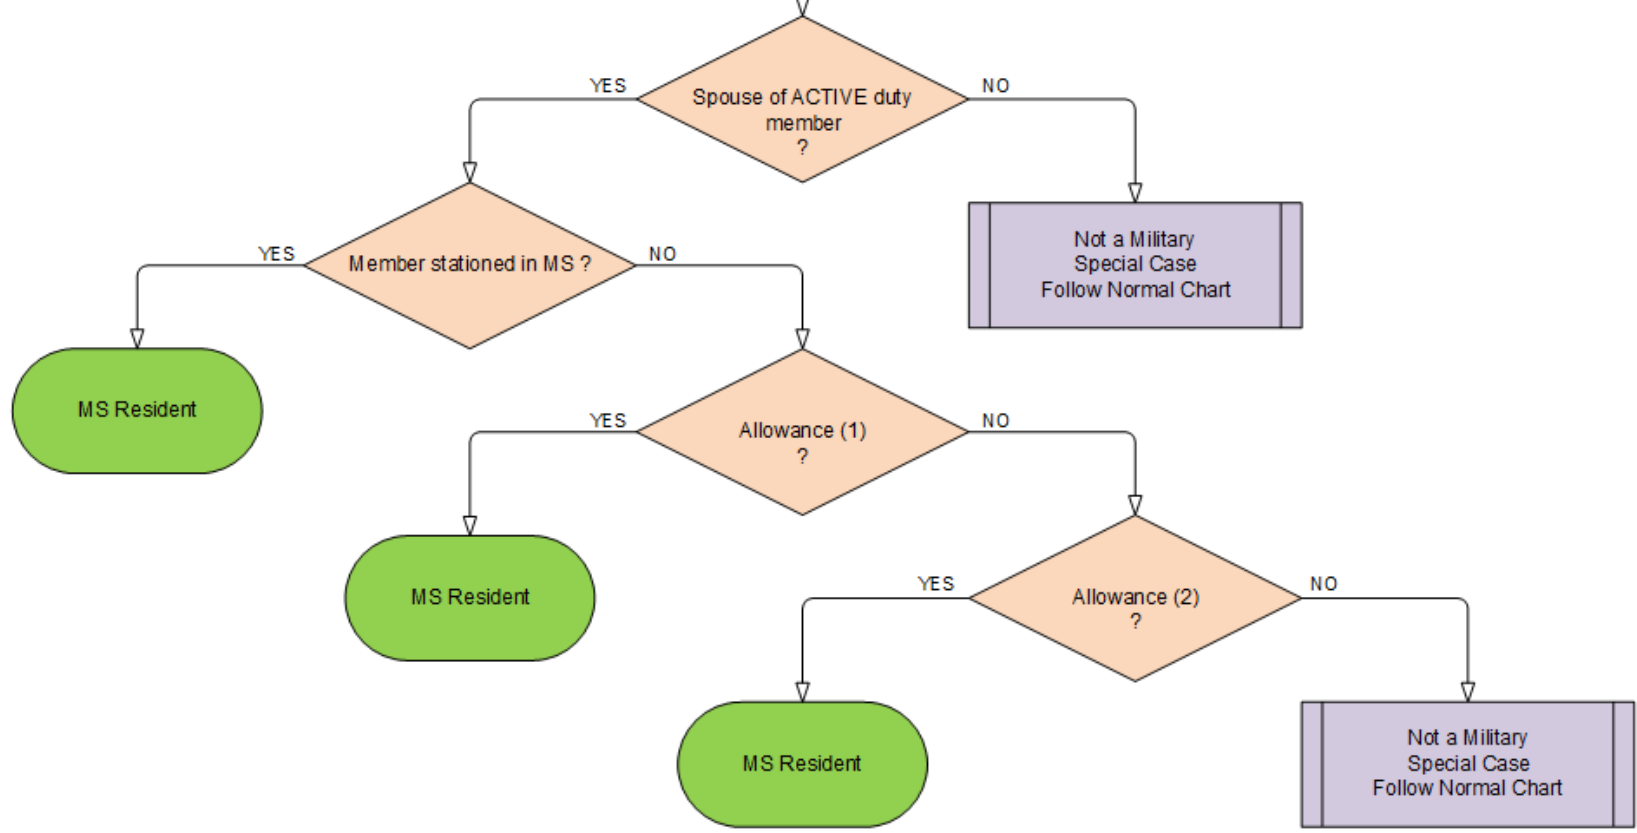

**Determination of MS residency for Children of Armed Forces Member (a)**

**Allowances**

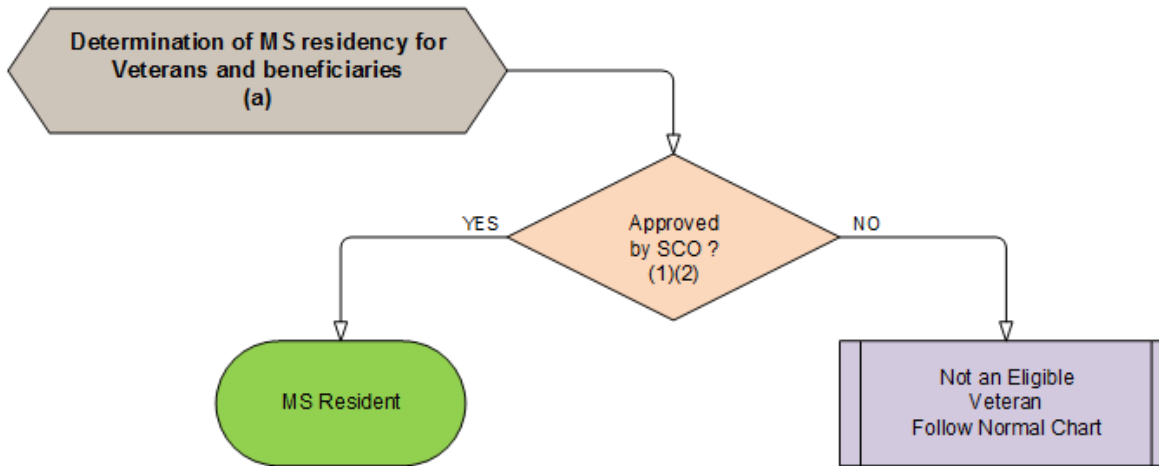

- (a) Gather documentation – application to college, transcripts (HS, other college(s), GED), drivers license and other proofs of residency, military orders, visa, etc.
- (1) During military assignment in MS did Child (a) begin and complete senior HS year, (b) enroll in a MS college the following Fall, and maintain enrollment in good standing?
- (2) Was Child previously entitled to pay tuition as MS resident under armed forces provision (a) while enrolled in a degree or certificate program and (b) has maintained continuous enrollment in that degree or certificate program?
- (3) Is armed forces member stationed overseas with immediately previous assignment in MS?

**Determination of MS residency for Spouses of Armed Forces Member (a)**

**Allowances**

- (a) Gather documentation – application to college, transcripts (HS, other college(s), GED), drivers license and other proofs of residency, military orders, visa, etc.
- (1) Is the armed forces member stationed overseas, and the immediately previous assignment was in MS?
- (2) Was Spouse previously entitled to pay tuition as MS resident under armed forces provision (a) while enrolled in a degree or certificate program and (b) has maintained continuous enrollment in that degree or certificate program?

**Notes**

(a) Gather documentation – application to college, transcripts (HS, other college(s), GED), drivers license and other proofs of residency, military orders, visa, etc.

(1) Student is a veteran or a beneficiary as certified and entered into SIS by the School Certifying Officer (SCO)

(2) Include signed letter/form from SCO in the student's admission folder

Allowances for Children and Spouses of Military Members:

- (1) During military assignment in MS the Child
  - a. began and completed senior HS year,
  - b. enrolled in a MS college the following Fall, and
  - c. maintained enrollment in good standing
- (2) The Child previously was entitled to pay tuition as MS resident under armed forces provision
  - a. while enrolled in a degree or certificate program, and
  - b. has maintained continuous enrollment in that degree or certificate program (Summer not required) or has a medically documented excuse for withdrawing or not enrolling for one semester
- (3) The armed forces member is stationed overseas with immediately previous assignment in MS

Additional Notes for Children and Spouses of Military Members:

- (1) Spouse or children of a member of the Armed Forces who dies or is killed are considered in-state residents if they become residents of MS within 180 days of the date of the death
- (2) Documentation – the military member's orders must be applicable and verifiable related to the audit term in question

Additional Notes for US Veterans and beneficiaries:

- (1) As per Mississippi Senate Bill 2127 of the 2015 Legislative Session, eligible veterans and their direct dependents are to be considered as in-state residents for tuition purposes. The bill amends state law § 37-103-25
- (2) The School Certifying Officer is the one who determines, or is officially notified by the MS Veterans Administration Board (MSVAB), that a veteran is eligible. He/she will issue a signed letter or form
  - a. For the audit we require a signed letter/form from the SCO to be enclosed in the student's admission folder
  - b. It should be noted that once the student has been determined to be a veteran or beneficiary, this benefit applies to the current semester and all subsequent semesters of enrollment
  - c. Enrollment does not have to be continuous and the benefit has no expiration
  - d. The student does not have to use VA benefits to receive the in-state tuition benefit
  - e. The student is not required to have a MS address as this benefit is for a nonresident veteran or beneficiary
- (3) For an in-state veteran a Mississippi Driver's License with the Veteran designation/flag will suffice

**IMMIGRANTS, PERMANENT RESIDENTS OR GREEN CARD HOLDERS**

- ✓ Green card holders are a type of immigrant who are U.S. permanent residents
- ✓ Have the ability to establish a domicile in MS and thereby may qualify as MS residents
- ✓ In some cases persons granted asylum may qualify as MS residents
  - Suggest to send documentation to the MCCB for review

## NON-IMMIGRANT VISA HOLDERS

- ✓ Persons holding non-immigrant visas are NOT entitled to MS residency. Because those visas are temporary in nature, non-immigrant visa holders retain the residency of their home country. (In rare cases, exceptions may be made due to special provisions or special circumstances allowed by law. But those provisions or circumstances would require legal documentation.)
- ✓ Non-immigrant visa categories include, but are not limited to:

A – diplomats	J – exchange visitors
B – tourists and business visitors	K – fiancé or fiancée
C – visitors in transit	L – intra-company transfers
D – crew members	M – vocational students
E – traders and investors	N – relatives of employees of international orgs
<b>F – academic students</b>	O – persons with extraordinary abilities
G – representatives of international orgs	P – athletes and artists
<b>H – temporary workers</b>	Q – international cultural exchange
I – media representatives	R – religious workers

## UNDOCUMENTED ALIENS

- ✓ Do not have visas, thus cannot be Mississippi residents
- ✓ Cannot be considered for in-state tuition

## LIST OF APPROVED RESIDENCY DOCUMENTS

In cases where residency documentation is required, two forms of supporting documentation must be in the file. Acceptable supporting documentation may include:

1. Current MS Driver’s License or State issued ID (Persons moving into MS on a permanent basis have 60 days per state law to acquire driver’s licenses.)
  - If it has the Veteran designation or logo, then there is no need for additional documentation
2. Mortgage document matching address
3. Homestead exemption matching address
4. Guardianship documents (issued by a MS Court or the MS Department of Human Services)
5. Emancipation documents
6. Prior or Prior-prior year State income tax return
7. Current Mississippi Voter Registration Card
8. Current Motor vehicle registration (Persons moving into MS on a permanent basis have 30 days per state law to register vehicles.)
9. Current employment documents (last pay stub, employment contract)
10. Current utility bills (includes cell phones) matching address
11. Lease agreement (signed by lessor and lessee)
  - For students admitted Fall 2013 or after, letters or affidavits from private homeowners, even if notarized, will not suffice as a residency document
12. Signed statement by the MS Dept. of Human Services or a certified letter from recognized relief agency (such as the Salvation Army) certifying that the student is receiving services as a homeless MS resident

The following supporting documents can stand by themselves:

1. Current signed letter or form from the Veterans Affairs School Certifying Officer
2. The transcript of a minor (under 21 years of age) with a MS address showing 4 years of MS high school and graduation date
3. Current Military orders for MS active military personnel

These documents should guide you in asking residency questions, but are **NOT** in and of themselves proof of residency status:

1. Physical Mississippi address (not a P.O. Box)
2. MS high school or college transcript
3. MS GED (Beginning July 1, 2012, non-Mississippi residents can take the GED in Mississippi.)
  - a. HSE may show address of student when HSE was taken
4. A Mississippi student who attended an out-of-state college may demonstrate MS residency by providing documentation that he/she was classified as an out-of-state MS resident at their previous educational institution

## ATTENDANCE

### CONCEPTS

- ✓ State law says that student must be in attendance for 6 weeks or equivalent
- ✓ Law was written back in the 60's or 70's when terms were regularly 18 weeks
- ✓ To easily codify scripts and programs use 1/3 (6 out of 18 weeks)
- ✓ This becomes the Attendance Audit Period
- ✓ CutOff date is the last date of the Audit Period
- ✓ Community colleges can request reimbursement for 'attended' classes
- ✓ CC cannot request reimbursement if student is deemed 'not in attendance'
- ✓ A student who stops attending prior to CutOff date or exceeds the maximum allowed absences during the Audit Period is deemed 'not in attendance'
- ✓ If student is absent on last class of the Attendance Audit Period and has not exceeded the maximum number of allowed absences, then the Return Period is examined
- ✓ The Return Period is a short period after the CutOff date that is reviewed to determine if student returned to class at least once
- ✓ During the Return Period absences are NOT counted; just check if student attended class at least one time
- ✓ To determine the Return Date use 1/9 (2 out of 18 weeks) and add to the CutOff date

### METHOD

- ✓ All courses that have regular meeting patterns are to report attendance via the data upload
  - For example, a course that meets twice on week 1, none on week 2, once on week 3 and 4, twice on week 5, etc. will be audited manually
- ✓ MCCB will pick about 10 to 20% of the rosters to manually verify
  - To ensure scripts the colleges have written to exclude classes are correct
- ✓ Colleges must still submit rosters as soon as the data upload is completed

## STUDENT SCHEDULE FILE – RELATED FIELDS

- ✓ Include/Exclude Hours Flag (#7)
  - 1=Request Reimbursement for this student in this class
  - 2= Do NOT Request Reimbursement for this student in this class – student had too many absences, or withdrew prior to CutOff date, or last day attended was prior to CutOff date
- ✓ Last Day Attended (LDA) (#8)
  - The date of student's last attendance
  - Withdrawal date implies student was not present
    - thus LDA must be prior to drop or withdrawal
  - Leave blank if Field #17 in the Course File is '0'
- ✓ Days Absent (#9)
  - Number of times student was absent from Start Date to CutOff date
  - Do NOT include absences after CutOff date
  - All absences are counted (excused, late enrollment, time between drop and reinstatement)
  - Cannot be blank if Field #17 in the Course File is '1'
- ✓ Returned Flag (#10)
  - Y=Student was absent on CutOff date and Returned during Return period
  - N=Student was absent on CutOff date and did NOT Return during Return period
  - P=Student was present on CutOff date
  - Cannot be blank if Field #17 in the Course File is '1'

## COURSE FILE – RELATED FIELDS

- ✓ Meeting Days (#7)
  - Current: MTWRFSCVX
  - Change:
    - Add multiple MTWRFSC when a class repeats in a given day
    - V for VCC only !
    - Online needs to have a 'meeting day(s)'
    - X – by end of term there should NOT be any TBA; does not make sense
  - Examples:
    - A class that meets TWR mornings, plus T afternoon: TTWR
    - A class that meets MWF mornings, plus M and W afternoon: MMWWF
    - A class that meets TWR mornings, plus W afternoon: TWWR
    - A class that meets MWF mornings, plus W afternoon, plus W evening: MWWWF
- ✓ Electronic Attendance (#17)
  - Flag to determine if the SS will track student's attendance for this class
  - 0=No. Paper, or PDF, or access to database as always. Also, if Meeting Days are coded as X
  - 1=Yes. The SS file will track the attendance
- ✓ CutOff Date (#14)
  - Date to delimit the Audit period
  - **RoundUp((End Date – Start Date) / 3) + Start Date**
  - No backing up, no nothing
- ✓ Return Date (new field #18)
  - Date to delimit Return period
  - **RoundUp((End Date – Start Date) / 9) + CutOff Date**
  - No backing up, no nothing
- ✓ Meetings per Week (new field #19)
  - Number of times the class meets in a given week
  - Includes multiple meetings in a day

- Examples
  - A class meets M, W, and F. Plus Monday afternoon: 4
  - A class meets T, W, and R. Plus Tuesday and Wednesday afternoon: 5
  - A class meets twice daily (MTWRF): 10
- ✓ Weeks per Term (new field #20)
  - $\text{RoundUp}((\text{End Date} - \text{Start Date}) / 7, 0)$
  - Rounding needed to allow partial weeks
- ✓ Allowed Absences (new field #21)
  - Maximum number of absences that can occur within the Audit period
  - Includes absences due to late starts, excused absences, absences due to games or school functions, etc.
  - Includes absences between withdrawal and reinstatement
  - $\text{RoundUp}(((\text{MeetingsPerWeek} * \text{WeeksPerTerm} * \text{CreditHrs} * 100) / (\text{CreditHrs} * 750)), 0)$

### MAXIMUM NUMBER OF ABSENCES ALLOWED CHART

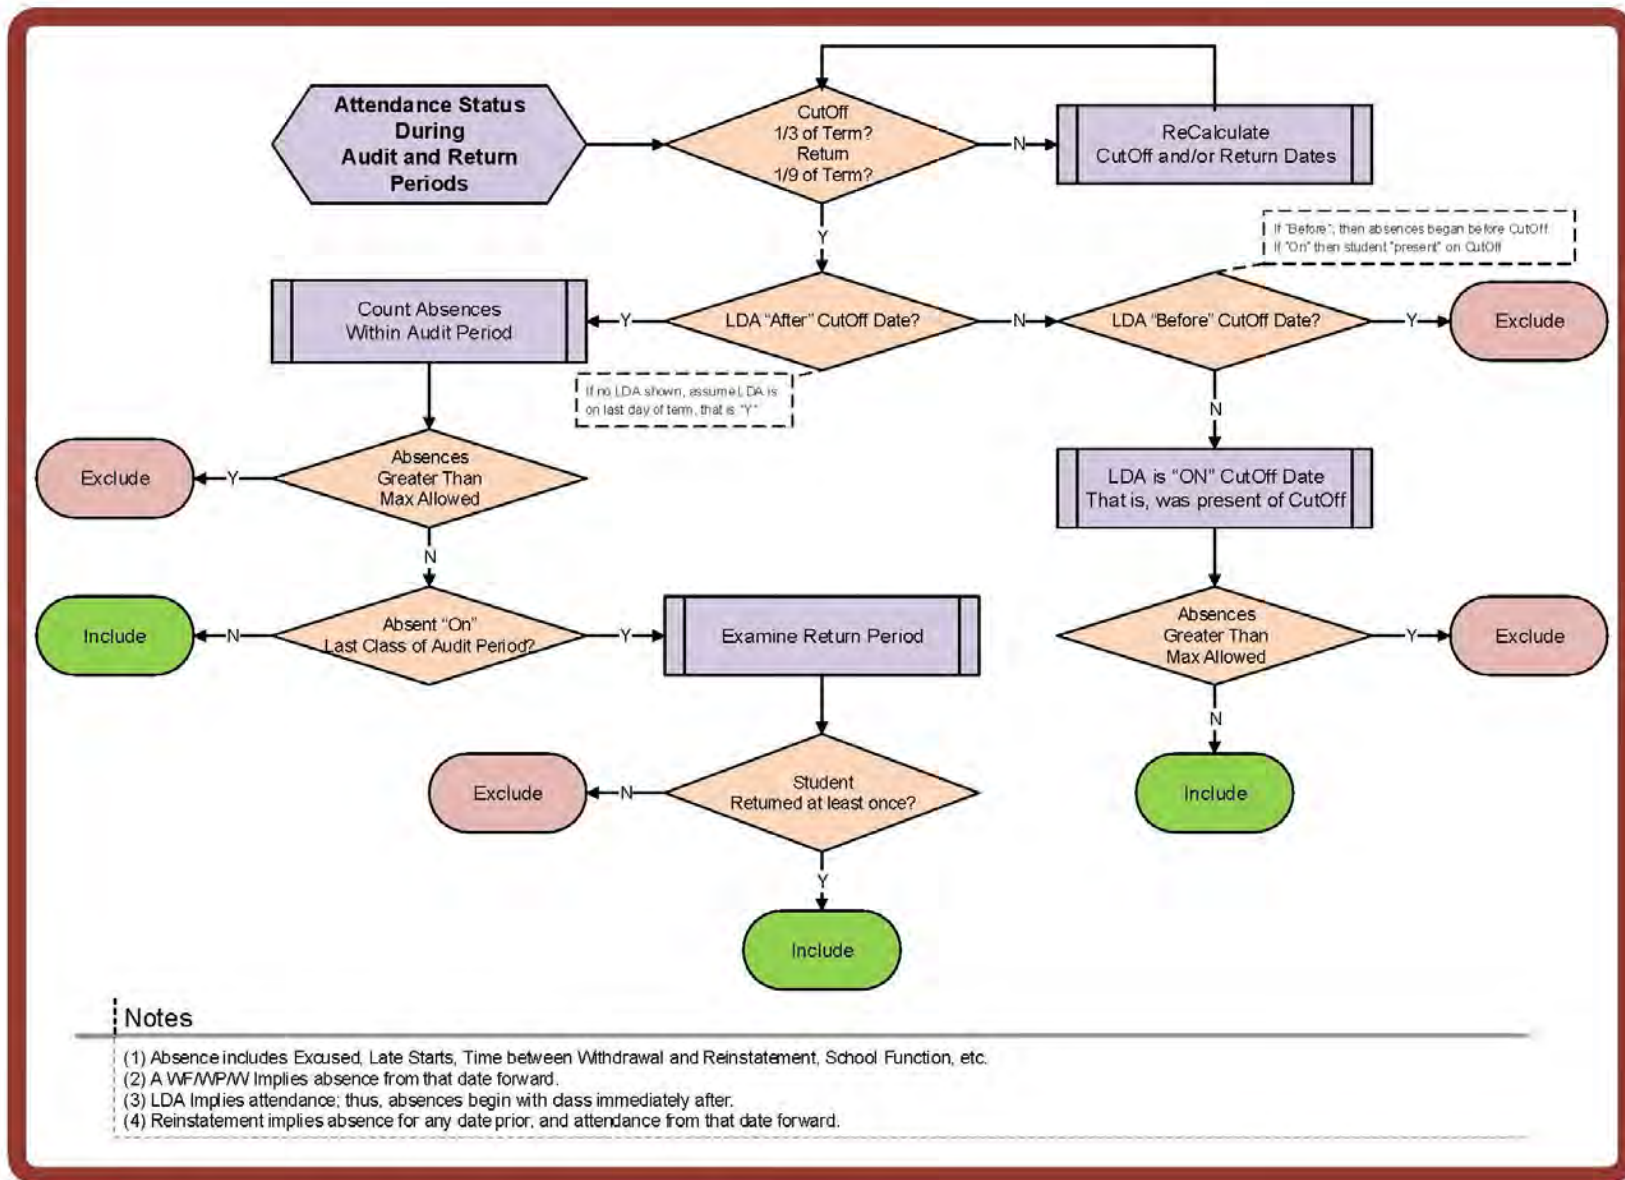

Term Length (weeks)	Class Meetings Per Wk	1	2	3	4	5	6	7
		Maximum number of allowed absences						
1	0	0	0	0	1	1	1	1
2	0	1	1	1	1	1	2	2
3	0	1	1	2	2	2	2	3
4	1	1	2	2	3	3	3	4
5	1	1	2	3	3	4	4	5
6	1	2	2	3	4	4	5	6
7	1	2	3	4	4	5	6	7
8	1	2	3	4	5	5	6	7
9	1	2	4	5	6	6	7	8
10	1	3	4	5	7	7	8	9
11	1	3	4	6	7	7	9	10
12	2	3	5	6	8	8	10	11
13	2	3	5	7	9	9	10	12
14	2	4	6	7	9	9	11	13
15	2	4	6	8	10	10	12	14
16	2	4	6	9	11	11	13	15
17	2	5	7	9	11	11	14	16
18	2	5	7	10	12	12	14	17

This table is based on the number weeks on a given term and how often a class meets on a per week basis. For example, in a 15-week term such as a 'normal' Fall or Spring semester, in a class that meets MWF (3-times per week), a student would be allowed to miss class 6 times. On the 7<sup>th</sup> absence he/she must be taken out.

The formula used to develop this chart is the same as Field #21 in the Course File.

## TO INCLUDE OR EXCLUDE A STUDENT FROM A CLASS

- ✓ Student completed the term or stopped attending 'after' CutOff date
  - Count the absences within the Audit period
  - If exceeded, then flag as 'exclude' in the Student Schedule file
  - Student was absent 'on' CutOff date
    - Review the Return period
    - If never returned, then flag as 'exclude' in the Student Schedule file
- ✓ Student stopped attending 'before' CutOff date
  - Flag student as 'exclude' in the Student Schedule file
- ✓ If student's class is not excluded, then include in the request for reimbursement
- ✓ The flowchart below illustrates the steps.

## WHAT ABOUT A STUDENT WHO REGISTERS A FEW DAYS LATE, ARE THE MISSED CLASSES COUNTED AS ABSENCES?

Yes. The student was not in attendance until he/she registered and started coming to classes.

## ONLINE AND MSVCC ATTENDANCE

- ✓ Online is any course taught via the Internet, that does not use the MSVCC Enrollment Tool.
  - Online courses are for 'own' students, that is, not for 'shared' students.
  - Online courses are maintained in the college's SIS.
  - Attendance for Online is maintained via college's software system.
- ✓ MSVCC is any course taught via the Internet that utilizes the Enrollment Tool.
  - Frequently, there will be students from other colleges, that is, 'shared' students.
  - Attendance for students from other colleges (shared) is taken through the MSVCC Enrollment Tool.
  - Some colleges have the ability to take attendance via software packages and upload to the ET.
- ✓ All Online and MSVCC students' attendance must be accounted in the data upload.

## WHAT ABOUT REINSTATEMENTS?

- ✓ If an LDA or Withdrawal is indicated prior to CutOff date, but is reinstated prior to CutOff date, then count all absences, including the missed classes between the withdrawal and reinstatement.
- ✓ If an LDA or Withdrawal is indicated prior to CutOff date, but is reinstated after the CutOff date, then student does not meet the legal requirement for "enrolled" and will not be considered for reimbursement purposes.
- ✓ A student who is enrolled and in attendance, but merely absent on the last class meeting of the Audit period may still be counted for reimbursement provided student returned during the Return period.
- ✓ If the student was not present in class, then the student was absent – simple.

## WHAT IF THERE IS MISSING ATTENDANCE DOCUMENTATION?

There **IS NOT** a 72 hour window for providing missing documentation on attendance records when the attendance audit is completed onsite. In the case of onsite attendance audits, exceptions become final when the auditing team departs from the college. In the instance of attendance records being brought back to the MCCB for audit, colleges will have 72 hours from the point of notification to provide missing documentation on attendance records.

# SPECIAL INSTRUCTIONS FOR LEAD AUDITORS

## NOTES FOR AUDITORS

- ✓ Audit teams are expected to work a full 8-hour day, to include travel time. In cases where travel and work hours extend beyond the normal 8AM-5PM work day, those hours will be reimbursed in the form of Compensatory Time.
- ✓ Each college's admission sample will be made available to them online the day before the scheduled audit. To access those samples, college staff will log into the Electronic Audit Reporting System (eARS).
- ✓ Lead auditors are responsible for coordinating travel arrangements and completing a travel form for the audit team.
- ✓ Lead auditors will also:
  - be responsible for coordinating hotel arrangements

- remind team members to book their own hotel rooms
- remind team member of the audit's start-time and location (specific building)
- provide team members with his/her cell number and gather their cell numbers in case of emergency
- remind team members to dress professionally (shirt/tie) and to wear their MCCB name tags
- ensure every team member has an username and password to eARS and has become familiar with its use

### **THE DAY OF THE AUDIT**

- ✓ Meet your audit team at the designated audit location.
- ✓ Let the college Registrar know that the audit team is present and ready to begin work.
- ✓ Login to eARS and lock college.
- ✓ If college has electronic records, login into their system and review their processes with college personnel.
- ✓ Go over the audit process briefly with your team to make sure they have clear direction on what they are supposed to do.
  - remind team to check admission files (application, transcripts, proof of residency - if required)
  - remind team to sign and date their assigned admission sample page upon completion
  - remind team to set aside admission files and/or rosters on which findings occur
- ✓ Conduct the audit, consulting as needed with college staff to request any additional supporting documentation required.

### **AT THE CONCLUSION OF THE AUDIT**

- ✓ Make sure your team members:
  - Enter all findings in eARS
  - Collect copies of documentation supporting the finding (roster or admission document)
- ✓ Carefully review each finding and ensure they have been entered into eARS
- ✓ Enter comments related to the audit:
  - Point out any issues and/or incorrect assumptions that resulted in findings.
  - Point out good practices.
- ✓ Print the Audit Exit Report and provide a copy to the college.
- ✓ Conduct the exit interview with the college staff and audit team.
  - Inform the college staff of next steps.
    - If the 72 hour rule is applicable, remind them that once the 72 hour window has passed, the audit is closed.
    - Final report to be emailed within 10 working days.

### **WITHIN 10 WORKING DAYS OF THE CLOSE OF THE AUDIT**

- ✓ Evaluate any additional supporting documentation submitted within the 72 hour window, eliminating findings where possible and finalizing exceptions.
- ✓ Review the entire process.
- ✓ Email final report to the college.

## DEFINITIONS OF TERMS & ACRONYMS

**AACC:** The American Association of Community Colleges ([AACC](#)) is the primary advocacy organization for the nation's community colleges. The association represents almost 1,200 two-year, associate degree-granting institutions and more than 11 million students.

**AACRAO:** The American Association of Collegiate Registrars and Admissions Officers ([AACRAO](#)) is a nonprofit, voluntary, professional association of more than 10,000 higher education admissions and registration professionals who represent more than 2,600 institutions and agencies in the United States and in 28 countries around the world. The mission of the American Association of Collegiate Registrars and Admissions Officers is to serve and advance higher education by providing leadership in academic and enrollment services.

**Academic Student:** Refers to students taking courses in an Association of Arts degree program of study.

**Accreditation:** A voluntary, nongovernmental process, in which an institution and its programs are evaluated against standards for measuring quality.

**AERA:** The American Educational Research Organization ([AERA](#)) is an international professional organization, with the primary goal of advancing educational research and its practical application. Its more than 25,000 members are educators; administrators; directors of research; persons working with testing or evaluation in federal, state and local agencies; counselors; evaluators; graduate students; and behavioral scientists.

**AIR:** The Association of Institutional Research ([AIR](#)), is a non-profit professional organization that supports quality data and decisions for higher education.

**Applicant:** Per *IPEDS*, an individual who has fulfilled the institution's requirements to be considered for admission (including payment or waiving of the application fee, if any) and who has been notified of one of the following actions: admission, non-admission, placement on waiting list, or application withdrawn (by applicant or institution).

**Audit:** Refers to an enrollment in a credit-bearing course, for which the student elects not to receive credit.

**Campus:** A campus is a permanent location, which offers an extensive range of educational programs consisting of academic, technical and career, which lead to an associate of arts, associate of applied science or a technical or vocational certificate; as well as, continuing education, adult basic education, workforce training and community service. Complete instructional and student support services are provided on a campus. A campus is staffed primarily with full-time professional personnel, and the facilities are owned by the community or junior college district. There is at least one campus in each community or junior college district. However, in accordance with Section 37-4-3(6)(e), no new community or junior college branch campus shall be approved without an authorizing act of the legislature.

**Career (Vocational) Student:** refers to a student enrolled in a Career (Vocational) Certificate Program of Study.

**Census Date:** The census date, also referred to as the cut-off date, is the date at which students must be enrolled and in attendance in order to be counted for pay purposes.

**CIP Code:** The Classification of Instructional Program (CIP) Code provides a universal coding system for programs of study that allows for the accurate tracking, assessment, and alignment of program descriptions and program completions activity. CIP was originally developed by the U.S. Department of Education's National Center for Education Statistics (NCES) in 1980, with revisions occurring in 1985 and 1990, 2000, and [2010](#).

**Comprehensive Center:** A comprehensive center is a permanent location, which offers a broad range of educational programs and services. A comprehensive center offers both credit and non-credit courses in multiple instructional areas that may include academic, technical, and career instruction, workforce training and other instruction for professional development and /or lifelong learning. A comprehensive center will have permanent facilities owned or shared by statutory agreement through which the community or junior college is guaranteed utilization. The facilities must be sufficient to carry out the stated mission. Library services and student support services must be comparable to those services located at the main campus. "The number of full-time faculty members must be adequate to provide effective teaching, advising and scholarly or creative activity" (SACS). There may be one or more comprehensive centers in a community and junior college district or none at all.

**Conditional Admission:** A student who is admitted to the college without having completed all the required documentation. These students are not eligible for reimbursement.

**Contact Hour:** A unit of measure that represents an hour of scheduled instruction given to students. Also referred to as a clock hour.

**Credit Hour:** As defined in State Board policy 9.2, a semester credit hour is defined as minimum student-teacher contact of 750 minutes for lecture and 1500 minutes for laboratory, not to include time for passing between classes, registration, nor final examinations.

**Diploma Mill:** An education institution (secondary or postsecondary) operating without supervision of a state or professional agency and granting diplomas which are either fraudulent or, because of the lack of proper standards, worthless.

**Dual Credit Student:** A student who is enrolled in a community or junior college or state institution of higher learning while enrolled in high school and who is receiving BOTH high school and college credit for the postsecondary coursework.

**Dual Enrolled Student:** A student who is enrolled in a community or junior college or state institution of higher learning while enrolled in high school and who is receiving ONLY college credit for the postsecondary coursework

**Electronic Audit Reporting System (eARS):** A system designed and developed by the MCCB to help colleges report data, and to assist the board with conducting the audits. The system allows colleges to upload data upon completion of a term. The data is validated to ensure values are correct and consistent throughout each data set and among all the colleges. It then allows auditors to visit each campus and conduct all work electronically.

**Education Achievement Council (EAC):** Established by the Mississippi Legislature in 2010 (*HB 1071*) for the purposes of increasing the educational attainment and skill levels of Mississippi's working age population to the national average by 2025. Membership includes the chairs of the House and Senate Universities and Colleges Committees, the House and Senate Education Committees, the House and Senate Appropriations Committees, representatives from the IHL, Community College, and K12 Systems, as well as representatives from the MS Economic Council and the MS Department of Mental Health.

**Enrolled:** Any registered, active (not withdrawn or dropped) student listed on a course roster.

**Entering Student:** Any students coming into the institution for the first time. This includes students who initially attended the prior summer term and returned again in the fall; all first-time, first-year students; students transferring into the institution; both full-time and part-time students; and all degree/certificate-seeking as well as non-degree/certificate seeking students.

**Ethnicity** is based on the whether an individual is of Hispanic or Latino descent or not. Hispanic or Latino: A person of Cuban, Mexican, Puerto Rican, South or Central American, or other Spanish culture or origin, regardless of race. The term "Spanish origin" can be used in addition to "Hispanic or Latino."

**Extension Center:** An extension center is a permanent location, which offers a partial range of educational programs and services. An extension center may be solely academic, solely technical/vocational, or a combination of these types of curricula. An extension center is established for a specific, stated instructional mission. Library services and student support services are limited directly to serve the type and number of students. Facilities may be owned or leased by the community or junior college district. There may be one or more extension centers in a community or junior college district or none at all. "The number of fulltime faculty members must be adequate to provide effective teaching, advising and scholarly or creative activity" (SACS). There may be one or more extension centers in a community and junior college district or none at all.

**Fall Cohort:** The group of students entering in the fall term established for tracking purposes. [For the IPEDS Graduation Rates component, this includes all students who enter the institution as full-time, first-time degree or certificate-seeking undergraduate students during the fall term of a given year.]

**FICE Code:** a 6-digit identification code used to identify institutions that are accredited at the college level by an agency recognized by the U.S. Department of Education.

**Five-Year Rule:** If a student previously attended your postsecondary institution (5 years or more prior) and has not subsequently enrolled at another postsecondary institution, your institution's transcript will satisfy admission requirements for that student.

**FTE:** Refers to full-time equivalent. For state reimbursement, this refers to full-time equivalent students and is defined as the total credit hours accumulated by Academic, Technical, and Vocational students during the summer, fall and spring semesters divided by thirty (30).

**Headcount:** An unduplicated tally of students by a characteristic, such as full-time/part-time, major, age, etc.

**Hybrid Courses:** Hybrid courses are defined as those courses with less than seventy-five percent (75%) of student contact hours provided on-line (*SB 3122, 2005*).

**IHL:** Refers to the [Institutions of Higher Learning](#), the governing agency that oversees the seven public four-year colleges in Mississippi.

**In Attendance:** For the purpose of state reimbursement, the term "in attendance" shall mean that the student's last day of attendance (if any) occurred on or after the last class meeting of the sixth week or its equivalent. Students with the equivalent of two absences (per one credit hour course) by the end of the sixth week shall be deemed not in attendance unless that student attends class thereafter (*State Board Policy 9.2*).

**Integrated Career Pathway:** Is a workforce development strategy used in the United States to support workers' transitions from education into and through the workforce; often referred as i-Pathway. This strategy

has been adopted at the federal, state and local levels in order to increase education, training and learning opportunities for America's current and emerging workforce. Career pathways are an integrated collection of programs and services intended to develop students' core academic, technical and employability skills; provide them with continuous education, training; and place them in high-demand, high-opportunity jobs. A career pathways initiative consists of a partnership among community colleges, primary and secondary schools, workforce and economic development agencies, employers, labor groups and social service providers. MI-BEST is the most prevalent integrated career pathway in Mississippi (see below).

**Intercession Course:** An intercession course is one that meets during the interim period between two regular semesters.

**IPEDS:** Refers to the [Integrated Postsecondary Education Data System](#). This is a system of interrelated surveys conducted annually by the U.S. Department of Education's National Center for Education Statistics (NCES). IPEDS gathers information from every college, university, and technical and vocational institution that participates in the federal student financial aid programs. The Higher Education Act of 1965, as amended, requires that institutions that participate in federal student aid programs report data on enrollments, program completions, graduation rates, faculty and staff, finances, institutional prices, and student financial aid. These data are made available to students and parents through the [College Navigator](#) college search Web site and to researchers and others through the [IPEDS Data Center](#).

**Last Date of Attendance (LDA):** The last date the student was physically present in the class, or for an MSVCC student, the last day the student demonstrated activity in that online course. LDA determination for a hybrid course is based on the most appropriate definition above, depending on whether the course was meeting traditionally or online at the time of the LDA.

**Mississippi Association for Institutional Research (MAIR):** An association composed of institutional research professionals at Mississippi's 2-year and 4-year postsecondary institutions.

**MCCB:** Refers to the Mississippi Community College Board ([MCCB](#)), formerly the State Board for Community & Junior Colleges (SBCJC), is the agency responsible for the coordination of the fifteen public 2-year colleges in Mississippi.

**MDE:** Refers to the Mississippi Department of Education, the governing agency that oversees the K-12 system.

**MI-BEST:** Refers to the Mississippi Integrated Basic Education and Skills Training. MI-Best is premised on the highly successful, evidence-based **Integrated Basic Education and Skills Training (I-BEST)** model, launched in Washington (WA) state, that incorporates contextualized learning by concurrently delivering Adult Basic Education (ABE) and Career and Technical Education (CTE) classes using a team teaching approach. MI-BEST is premised on two simple goals:

- Scale the integrated career pathways approach statewide among Mississippi Community and Junior Colleges.
- Increase family-sustaining wages among high school dropouts and non-traditional students in Mississippi by improving educational outcomes and career-focused skills.

**Mid-Level Funding:** The goal of a per-student funding level for community colleges midway between funding for K-12 students and regional public university students. In 2007, a bill was passed by the MS legislature and signed by the governor that would require mid-level funding for community and junior colleges; however, that funding level has not yet been achieved.

**MSVCC:** The Mississippi Virtual Community College ([MSVCC](#)) is a consortium of Mississippi's 15 community colleges that makes it possible for these colleges to leverage their distance learning resources -- including faculty, courses, support services, and technology. Through the MSVCC, students may take courses from community colleges anywhere in Mississippi while getting support services from a local college. To take a course from a remote (**provider**) college, a student enrolls at a local (**host**) community college. The host college supports the student with a full slate of student services, including advisement and counseling, financial aid, and learning resources. The host college awards credit for the course. The remote (provider) college provides the course instruction.

**National Center for Education Statistics (NCES):** A division within the U.S. Department of Education, [NCES](#) is the primary federal entity for collecting and analyzing data related to education in the U.S. and other nations.

**NCCCRP:** The National Community College Council on Research and Planning ([NCCCRP](#)), is the only national organization that exists exclusively to serve institutional research and planning professionals in 2-year, postsecondary educational institutions and other persons with a special interest in community college research.

**No Show:** No shows are students who registered for the course, but never attended the course.

**nSPARC:** This refers to the National Strategic Planning & Analysis Research Center. [nSPARC](#), located at Mississippi State University, seeks to align university, industry, and government expertise and resources to maintain and increase economic competitiveness. nSPARC answers specific questions related to economic, workforce, and community development by conducting high-quality scientific research, including but not limited to statistical analysis, place-based analysis, survey design, and computer-assisted focus groups.

**Off-Campus Site:** An off-campus site is a location, which provides a very limited selection of course offerings (usually academic) that support the instructional mission of a campus or center. Such a site provides minimal library and student support services. Facilities generally are not owned by the college, but may be leased. The existence of an off-campus site does not imply commitment to maintain or to continue operation. A community or junior college must obtain approval from the State Board on a semester-by-semester basis to offer courses at an off-campus site in accordance with § 37-29-69 of the Mississippi Code of 1972, Annotated.

**Off-Schedule Course:** An off-schedule course is any course taught during a regular semester that has a different census date than that of the regular semester's courses. These courses will either be longer or shorter than the standard classes scheduled for that term.

**Perkins:** This refers to the [Carl D. Perkins Career and Technical Education Act of 2006](#). Colleges are required to submit accountability reports annually to the MS Department of Education in order to receive federal funds through Perkins.

**Race** is based in the following five categorizations (*IPEDS definitions*):

- *American Indian or Alaska Native:* A person having origins in any of the original peoples of North and South America (including Central America), and who maintains tribal affiliation or community attachment.
- *Asian:* A person having origins in any of the original peoples of the Far East, Southeast Asia, or the Indian subcontinent, including, for example, Cambodia, China, India, Japan, Korea, Malaysia, Pakistan, the Philippine Islands, Thailand, and Vietnam.
- *Black or African American:* A person having origins in any of the black racial groups of Africa.

- *Native Hawaiian or Other Pacific Islander*: A person having origins in any of the original peoples of Hawaii, Guam, Samoa, or other Pacific Islands.
- *White*: A person having origins in any of the original peoples of Europe, the Middle East, or North Africa.

**Readmission:** A student who has had a lapse in enrollment at a college may require readmission, depending on that college's policy. Each college establishes its own policy for when readmission is necessary; however, all appropriate audit documents are required for the purpose of state reimbursement.

**Reinstatement:** A student who LDAs or withdraws prior to the last class meeting of the 6<sup>th</sup> week (or its equivalent), but who receives college approval to rejoin the class. Reinstatements must be coded on the roster, and reinstated students must be coded as reinstated and in attendance as of the last class meeting of the 6<sup>th</sup> week (or its equivalent) for the purpose of state reimbursement.

**SACCR:** The Southeastern Association for Community College Research ([SACCR](#)), provides a regional forum for planning, coordinating, or conducting activities which promote improvement of community-based postsecondary institutions throughout the southeastern United States. We identify and promote best practices in institutional research and planning, which support and strengthen decision making processes of higher education at the regional, state, and institutional levels.

**SACS:** The Southern Association of Colleges and Schools ([SACS](#)) is the regional body for the accreditation of degree-granting higher education institutions in the Southern states.

**SAIR:** The Southern Association of Institutional Research ([SAIR](#)) is dedicated to the advancement of research leading to improved understanding, planning, and operation of institutions of post-secondary education. SAIR provides a forum for the dissemination of information and interchange of ideas on problems of common interest in the field of institutional research. In addition, SAIR promotes the continued professional development of individuals engaging in institutional research and fosters the unity and cooperation among persons having interests and activities related to research.

**SSCH:** Student Semester Credit Hours - Credit hours generated by all students in a semester.

**SBCJC:** The State Board for Community and Junior Colleges ([SBCJC](#)) is the agency responsible for the coordination of the fifteen public 2-year colleges in Mississippi. (Since July 1, 2011, the agency's name officially changed to the Mississippi Community College Board.)

**Southern Regional Education Board (SREB):** [SREB](#) is a nonprofit, nonpartisan organization that works with 16 member states to improve public pre-K-12 and higher education. Founded by the region's governors and legislators in 1948, SREB was America's first interstate compact for education. Today it is the only regional education compact that works directly with state leaders, schools and educators to improve teaching, learning and student achievement at every level of education.

**SLDS:** The Statewide Longitudinal Data System (SLDS), established by *SB2371 (2011)*, is a multi-agency database, currently in development, that will track education and student outcomes into the workforce.

**TAACCCT Grant Exception:** Students in this grant may or may not have graduated from high school or earned an equivalency diploma.

**Technical Student:** Refers to students taking courses in an Association of Applied Science or Technical Degree program of study.

**Transfer:** A student entering the reporting institution for the first time, but who has attempted hours from an postsecondary institution from which transfer coursework is accepted.

**Unduplicated Headcount:** A student is counted only once during an academic year (Summer term through Spring term) regardless of how many terms the student registers for or how many different classes the student takes during that time period.

**Uniform Course Numbering System:** The system of commonly identifying courses in all college parallel curricula, both in academic and in career-technical programs. A general revision of the numbering systems are prepared on an annual basis.

<http://www.mccb.edu/researchplan/CourseNumb.aspx>

**USDOE:** [United States Department of Education](#) (also sometimes referred to simply as DOE).

**Vocational Student:** See *Career Student*.

# UPLOAD PROCESS AND FILE SPECIFICATIONS

## FILE UPLOAD PROCESS

This entire process can now be done via eARS ! No need to access the Enrollment Tool for MSVCC data!

1. Login to eARS
2. Click on the Pre-Audit (MSVCC) tab
3. View and/or download VCC courses, faculty and students
  - a. Click on the green tabs
  - b. Files can be viewed and/or downloaded to Excel
4. Review for accuracy, that is, each VCC course ID matches the course ID in the SIS (Banner, Colleague, Alliant, etc.).
  - a. Once in agreement the person responsible for VCC should complete the next two steps
  - b. Check the “I concur our virtual...” checkbox
  - c. Press the “Submit Pre-Audit Data” button
5. Click on the eAudit Summary tab
6. Download VCC Student Schedule file
  - a. This file contains only ‘crossed’ students – that is, local students that took courses from other districts
  - b. Save the VCC**xxxyyyts**.txt to your computer
    - i. xxx = District
    - ii. yyyy = Year
    - iii. t = Term
    - iv. s = indicates Student Schedule file
7. Create term data files (Primary Enrollment, Course, Student Schedule, and Faculty)
  - a. Extract data from your SIS to create text files
    - i. For the Student Schedule extract traditional and MSVCC courses, i.e., all of your students taking your courses
    - ii. To assist getting the grades for your students, download some/all of the extracts provided in the Tables & Views tab
  - b. Use file layouts and definitions as outlined in this manual
  - c. Append the VCC**xxxyyyts**.txt to the created Student Schedule file
8. Click on the File Upload & Validation tab
  - a. Upload files in this order: faculty, course, primary enrollment, student schedule
  - b. Validations are performed as each file is uploaded
  - c. If upload fails validation, then click on File View button (in red) on bottom of main screen to view/download error list

- d. Reload until all errors are cleared
  - i. Sometimes, it is necessary to reload a file that loaded successfully
- 9. Secondary Verification
  - a. Once the upload of all files is successful, an automatic email is sent to MCCB requesting the Secondary Verification
  - b. Note, the Summary Enrollment Report is now optional
  - c. Successful upload does not necessarily mean all data is accurate
  - d. The Secondary Verification results are placed in the Secure FTP folder
    - i. The spreadsheet contains many worksheets providing multiple ways to view the data
    - ii. Please forward to any and all personnel that is responsible for a given type of data
    - iii. Review worksheets in great detail
- 10. Upon receipt of Secondary Verification Spreadsheet
  - a. A button will appear on page to accept/confirm verification
    - i. Do not press the confirmation button until everything and everyone are on board with the data
  - b. Might have to reload some files or all files
    - i. Nothing to cancel
    - ii. Do this as many times as needed
- 11. Once the college agrees with Secondary verification
  - a. Click on the Confirm Secondary Verification button
  - b. This locks files and allows MCCB to generate an Audit Sample
- 12. Now it is time to negotiate a time for an Audit visit
  - a. Emails between appropriate data contact and MCCB will ensue
  - b. Upon agreeing on a date, the MCCB will schedule a date
    - i. Date will display on main screen
- 13. The day before the scheduled visit a link will appear on main screen
  - a. The link allows the college to view and download the student audit sample

## TERM FILES

These four term files must be uploaded upon completion of each Summer, Fall or Spring semester via the Electronic Audit Reporting System (eARS). These files are to be uploaded in sequence as outlined below. Files can be reloaded as often as necessary, until files are locked when they are ready for to be audited. A fairly extensive validation is performed upon upload. However, a successful upload does not necessarily imply that the files are ready for audit. A secondary verification is performed after the upload which might require the college to reload some or all the files.

### Faculty

- Naming scheme: xxxyyyytf.txt
  - xxx = District code (201, 202, etc.)
  - yyyy = Academic year
  - t = Term (1=Summer, 2=Fall, 3=Spring)
  - f = Faculty

Example for Fall 2012 for Coahoma: 20120132f.txt

Example for Spring 2013 for Copiah: 20220133f.txt

- Both the file types and the 'txt' in the filename must be in lowercase
- Report one record per faculty member - even if member teaches at multiple sites
- Record length = 84 bytes
  - Files with records shorter/longer will be rejected
- First file in upload process
- Code and report off-schedule classes/students/enrollments/faculty with the term in which the census date occurred
- Code and report intersession classes/students/enrollments/faculty with the subsequent term

### Course

- Naming scheme: xxxyyyytc.txt
  - xxx = District code (201, 202, etc.)
  - yyyy = Academic year
  - t = Term (1=Summer, 2=Fall, 3=Spring)
  - c = Course

Example for Fall 2012 for Coahoma: 20120132c.txt

Example for Spring 2013 for Copiah: 20220133c.txt

- Both the file types and the 'txt' in the filename must be in lowercase
- Report one record per class taught – traditional or online
  - No need to include cancelled/closed courses – no students
- Record length = 90 bytes.
  - Files with records shorter/longer will be rejected
- Second file in upload process
  - Will require re-upload if faculty file is re-uploaded
- Code and report off-schedule classes/students/enrollments/faculty with the term in which the census date occurred

- Code and report intersession classes/students/enrollments/faculty with the subsequent term

### Primary Enrollment

- Naming scheme: xxxyyyytp.txt
  - xxx = District code (201, 202, etc.)
  - yyyy = Academic year
  - t = Term (1=Summer, 2=Fall, 3=Spring)
  - p = Primary Enrollment

Example for Fall 2012 for Coahoma: 20120132p.txt

Example for Spring 2013 for Copiah: 20220133p.txt

- Both the file types and the 'txt' in the filename must be in lowercase
- Report one record per student that was still enrolled after drop/add period
  - That is, students for which a transcript can be generated for this term, even if not requesting reimbursement
  - The 'Include Student' field is to request reimbursement for students still in attendance by cutoff date and without excessive absences
- Record length = 197 bytes
  - Files with records shorter/longer will be rejected
- Third file to be uploaded
  - Will require re-upload if course file is re-uploaded
- Code and report off-schedule classes/students/enrollments/faculty with the term in which the census date occurred
- Code and report intersession classes/students/enrollments/faculty with the subsequent term

### Student Schedule

- Naming scheme: xxxyyyyts.txt
  - xxx = District code (201, 202, etc.)
  - yyyy = Academic year
  - t = Term (1=Summer, 2=Fall, 3=Spring)
  - s = Student Schedule

Example for Fall 2012 for Coahoma: 20120132s.txt

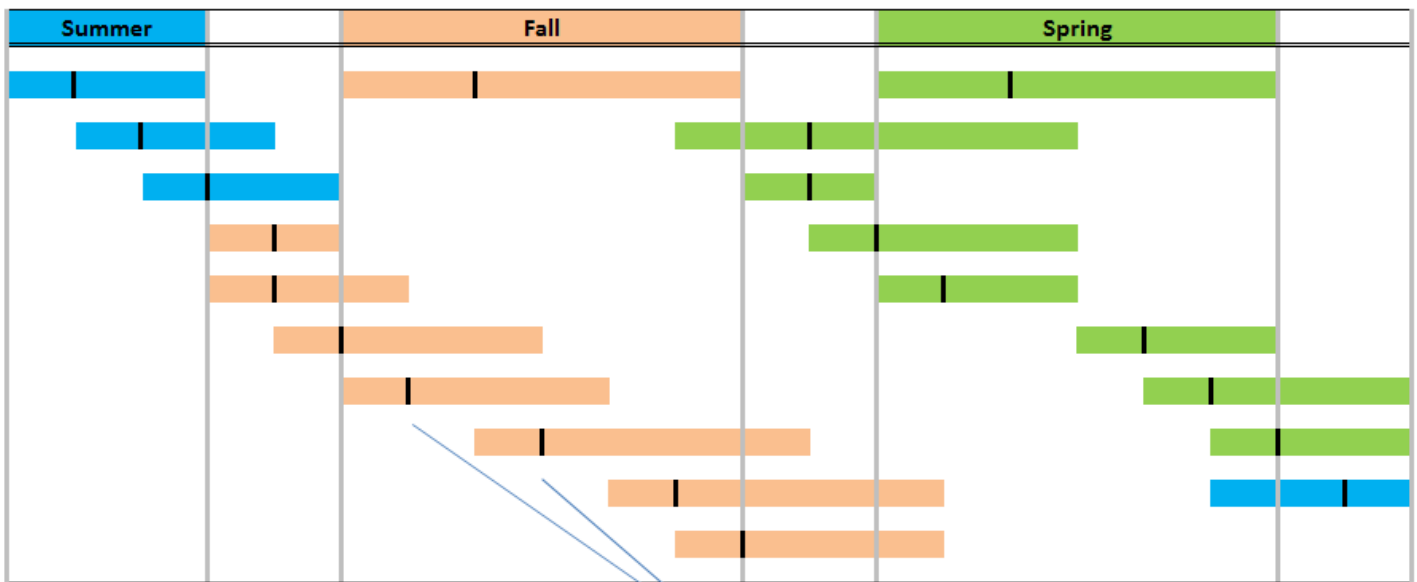

Example for Spring 2013 for Copiah: 20220133s.txt

- Both the file types and the 'txt' in the filename must be in lowercase
- Report one record per student per class that was still enrolled after drop/add period
  - That is, credit hours that would show in a transcript for this term, even if not requesting reimbursement
  - The 'Include Hours' field is to request reimbursement for students still in attendance by cutoff date and without excessive absences in this class
- Record length = 39 bytes or 51 bytes if including electronic attendance
  - Files with records shorter/longer will be rejected
- Last file to be uploaded
  - Will require re-upload if primary enrollment file is re-uploaded

- Code and report off-schedule classes/students/enrollments/faculty with the term in which the census date occurred
- Code and report intersession classes/students/enrollments/faculty with the subsequent term
- Extract from your SIS each course in which a student is enrolled; that is, include any MSVCC classes
  - Once extract is complete, append the VCC 'hosted' student schedule (VCCxxxxyyyts.txt) to the text file
  - The VCC student schedule is to account for your students' credit hours taken at other districts

**When to include term data**

- Code and report off-schedule all term files with the term in which the census date occurred.
- Code and report intersession all term files with the subsequent term.

The vertical bar represents the census (cut-off) date

## ANNUAL FILE

### Graduate

- Naming scheme: XXXYYYYTg.txt
  - XXX = District code (201, 202, etc.)
  - YYYY = Academic year
  - T = Term (0=Annual)
  - g = Graduate
- Record length = 48 bytes
  - Files with records shorter/longer will be rejected
- Upload after completion of Spring graduation
- Report all students who received an award (degree or credential) on the prior academic year (Summer, Fall or Spring)
  - One file for entire academic year
- Report one record for each degree or certificate awarded. That is, a student might have two or more records
- A warning, not an error, will be generated if no previous enrollment is detected for a student within the past academic year
- If student last attended your institution prior to Summer 2012, a Primary Enrollment record must be provided via the FTP site
  - This happens when awarding degree through the 'reverse transfer' mechanism

## VALIDATIONS

- File will be rejected if it has an invalid file name
- File will be rejected if it has an invalid record length
- Files must be uploaded in proper sequence
- Potential difference between Enrollment Summary headcount and Secondary Verification headcount
  - Enrollment Summary uses the accumulators from the PE file (fields 22, 23, 24, 25, 26 and 32)
  - Secondary Verification removes students for which there are no Student Schedule records
  - In a perfect submission both headcounts will match

## PRIMARY ENROLLMENT FILE STRUCTURE

Record length: 198 bytes

Field	Field Name	Start	Len	Field Type	Definition	Valid Choices or Examples

## VALIDATIONS AND CLARIFICATIONS

### ADN Students

- ADN student MUST be coded as academic (CIP code 513801 is NO longer valid)
- F27 - Major = 513800 (new 2010 CIP code value)
- F9 - Curriculum = 1 (Academic)

### Duplicated Students

- There must be a one-to-one relationship between the student's Social Security and the Identification numbers
- Duplicate SSN's will be rejected
- Duplicate student ID's will be rejected

### Credit Hours Format

- Fields 22, 23, 24, 25, 26, 32
- Yes, the period counts as a character! Make sure the field is padded with zeroes, not spaces. There are no implied decimals. If you enter 00300, it will read as 300 hours
- Any of these formats is valid: 00003; 00004; 03.00; 03.50

### Conditional Admission

- F17 – Admission Compliance = D (Conditional Admission)
- F42 – Include/Exclude = 0 (Student cannot be reimbursed)

### Non-Degree Seeking Students

## TAACCCT and MI-BEST Exceptions

- F17 – Admission Compliance = 'C' for TAACCCT or 'E' for MI-BEST
- If student has HSE or HS diploma
  - F9 – Curriculum = 2 or 3 (Technical or Career)
  - F10 – Classification = 1 or 2 (Freshman or Sophomore)
  - F15 – Degree Seeking = 1 (Yes)
  - F16 – Degree Seeking Status = 1, 2, or 3 (FTFY, 1<sup>st</sup> Yr Cont., All Other)
  - F27 – Program of Study = Approved CIP code (not 999999)
  - F41 – Initial Admission Compliance = 'C' or 'E'
  - F43 – Integrated Pathway = 1 (Yes)
- If student does NOT have GED or HS diploma
  - F9 – Curriculum = 4 (Non-Degree Seeking)
  - F10 – Classification = 4 (Not Classified)
  - F15 – Degree Seeking = 2 (No)
  - F16 – Degree Seeking Status = 4 (Not Degree or Award Seeking)
  - F27 – Program of Study = 999999
  - F41 – Initial Admission Compliance = 'C' or 'E'
  - F43 – Integrated Pathway = 1 (Yes)
- Once the student earns the HSE diploma then change codes; if term started, then make changes on subsequent term.

## Suggestion for Special Social Security Numbers for students who don't provide their number

- Begin with

901 – Coahoma	906 – Holmes	911 – Gulf Coast
902 – CoLin	907 – Itawamba	912 – Northeast
903 – East Central	908 – Jones	913 – Northwest
904 – East MS	909 – Meridian	914 – Pearl River
905 – Hinds	910 – Delta	915 – Southwest
- Social Security Administration does not issue cards beginning with digits in the 900 range
- Establish a counter
- Assign a new number to a new student
  - For example 909-00-0001 for first one at Meridian
- Never repeat the number
- If student transfers, encourage him/her to use this number

## Include/Exclude Student

- Report ALL students as of the drop/add date
- ALL student for which a transcript will be generated
- The credit hour in the accumulators will be matched to the sum of hours in the Student Schedule file, whether or not the college requests reimbursement

20	Weeks Per Term	101	2	Num	Nominal number of weeks in the term	RoundUp((EndDate-StartDate)/7, 0) Round up to zero decimals to allow for partial first week  <b>CANNOT BE BLANK if F17=1</b>
21	Allowed Absences	103	3	Num	Allowed absences within the Audit Period	RoundUp((((MeetingsPerWeek*WeeksPerTerm*CreditHours*100)/(CreditHours*750)), 0) Round up to zero decimals to avoid partial absences This will match the Absences Allowed Chart  <b>CANNOT BE BLANK if F17=1</b>

## VALIDATIONS AND CLARIFICATIONS

### Duplicated Courses

- Duplicate course ID's will be rejected.

### Credit Hours Format

- F11
- Yes, the period counts as a character! Make sure the field is padded with zeroes, not spaces. There are no implied decimals. If you enter 00300, it will read as 300 hours.
- Any of these formats is valid: 00003; 00004; 03.00; 03.50

### Course ID Format

- F3
- This ID must exactly match to the course ID in the Student Schedule file.
- This includes field justification and case.

### Start and End Dates

- F8 and F9
- These are the dates on which a class actually starts and ends.
- These are NOT the official start or end dates that might be stated by the college.

### CutOff and Return Dates

- F14 and F18
- These are exact dates as calculated.
- No 'backing up' to the last class of the period.
- These are 'fences' to delimit the Audit and the Return Periods.

### Audit Period

- Is the time span between the Actual Start Date and the CutOff Date.
- All absences are counted within this period.

### Return Period

- Is the time span between the CutOff Date and the Return Date.
- Absences are NOT counted within this period.
- If student was absent on the last class of the Audit Period and has not exceeded the maximum number of allowed absences, then examine the Return Period to check if student attended at least once, that is, check if student returned or not.

## VALIDATIONS AND CLARIFICATIONS

### Attendance Fields 8, 9 and 10

- Optional for academic years 2016 and 2017, required thereafter
  - For classes with 'traditional' delivery

### Classes from Traditional and MSVCC

- First extract to a text file the traditional and local VCC classes from the SIS
- Then append to the text file the Hosted (crossed) VCC classes extracted from eARS
- Use one or more of the extracts provided in eARS to help find the grades for the hosted classes
- This will tremendously reduce the size of the VCC snapshot
  - Now, we will be dealing with tens of records and not hundreds
  - Some errors will continue to pop-up, like the SS record with a student taking a course that does not exist at the provider institution (sometimes a result of incorrect course ID's)
  - Dealing with a smaller file should help simplify the debugging process

### Include/Exclude Credit Hours

- Report all credit hours student attempted
- That is ALL hours as of the drop/add date.
- ALL hours for which a grade will be issued and posted on a transcript
- The credit hour will be summed up and accumulated to match the Primary Enrollment accumulators, whether or not the college requests reimbursement

### Grades for VCC Courses

- The VCC snapshot comes from the Enrollment Tool (ET)
- The VCC does not always have the latest (correct) grade
- The snapshot will not pull the grades from ET, instead you need to extract from your SIS
- The SIS is the database of record when it comes to student grades

### Course ID Format

- F5
- This ID must match exactly to the course ID in the Student Schedule file. This includes field justification and case.

### Student ID Format

- F3
- This ID must match exactly to the student ID in the Student Schedule file. This includes field justification and case.

**EXAMPLE:** a local SIS contains the following:

STUDENT ID	COURSE ID	COURSE TYPE	GRADE
100001	MAT131301	Traditional local course	A
100001	ENG111301	Traditional local course	W
100001	BIO232380	VCC PROVIDED course	A
100001	BIO283180	VCC CANCELLED PROVIDED course	
100001	MFL1111ZZYK	VCC HOSTED course	C

For student 10001, the first 3 courses highlighted in yellow would be included from the local SIS (via the college's scripting). Cancelled courses should be omitted. The 5th row, since for this student the course was provided by another college, will come down via the VCC Student Schedule download and appended to the Student Schedule file as in the past. However, VCC download will NOT contain the grade, and it must be added before uploading the SS file into eARS. This means that all grades for all of a college's reported students - traditional, provided VCC, and hosted VCC - are reported from the college SIS.

## VALIDATIONS AND CLARIFICATIONS

### Primary Enrollment File for Students who last attended prior to Summer 2012

- Deposit a PE file in the FTP site for students who last took courses at your institution prior to Summer 2012
- Or if the college changed SIS provider after Summer 2012 and new ID's were issued

### Duplicated Student Records

- A student can earn multiple degrees and/or certificates in a given term, thus report each on a separate record

### Academic Year

- An academic year encompasses Summer (1), Fall (2) and Spring (3). For example academic year 2015 codes would include Summer 2014 (20151), Fall 2014 (20152) and Spring 2015 (20153).

If student did not attend in the current academic year, then provide Primary Enrollment record via the FTP folder.

If student last attended prior to 2002, or when college used a different SIS, then provide alternate student ID's via the FTP folder.

## RESIDENCY STATUTES FOR STUDENTS ATTENDING OR APPLYING FOR ADMISSION TO EDUCATIONAL INSTITUTIONS

### § 37-103-1. Standards to be applied in determining residency.

The board of trustees of each junior college in this state, the board of trustees of state institutions of higher learning, and the administrative authorities of each institution governed by said boards, in ascertaining and determining the legal residence of and tuition to be charged any student applying for admission to such institutions shall be governed by the definitions and conditions set forth in [Sections 37-103-1](#) through [37-103-23](#).

*Sources:* Codes, 1942, § 6800-11; Laws, 1962, ch. 355, § 1; Laws, 1968, ch. 417, § 1; ch. 418, § 1, eff from and after passage (approved August 7, 1968).

---

### § 37-103-3. Residency requirement for purpose of being admitted as state resident; definition of residence.

No student may be admitted to any junior college or institution of higher learning as a resident of Mississippi unless his residence has been in the State of Mississippi preceding his admission. Residence shall be as defined in [Sections 37-103-7](#) and [37-103-13](#) unless excepted in this chapter.

*Sources:* Codes, 1942, § 6800-11; Laws, 1962, ch. 355, § 1; Laws, 1968, ch. 417, § 1; ch. 418, § 1; Laws, 1990, ch. 326, § 1, eff from and after July 1, 1990.

---

### § 37-103-5. Residence status of person entering state for purpose of attendance at educational institution.

A person who has entered the State of Mississippi from another state and enters an educational institution is considered a nonresident. Even though he may have been legally adopted by a resident of Mississippi, or may have been a qualified voter, or a landowner, or may otherwise have sought to establish legal residence, except as otherwise provided in [Section 37-103-25\(2\)](#), such a person will still be considered as being a nonresident of Mississippi if he has entered this state for the purpose of enrolling in an educational institution.

*Sources:* Codes, 1942, § 6800-11; Laws, 1962, ch. 355, § 1; Laws, 1968, ch. 417, § 1; ch. 418, § 1; Laws, 1990, ch. 326, § 2; Laws, 2003, ch. 364, § 4, eff from and after July 1, 2003.

---

**§ 37-103-7. Legal residence of minor students for purposes of attendance at universities and community colleges.**

For purposes of determining whether a person pays out-of-state or in-state tuition for attendance at universities and community and junior colleges, the residence of a person less than twenty-one (21) years of age is that of the father, the mother or a general guardian duly appointed by a proper court in Mississippi. If a court has granted custody of the minor to one (1) parent, the residence of the minor is that of the parent who was granted custody by the court. If both parents are dead, the residence of the minor is that of the last surviving parent at the time of that parent's death, unless the minor lives with a general guardian duly appointed by a proper court of Mississippi, in which case his residence becomes that of the guardian. A student residing within the State of Mississippi who, upon registration at a Mississippi institution of higher learning or community college, presents a transcript demonstrating graduation from a Mississippi secondary school and who has been a secondary school student in Mississippi for not less than the final four (4) years of secondary school attendance shall not be required to pay out-of-state tuition. This section shall not apply to the residence of a person as it relates to residency for voter registration or voting.

---

**§ 37-103-9. Residence status of children of parents employed by educational institutions.**

Children of parents who are members of the faculty or staff of any institution under the jurisdiction of the board of trustees of any junior college in this state or the Board of Trustees of State Institutions of Higher Learning may be classified as residents for the purpose of attendance at the institution where their parents are faculty or staff members.

**Sources:** Codes, 1942, § 6800-11; Laws, 1962, ch. 355, § 1; Laws, 1968, ch. 417, § 1; ch. 418, § 1; Laws, 1990, ch. 326, § 3, eff from and after July 1, 1990.

---

**§ 37-103-11. Effect of removal of parents from state.**

If the parents of a minor who is enrolled as a student in a junior college or in an institution of higher learning move their legal residence from the State of Mississippi, the minor shall be immediately classified as a nonresident student.

**Sources:** Codes, 1942, § 6800-11; Laws, 1962, ch. 355, § 1; Laws, 1968, ch. 417, § 1; ch. 418, § 1, eff from and after passage (approved August 7, 1968).

---

### **§ 37-103-13. Legal residence of adult.**

The residence of an adult is that place where he is domiciled, that is, the place where he actually physically resides with the intention of remaining there indefinitely or of returning there permanently when temporarily absent.

**Sources:** Codes, 1942, § 6800-11; Laws, 1962, ch. 355, § 1; Laws, 1968, ch. 417, § 1; ch. 418, § 1, eff from and after passage (approved August 7, 1968).

---

### **§ 37-103-15. Legal residence of married person.**

A married person may claim the residence status of his or her spouse, or he or she may claim independent residence status under the same regulations set forth in [Section 37-103-13](#) as any other adult.

**Sources:** Codes, 1942, § 6800-11; Laws, 1962, ch. 355, § 1; Laws, 1968, ch. 417, § 1; ch. 418, § 1; Laws, 1980, ch. 541, eff from and after July 1, 1980.

---

### **§ 37-103-17. Residence status of military personnel assigned to active duty and stationed in state and members of the Mississippi National Guard.**

Members of the United States Armed Forces on extended active duty and stationed within the State of Mississippi and members of the Mississippi National Guard may be classified as residents, for the purpose of attendance at state-supported institutions of higher learning and community and/or junior colleges of the State of Mississippi. Resident status of such military personnel who are not legal residents of Mississippi, as defined in [Section 37-103-13](#), shall terminate upon their reassignment for duty in the continental United States outside the State of Mississippi.

**Sources:** Codes, 1942, § 6800-11; Laws, 1962, ch. 355, § 1; Laws, 1968, ch. 417, § 1; ch. 418, § 1; Laws, 1988, ch. 404; Laws, 1990, ch. 326, § 4; Laws, 1999, ch. 305, § 1; Laws, 1999, ch. 332, § 1, eff from and after July 1, 1999.

---

### **§ 37-103-19. Residence status of spouse or child of military personnel assigned to active duty.**

(1) Resident status of a spouse or child of a member of the Armed Forces of the United States on extended active duty shall be that of the military spouse or parent for the purpose of attending state-supported institutions of higher learning and community/junior colleges of the State of Mississippi during the time that the military spouse or parent is stationed within the State of Mississippi and shall be continued through the time that the military spouse or parent is stationed in an overseas area with last duty assignment within the State of Mississippi, excepting temporary training assignments en route from Mississippi. Resident status of a minor child terminates upon reassignment under Permanent Change of Station Orders of the military parent for duty in the continental United States outside the State of Mississippi, excepting temporary training assignments en route from Mississippi, and except that children of members of the Armed Forces who attain Mississippi residency in accordance with the above provisions, who begin and complete their senior year of high school in Mississippi, and who enroll full time in a Mississippi institution of higher learning or community/junior college to

begin studies in the fall after their graduation from high school, maintain their residency status so long as they remain enrolled as a student in good standing at a Mississippi institution of higher learning or community/junior college. Enrollment during summer school is not required to maintain such resident status.

(2) The spouse or child of a member of the Armed Forces of the United States who dies or is killed is entitled to pay the resident tuition fee if the spouse or child becomes a resident of Mississippi.

(3) If a member of the Armed Forces of the United States is stationed outside Mississippi and the member's spouse or child establishes residence in Mississippi and registers with the Mississippi institution of higher learning or community/junior college at which the spouse or child plans to attend, the institution of higher education or community/junior college shall permit the spouse or child to pay the tuition, fees and other charges provided for Mississippi residents without regard to length of time that the spouse or child has resided in Mississippi.

(4) A member of the Armed Forces of the United States or the child or spouse of a member of the Armed Forces of the United States who is entitled to pay tuition and fees at the rate provided for Mississippi residents under another provision of this section while enrolled in a degree or certificate program is entitled to pay tuition and fees at the rate provided for Mississippi residents in any subsequent term or semester while the person is continuously enrolled in the same degree or certificate program. A student may withdraw or may choose not to reenroll for no more than one (1) semester or term while pursuing a degree or certificate without losing resident status only if that student provides sufficient documentation by a physician that the student has a medical condition that requires withdrawal or non-enrollment. For purposes of this subsection, a person is not required to enroll in a summer term to remain continuously enrolled in a degree or certificate program. The person's eligibility to pay tuition and fees at the rate provided for Mississippi residents under this subsection does not terminate because the person is no longer a member of the Armed Forces of the United States or the child or spouse of a member of the Armed Forces of the United States.

### **§ 37-103-21. Military certificate.**

A military person on active duty stationed in Mississippi who wishes to avail himself or his dependents of the provisions of [Section 37-103-17](#), must submit a certificate from his military organization showing the name of the military member; the name of the dependent, if for a dependent; the name of the organization of assignment and its address (may be in the letterhead); that the military member will be on active duty stationed in Mississippi on the date of registration at the state-supported institution of higher learning or junior college of the State of Mississippi; that the military member is not on transfer orders; and the signature of the commanding officer, the adjutant, or the personnel officer of the unit of assignment with signer's rank and title. A military certificate must be presented to the registrar of the state-supported institution of higher learning or junior college of the State of Mississippi each semester or tri-semester at (or within ten days prior to) registration each semester for the provisions of said section to be effective.

**Sources:** Codes, 1942, § 6800-11; Laws, 1962, ch. 355, § 1; Laws, 1968, ch. 417, § 1; ch. 418, § 1, *eff from and after passage (approved August 7, 1968).*

**~~§ 37-103-23. Classification of aliens.~~**

All aliens are classified as nonresidents. Law declared unconstitutional by *Jagnadan v. Giles*, 379 F. Supp. 1178 (N.D. Miss. 1974), affirmed in part on other grounds 538 F. 2d 1166 (5<sup>th</sup> Cir. 1976), cert. denied. Refer to attached AG Opinion No. 2007-00416 (August 13, 2007) beginning on page 7 of this document for guidance used in residency determination.

**§ 37-103-25. Tuition and fees for attending state-supported institutions of higher learning and community and junior colleges; waiver of out-of-state tuition under certain circumstances.**

(1) The Board of Trustees of State Institutions of Higher Learning and the boards of trustees of the community colleges and junior colleges are authorized to prescribe the amount of tuition and fees to be paid by students attending the several state-supported institutions of higher learning and community colleges and junior colleges of the State of Mississippi.

(2) Except as otherwise provided in this subsection and subsections (3) and (4) of this section, the total tuition to be paid by residents of other states shall not be less than the average cost per student from appropriated funds. However, the tuition to be paid by a resident of another state shall be equal to the tuition amount established under subsection (1) of this section if:

(a) The nonresident student is either a veteran, as defined by Title 38 of the United States Code, or a person entitled to education benefits under Title 38 of the United States Code. This paragraph (a) shall be administered and interpreted in the manner necessary to obtain or retain approval of courses of education by the Secretary of the United States Department of Veterans Affairs;

(b) The nonresident student is an evacuee of an area affected by Hurricane Katrina or Hurricane Rita. This waiver shall be applicable to the 2005-2006 school year only; or

(c) The nonresident student's out-of-state tuition was waived according to subsection (3) or (4) of this section.

(3) The Board of Trustees of State Institutions of Higher Learning may, in its discretion, consider and grant requests to approve institution specific policies permitting the waiver of out-of-state tuition when such an official request is made by the president or chancellor of the institution and when such request is determined by the board to be fiscally responsible and in accordance with the educational mission of the requesting institution.

(4) The board of trustees of any community college or junior college may develop and implement a policy for waiving out-of-state tuition for the college if the policy is determined by the board to be in accordance with the educational mission of the college and if a local industry or business or a state agency agrees to reimburse the college for the entire amount of the out-of-state tuition that will be waived under the policy. State funds shall be allocated and spent only on students who reside within the State of Mississippi. However, associate degree nursing students who reside outside the State of Mississippi may be counted for pay purposes.

SECTION 2. This act shall take effect and be in force from and after its passage.

**§ 37-103-27. Responsibility for registration under proper residence status; presentation of false evidence of residence status.**

The responsibility for registering under his proper residence status is placed upon the student. In addition to any administrative action which may be taken by the governing authorities of the state-supported institutions of higher learning or junior colleges concerned, any student who willfully presents false evidence as to his residence status shall be deemed guilty of a misdemeanor, and upon conviction thereof may be fined not to exceed one hundred dollars (\$100.00).

**§ 37-155-5. Mississippi Prepaid Affordable College Tuition (MPACT) Program – Article 1. Definitions.**

As used in this article, the following terms have the meanings ascribed to them in this section, unless the context clearly indicates otherwise:

- (a) Prepaid Tuition Contract. A contract entered into between the Board of Directors of the College Savings Plans of Mississippi Trust Funds and a purchaser pursuant to this article.
- (b) Trust fund. There is created a special fund in the State of Mississippi Treasury Department to be designated as the "Mississippi Prepaid Affordable College Tuition Trust Fund" (hereinafter referred to as the trust fund or fund) and to be administered by the State of Mississippi Treasury Department. The fund shall consist of state appropriations, monies acquired from other governmental or private sources, and money remitted in accordance with prepaid tuition contracts. In the event that dividends, interest and gains exceed the amount necessary for program administration and disbursements, the board may designate a percentage of the fund to serve as a contingency fund.
- (c) Purchaser. A person, corporation, trust, charitable organization or other such entity that makes or is obligated to make advance payments in accordance with a prepaid tuition contract entered into pursuant to this article. However, no purchaser may request or accept any form of compensation, fee, commission, service charge or any other form of payment or remuneration for entering into a contract for the benefit of a nonresident beneficiary.
- (d) Beneficiary. (i) The beneficiary of a prepaid tuition contract must be eighteen (18) years of age or younger at the time the purchaser enters into the contract and must be: (A) a resident of this state at the time the

purchaser enters into the contract; or (B) a nonresident if the purchaser is a resident of this state at the time that the contract is entered into.

(ii) The board may require a reasonable period of residence in this state for a beneficiary or the purchaser.

(iii) A beneficiary is considered a resident for purposes of tuition regardless of the beneficiary's residence on the date of enrollment. However, for contracts entered into after July 1, 2003, this provision only applies to nonresident beneficiaries if (A) the original purchaser was the parent, grandparent or legal guardian of the beneficiary; or (B) the beneficiary was a resident of Mississippi at the time the contract was purchased.

(e) Institution of higher education. Any public institution of higher learning or public community or junior college located in Mississippi.

(f) Tuition. The quarter, semester or term charges and all required fees imposed by an institution of higher education as a condition of enrollment by all students.

(g) Board or board of directors. The Board of Directors of the College Savings Plans of Mississippi Trust Funds as provided in Section 37-155-7.

(h) Legislature. The Legislature of Mississippi.

ATTORNEY GENERAL OPINION – STONECYPHER - 2007

2007 WL 2744769 (Miss. A.G.)

Office of the Attorney General  
State of Mississippi

Opinion No. 2007-00416

August 13, 2007

Re: Determination of residence for purposes of in-state tuition and allocation of funds

Wayne Stonecypher  
Executive Director  
State Board for Community and Junior Colleges  
3825 Ridgewood Road  
Jackson, MS 39211

Dear Dr. Stonecypher:

Attorney General Jim Hood received your request for an official opinion and assigned it to me for research and response. In your letter of request, you state:

This correspondence is to seek an Official Attorney General's Opinion on the questions set forth herein.

Section 37-103-1 et seq. establishes the requirements for setting tuition and out-of-state fees for Mississippi's public universities and community and junior colleges. Section **37-103-25** has been interpreted for many years as requiring total out-of-state tuition and fees to be set at a minimum at the amount of state funds appropriated for community/junior college support divided by the number of full-time students or "FTE's."

Recently, questions have arisen regarding the treatment of certain students for purposes of in-state or out-of-state tuition and for purposes of inclusion or exclusion from the community and junior college funding formula. Section 37-103-13 states "The residence of an adult is that place where he is domiciled, that is, the place where he actually physically resides with the intention of remaining there indefinitely or of returning there permanently when temporarily absent." We also direct your attention to a 2006 amendment to Section 37-103-7 which reads in part "A student residing within the State of Mississippi who, upon registration at a Mississippi institution of higher learning or community college, presents a transcript demonstrating graduation from a Mississippi secondary school and who has been a secondary school student in Mississippi for not less than the final four (4) years of secondary school attendance shall not be required to pay out-of-state tuition." The key word in this Code section that is relevant to the question we pose is the meaning of the word "residing."

In light of these statutory provisions and others, can a student or their parents, if the student is under the age of 21, establish legal residence (domicile) in Mississippi when they are in the United States unlawfully or are holding nonimmigrant visas, for the purpose of qualifying for in-state tuition in accordance with Section **37-103-25**; and can the State Board for Community and Junior Colleges allocate funds to the college in which the student is enrolled under the funding formula as an in-state student?

In addition, on a related matter please, advise as to whether a student may qualify as a resident for tuition purposes, if the student meets the requirements of Section **37-103-25(2)(a)**, but does not meet the requirements of Section **37-103-25(2)(b)** and (c).

In response to your first question, generally speaking, for purposes of determining eligibility for in-state tuition, the residence of a person under the age of twenty-one years is that of “the father, the mother, or a general guardian” appointed by a Mississippi court. [Miss. Code Ann. Sec. 37-103-7 \(Supp. 2006\)](#). The residence of an adult is the adult's domicile, i.e., “the place where the adult physically resides with the intention of remaining there indefinitely or of returning there permanently when temporarily absent.” There are a number of exceptions and special circumstances provisions in which an individual, who otherwise would not qualify, can qualify for in-state tuition, e.g., special provisions for married persons in Sec. 37-103-15; children of faculty and staff in Sec. 37-103-9; MPACT beneficiaries in Sec. 37-155-5(d)(iii); military personnel in Sec. 37-103-17, 19; and others.

\*2 Section 37-103-23 states that “[a]ll aliens are classified as nonresidents.” This statute was declared unconstitutional in [Jagnadan v. Giles, 379 F. Supp. 1178 \(N.D. Miss. 1974\)](#), affirmed in part on other grounds [538 F. 2d 1166 \(5th Cir. 1976\)](#), cert. denied. No statutory provision specifically addressing aliens and residency for tuition purposes is currently in effect.

While this office does not opine with regard to federal law, there are two federal statutes that we must note in order to respond to your request. The first is a provision that generally makes undocumented aliens ineligible to receive state and local benefits, unless a state affirmatively provides for such eligibility after August 22, 1996. [8 U.S.C. Sec. 1621](#). The second federal statute provides that aliens not lawfully present in the United States are not eligible on the basis of residence within a state for a postsecondary education benefit, unless such benefit is available to any citizen of the United States regardless of residency. [8 U.S.C. Sec. 1623](#). Under the Supremacy Clause of the United States Constitution, a state law which is in conflict with or interferes with a federal law, must yield to the federal law.

There has been no Mississippi statute enacted after August 22, 1996 to make undocumented aliens eligible for in-state tuition. Residency has been and remains the key determinant of whether a person qualifies for in-state tuition. Therefore, under current Mississippi law, undocumented aliens do not qualify for in-state tuition. The 2006 amendment to [Section 37-103-7](#) contains a residency requirement, which unless made available to all students regardless of residency, would conflict with and must yield to the federal limitations referred to above.

While most nonimmigrant visa holders will not qualify as residents, each nonimmigrant visa classification will need to be examined on a case by case basis to determine whether the class of visa permits the holder to form the intent to remain indefinitely.

In response to your inquiry regarding the allocation of funds under the funding formula, Section 3 of Senate Bill Number 3131 of the 2007 Regular Session provides in part:

\* \* \*

Academic, Technical, Vocational, Associate Degree Nursing and Associate Degree Allied Health funds shall be disbursed on the basis of prior year full-time equivalency (FTE) of hours generated during the summer, fall and spring semesters for each public community and junior college as of the last day of the sixth week of each semester, or its equivalent, counting only students who reside within the State of Mississippi. However, associate degree nursing students who reside outside the State of Mississippi may be counted for pay purposes.

\* \* \*

It is our opinion that students who do not qualify as in-state students for tuition purposes would not be included in the computation of full-time equivalency (FTE) hours for purposes of the funding formula, with the exception of associate degree nursing students who may be counted for such purposes.

\*3 In response to your final inquiry relating to Section **37-103-25**, House Bill Number 46 of the 2003 Regular Session reads in part:

SECTION 1. [Section 37-103-25, Mississippi Code of 1972](#), is amended as follows:

**37-103-25.** (1) The Board of Trustees of State Institutions of Higher Learning and the boards of trustees of the community colleges and junior colleges are \* \* \* authorized to prescribe the amount of tuition and fees to be paid by students attending the several state-supported institutions of higher learning and community colleges and junior colleges of the State of Mississippi.

(2) Except as otherwise provided in this subsection, the total tuition to be paid by residents of other states shall not be less than the average cost per student from appropriated funds. However, the tuition to be paid by a resident of another state shall be equal to the tuition amount established under subsection (1) of this section if:

(a) The nonresident student was born in the State of Mississippi but subsequently relocated and resided outside the state as a minor under the care of the minor's father or mother, or both;

(b) The nonresident student is a veteran who served in the Armed Forces of the United States; and

(c) The nonresident student is domiciled in Mississippi no later than six (6) months after the nonresident student's separation from service, as evidenced by a Report of Separation from Military Service or other military discharge document, for the purpose of enrolling in a state institution of higher learning or a community or junior college.

The title to House Bill Number 46 reads:

AN ACT TO AMEND [SECTION 37-103-25, MISSISSIPPI CODE OF 1972](#), TO REQUIRE STATE INSTITUTIONS OF HIGHER LEARNING AND COMMUNITY AND JUNIOR COLLEGES TO WAIVE OUT-OF-STATE TUITION FOR NONRESIDENTS WHO WERE BORN IN MISSISSIPPI AND ARE VETERANS OF THE UNITED STATES ARMED FORCES; TO AMEND [SECTIONS 37-29-81, 37-29-423 AND 37-103-5, MISSISSIPPI CODE OF 1972](#), IN CONFORMITY TO THE PROVISIONS OF THIS ACT; AND FOR RELATED PURPOSES.

House Bill Number 20 of the 2005 5<sup>th</sup> Extraordinary Session made the following amendment:

[Section 37-103-25, Mississippi Code of 1972](#), is amended as follows:

**37-103-25.** (1) The Board of Trustees of State Institutions of Higher Learning and the boards of trustees of the community colleges and junior colleges are authorized to prescribe the amount of tuition and fees to be paid by students attending the several state-supported institutions of higher learning and community colleges and junior colleges of the State of Mississippi.

(2) Except as otherwise provided in this subsection, the total tuition to be paid by residents of other states shall not be less than the average cost per student from appropriated funds. However, the tuition to be paid by a resident of another state shall be equal to the tuition amount established under subsection (1) of this section if:

\*4 (a) The nonresident student was born in the State of Mississippi but subsequently relocated and resided outside the state as a minor under the care of the minor's father or mother, or both;

(b) The nonresident student is a veteran who served in the Armed Forces of the United States; \* \* \*

(c) The nonresident student is domiciled in Mississippi no later than six (6) months after the nonresident student's separation from service, as evidenced by a Report of Separation from Military Service or other military discharge document, for the purpose of enrolling in a state institution of higher learning or a

community or junior college; or

(d) The nonresident student is an evacuee of an area affected by Hurricane Katrina or Hurricane Rita. This waiver shall be applicable to the 2005-2006 school year only.

As noted above, House Bill 20 deleted the word “and” at the end of paragraph (2)(b), added the word “or” at the end of paragraph (2)(c) and added paragraph (2)(d). The title of House Bill Number 20 reads:

AN ACT TO AMEND [SECTION 37-103-25, MISSISSIPPI CODE OF 1972](#), TO PROVIDE A ONE-YEAR WAIVER OF OUT-OF-STATE TUITION FOR ATTENDING STATE UNIVERSITIES AND COMMUNITY COLLEGES FOR NONRESIDENTS WHO ARE EVACUEES OF THE HURRICANE KATRINA OR HURRICANE RITA DISASTERS OF 2005; AND FOR RELATED PURPOSES.

We see no intention of the Legislature in House Bill Number 20 to expand a benefit, originally enacted in House Bill Number 46 to benefit military veterans, to persons who are not military veterans. Consequently, it is our opinion that a student must meet the requirements of [paragraph \(2\)\(a\), \(b\), and \(c\) of Section 37-103-25](#) in order to qualify for in-state tuition.

Very truly yours,  
Jim Hood  
Attorney General

ATTORNEY GENERAL OPINION – EVANS - 2007

2007 WL 3356844 (Miss. A.G.)

Office of the Attorney General  
State of Mississippi

Opinion No. 2007-00461

September 7, 2007

Re: Resident and nonresident tuition - foreign born persons

\*1 Honorable Jim Evans  
Representative  
District 70  
P. O. Box 1167  
Jackson, MS 39201

Dear Representative Evans:

Attorney General Jim Hood received your request for an official opinion and assigned it to me for research and response. In your letter of request, a copy of which is attached hereto and incorporated herein by reference, you cite [section 37-103-7 of the Mississippi Code](#), which relates to certain persons not being required to pay out-of-state **tuition** under certain circumstances, and a previous official opinion of this office addressing requirements for the issuance of a marriage license. You then ask:

I am writing to request an opinion on whether a foreign born person less than twenty-one (21) years of age who has attended a Mississippi high school for at least four years and graduated from that high school, and whose natural parents reside in the state should be allowed to pay in-state **tuition** at a state supported university or community college.

In response, as cited in your letter, section 37-103-7 reads:

For purposes of determining whether a person pays out-of-state or in-state tuition for attendance at universities and community and junior colleges, the residence of a person less than twenty-one (21) years of age is that of the father, the mother or a general guardian duly appointed by a proper court in Mississippi. If a court has granted custody of the minor to one (1) parent, the residence of the minor is that of the parent who was granted custody by the court. If both parents are dead, the residence of the minor is that of the last surviving parent at the time of that parent's death, unless the minor lives with a general guardian duly appointed by a proper court of Mississippi, in which case his residence becomes that of the guardian. A student residing within the State of Mississippi who, upon registration at a Mississippi institution of higher learning or community college, presents a transcript demonstrating graduation from a Mississippi secondary school and who has been a secondary school student in Mississippi for not less than the final four (4) years of secondary school attendance shall not be required to pay out-of-state tuition. This section shall not apply to the residence of a person as it relates to residency for voter registration or voting.

(Emphasis added).

Section 37-103-23 states that all aliens are classified as nonresidents. However, this section was declared unconstitutional in *Jagnadan v. Giles*, 379 F. Supp. 1178 (N.D. Miss. 1974), affirmed in part on other grounds 538 F.2d 1166 (5th Cir. 1976). No statutory provision specifically addressing aliens and residency for tuition purposes is currently in effect.

We stated the following in MS AG Op., *Stonecypher* (Aug. 10, 2007):

While this office does not opine with regard to federal law, there are two federal statutes that we must note in order to respond to your request. The first is a provision that generally makes undocumented aliens ineligible to receive state and local benefits, unless a state affirmatively provides for such eligibility after August 22, 1996. 8 U.S.C. Sec. 1621. The second federal statute provides that aliens not lawfully present in the United States are not eligible on the basis of residence within a state for a postsecondary education benefit, unless such benefit is available to any citizen of the United States regardless of residency. 8 U.S.C. Sec. 1623. Under the Supremacy Clause of the United States Constitution, a state law which is in conflict with or interferes with a federal law, must yield to the federal law.

\*2 There has been no Mississippi statute enacted after August 22, 1996 to make undocumented aliens eligible for in-state tuition. Residency has been and remains the key determinant of whether a person qualifies for in-state tuition. Therefore, under current Mississippi law, undocumented aliens do not qualify for in-state tuition.

Therefore, in response to your question, if the foreign born person is an alien that is not lawfully present in the United States, then such person would not qualify for in-state tuition. If the foreign born person is an alien that is lawfully present in the United States, then, in the absence of any Mississippi statute to the contrary, the person would be subject to the same requirements as citizens in determining residency. Likewise, an alien lawfully present in the United States would be eligible for special statutory provisions, such as the one contained in section 37-103-7 above, to avoid paying out-of-state tuition.

Very truly yours,  
Jim Hood

# RECENT LEGISLATION

## Appropriation Bill for the Public Community and Junior Colleges – SB 3015

MISSISSIPPI LEGISLATURE

2019 Regular Session

To: Appropriations

By: Senator(s) Clarke, Hopson, Carmichael, Frazier, Jackson  
(15th), Michel, Jackson (11th), Jordan

### **Senate Bill 3015** ***(As Sent to Governor)***

AN ACT MAKING AN APPROPRIATION FOR THE AID AND SUPPORT OF THE PUBLIC COMMUNITY AND JUNIOR COLLEGES OF THE STATE OF MISSISSIPPI FOR FISCAL YEAR 2020.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF MISSISSIPPI:

**SECTION 1.** The following sum, or so much thereof as may be necessary, is hereby appropriated out of any money in the State General Fund not otherwise appropriated, for the aid and support of the public community and junior colleges for the fiscal year beginning July 1, 2019, and ending

June 30, 2020.....  
..... \$ 148,393,698.00.

**SECTION 2.** The following sum, or so much thereof as may be necessary, is hereby appropriated out of any money in the Education Enhancement Fund deposited pursuant to Sections 27-65-75 and 27-67-31, Mississippi Code of 1972, not otherwise appropriated, for the aid and support of public community and junior colleges for the fiscal year beginning July 1, 2019, and ending June 30, 2020..... \$ 45,481,356.00.

**SECTION 3.** The funds appropriated in this act for the aid and support of the public and community junior colleges shall be apportioned in accordance with the following assigned weights:

<u>Formula Section</u>	<u>FTE Formula</u>
(a) Aid to Colleges:	
Base	15% prior year appropriation
Academic	1.0
Technical	1.0
MSVCC Shared Host	.75
MSVCC Shared Provider	.25
(b) Career	1.0
(c) Associate Degree	
Nursing	1.19

(d) Associate Degree

Allied Health

1.19

Academic, Technical, Career, Associate Degree Nursing and Associate Degree Allied Health funds shall be disbursed on the basis of prior year full-time equivalency (FTE) of hours generated during the summer, fall and spring semesters for each public community and junior college student actually enrolled and in attendance the last day of the sixth week of each semester, or its equivalent, counting only students who reside within the State of Mississippi. However, associate degree nursing students who reside outside the State of Mississippi may be counted for pay purposes.

Mississippi Virtual Community College (MSVCC) shared hosted and provided courses may qualify for incentive funding on the basis of the prior year full-time equivalency (FTE) of MSVCC shared hours generated during the summer, fall and spring semesters. In addition, all provider MSVCC semester credit hours will be included in either the academic, technical or career sections of the formula at a weight of one (1.0).

The Director of the Mississippi Community College Board, or his designee, shall audit each public community and junior college and shall determine who shall be counted in each college and shall certify the number to the Mississippi Community College Board.

If, pending determination of the enrollment of students at the public community and junior colleges entitled to participate in this appropriation, as provided for in this section, the Mississippi Community College Board shall find and determine that any such public or community junior college does not have sufficient funds on hand for payment of the necessary expenses of its operation for the period commencing July 1, 2019, until distribution of the funds appropriated hereby, then, in that event, the Mississippi Community College Board is expressly authorized to make an advance to any such public community or junior college or colleges not having sufficient operating funds for such period from the funds appropriated hereby; provided, however, that the amount of any such advance to any one (1) public community or junior college shall not exceed thirty-three percent (33%) of the amount of state-appropriated funds received by such public community or junior college during the preceding fiscal year; and provided, further, that the amount of any such advance shall be deducted from the pro rata part of the funds appropriated hereby accruing to said public community or junior college when enrollment has been ascertained and distribution of funds is made.

**SECTION 4.** No part of the amount herein appropriated shall be used by the Mississippi Community College Board for administrative or other purposes except in the manner and to the

extent authorized in the act making an appropriation for the expenses of the Mississippi Community College Board.

**SECTION 5.** The funds disbursed under the provisions of this act shall be accounted for through the Mississippi Community College Board.

**SECTION 6.** The following public community and junior colleges which qualify shall participate in the funds provided by Sections 1 and 2 of this act:

Coahoma Community College, Copiah-Lincoln Community College, East Central Community College, East Mississippi Community College, Hinds Community College District, Holmes Community College, Itawamba Community College, Jones County Junior College, Meridian Community College, Mississippi Delta Community College, Mississippi Gulf Coast Community College District, Northeast Mississippi Community College, Northwest Mississippi Community College, Pearl River Community College, and Southwest Mississippi Community College.

**SECTION 7.** It is the intention of the Legislature that none of the General Funds appropriated herein shall be expended for the purpose of paying salaries, wages, and fringe benefits of any public community and junior college employee who is serving as a member of the State of Mississippi Legislature.

**SECTION 8.** The following sum, or so much thereof as may be necessary, is hereby appropriated out of any money in the State General Fund not otherwise appropriated, for the aid of the public community and junior colleges, to fund life and health insurance, for all employees of the public community and junior colleges for the fiscal year beginning July 1, 2019, and ending June 30, 2020..... \$ 23,888,400.00.

The funds allocated in this section shall only be used to participate in the State and School Employees' Life and Health Insurance Plan. Any funds appropriated in this section which are not expended during the fiscal year shall be carried forward for the same purposes during the next succeeding fiscal year.

**SECTION 9.** In addition to funds appropriated in Section 8, the following sum, or so much thereof as may be necessary, is hereby appropriated out of any money in the Insurance Carryover Fund No. 3295, for the purpose of fully funding life and health insurance through the State and School Employees' Life and Health Insurance Plan for all qualified community and junior college employees, for the fiscal year beginning July 1, 2019, and ending June 30, 2020 \$ 560,000.00.

**SECTION 10.** The following sum, or so much thereof as may be necessary, is hereby appropriated out of any money in the State General Fund not otherwise appropriated, for the purpose of Workforce and Economic Development Support, including the operation of the Workforce Development Centers and Advanced

Training Centers, providing start-up costs for new career and technical programs, and providing the necessary funding to replace outdated and obsolete equipment for existing career and technical programs at each of the public community and junior colleges for the fiscal year beginning July 1, 2019 and ending June 30, 2020..... \$ 6,750,000.00.

**SECTION 11.** The following sum, or so much thereof as may be necessary, is hereby appropriated out of any money in the State General Fund not otherwise appropriated, to the Mississippi Community College Board for the purpose of defraying the cost of Sign Language Interpreter Training at the public community and junior colleges for the fiscal year beginning July 1, 2019, and ending June 30, 2020 \$ 179,050.00.

**SECTION 12.** The following sum, or so much thereof as may be necessary, is hereby appropriated out of any money in the State General Fund not otherwise appropriated, to the Mississippi Community College Board for the purpose of defraying the cost of the Education Technology Program at the public community and junior colleges and the Mississippi Community College Board for the fiscal year beginning July 1, 2019, and ending June 30, 2020..... \$ 7,099,160.00.

**SECTION 13.** A Mississippi Prepaid Affordable College Tuition (MPACT) program beneficiary shall be considered a Mississippi resident for the purposes of participating in this appropriation regardless of the beneficiary's residence on the date of enrollment, as set out in Section 37-155-5(d)(iii), Mississippi Code of 1972.

**SECTION 14.** In compliance with the "Mississippi Performance Budget and Strategic Planning Act of 1994," it is the intent of the Legislature that the funds provided herein shall be utilized in the most efficient and effective manner possible to achieve the intended mission of this agency. Based on the funding authorized, this agency shall make every effort to attain the targeted performance measures provided below:

<u>Performance Measures</u>	<u>FY2020 Target</u>
<u>Instruction</u>

**SECTION 18.** The following sum, or so much thereof as may be necessary, is hereby appropriated out of any money in the State Treasury to the credit of the Capital Expense Fund, as created in Section 27-103-303, Mississippi Code of 1972, and allocated in a manner as determined by the Treasurer's Office, for data center and technology upgrades at the Community College Board for the benefit of the Community College system for the fiscal year beginning July 1, 2019, and ending

June 30, 2020..... \$ 657,500.00.

**SECTION 19.** Of the funds appropriated, it is the intention and priority of the Legislature that Community and Junior Colleges give consideration for salary increases for all academic faculty including technical, vocational, and other support staff that are essential to the education and training of students.

**SECTION 20.** It is the intention of the Legislature that none of the funds provided herein shall be used to pay certain utilities for state-furnished housing for any employees. Such utilities shall include electricity, natural gas, butane, propane, cable and phone services. Where actual cost cannot be determined, the agency shall be required to provide meters to be in compliance with legislative intent. Such state-furnished housing shall include single-family and multifamily residences but shall not include any dormitory residences. Allowances for such utilities shall be prohibited.

**SECTION 21.** It is the intention of the Legislature that whenever two (2) or more bids are received by this agency for the purchase of commodities or equipment, and whenever all things stated in such received bids are equal with respect to price, quality and service, the Mississippi Industries for the Blind shall be given preference. A similar preference shall be given to the Mississippi Industries for the Blind whenever purchases are made without competitive bids.

**SECTION 22.** It is the intention of the Legislature that the support of community and junior colleges shall maintain complete accounting and personnel records related to the expenditure of all funds appropriated under this act and that such records shall be in the same format and level of detail as maintained for Fiscal Year 2019. It is further the intention of the Legislature that the agency's budget request for Fiscal Year 2021 shall be submitted to the Joint Legislative Budget Committee in a format and level of detail comparable to the format and level of detail provided during the Fiscal Year 2020 budget request process.

**SECTION 23.** It is the intention of the Legislature that the funds herein appropriated shall be expended in compliance with Section 27-104-25, Mississippi Code of 1972, that no state agency shall incur obligations or indebtedness in excess of their appropriation and that the responsible officers, either personally

or upon their official bonds, shall be held responsible for actions contrary to this provision.

**SECTION 24.** The money herein appropriated shall be paid by the State Treasurer out of any money in the State Treasury to the credit of the proper fund or funds as set forth in this act, upon warrants issued by the State Fiscal Officer; and the State Fiscal Officer shall issue his warrants upon requisitions signed by the proper person, officer or officers, in the manner provided by law.

**SECTION 25.** This act shall take effect and be in force from and after July 1, 2019.

      - A lawful request for discovery of personal information in litigation if both of the following conditions are met:
        - The requestor demonstrates a compelling need for the personal information by clear and convincing evidence; and
        - The requestor obtains a protective order barring disclosure of personal information to any person not directly involved in the litigation. As used in this subparagraph, "person" means an individual, partnership, corporation, association, governmental entity or other legal entity.
    - Effective July 1, 2019
    - Representative Jerry Turner
    - 3/28/19- approved by Governor
6. [HB 1247](#)- Community college districts boards of trustees; remove requirement for automatic appointment of county superintendent of education to serve on.
- There shall be five (5) trustees from each county of the junior college district which originally entered into and gave financial aid in establishing the junior college. (Lines 17-20 of deleted text version.)
    - Originally six.
  - The board of supervisors of those respective counties shall appoint \*\*\*one (1) member who is a qualified elector from each supervisors district to serve as a member, either of which may be the county superintendent of education if he or she resides in a respective supervisors district. (Lines 26-32 of deleted text version.)
  - Counties which subsequent to the establishment of the junior college joined the district shall have only \*\*\* one (1) trustee. (Lines 32- 35 of deleted text version.)
  - However, the board of trustees so constituted, by appropriate resolution, may enlarge its number to six (6) trustees from each county \* \* \*, in which case one (1) shall be the county superintendent of education, unless he chooses not to serve as provided in subsection (2), and there shall be one (1) chosen from each supervisors district. (Lines 35-40 of deleted text version.)
  - The board of trustees shall also be authorized within its discretion to reduce its number to two (2) trustees at large from each county \* \* \*, in which case one (1) shall be the county superintendent of education, unless he chooses not to serve as provided in subsection (2). (Lines 41-45 of deleted text version.)
  - The county superintendent, if appointed by the county board of supervisors, may, in his discretion, choose not to serve as a member of such board of trustees. (Lines 48-50 of deleted text version.)
  - The county board of supervisors of any county whose county superintendent of education \* \* \*has resigned appointed under the authority of this section, declines the appointment or resigns, pursuant to this \* \* \*paragraph subsection (2), shall fill the vacancy caused by such resignation by appointing a member who is a qualified elector of the county at large in accordance with subsection (6) of this section. (Lines 52-59 of deleted text version.)
  - In all counties where the office of "administrative superintendent" is abolished from and after January 1, 1992, the county board of supervisors shall appoint one (1) additional member to the board of trustees of their junior college district to serve in lieu of the county superintendent's position on such board. The provisions of this subsection shall not be applicable to any No county superintendent whose school district is located within the East Mississippi Community College

District \* \* \*and such county superintendents shall \* \* \*not serve on the board of trustees for that community college district. (Lines 59-68 of deleted text version.)

- The Board of Trustees of the Coahoma Community College District shall consist of \* \* \*fourteen (14) nine (9) members. The appointing authorities shall appoint the new board of trustees as follows: Coahoma County shall be entitled to \* \* \*six (6) five (5) members appointed in the manner provided herein, Tunica County shall be entitled to \* \* \*two (2)members one (1) member, Quitman County shall be entitled to \* \* \*two (2) members one (1) member, Bolivar County shall be entitled to \* \* \*two (2) members one (1) member, and Tallahatchie County shall be entitled to \* \* \*two (2) members one (1) member. (Lines 80-89 of deleted text version.)
- No county superintendent of education, by virtue of his or her office, shall be automatically placed on the board of trustees for any community college district to which this section applies. The number of trustees from each county shall be reduced by one (1) member if such member is superintendent of education. However, if the county board of supervisors, in making an appointment to the community college district board of trustees, chooses to appoint the county superintendent of education at the expiration of the term of the at large member, the superintendent may serve, unless otherwise disqualified. (All new language add in lines 131-140 of deleted text version.)
- The operation and control of the Copiah-Lincoln Junior College District shall be vested in a board of trustees representing the seven (7) counties lying within the district. The said board shall consist of \* \* \*twenty-seven (27) twenty (20) members to be chosen as follows: (a) Copiah County shall be entitled to \* \* \*six (6) five (5) members who shall be elected and serve according to Section 37-29-65. (b) Lincoln County shall be entitled to \* \* \*six (6) five (5) members who shall be elected and serve according to Section 37-29-65. (c) Lawrence County shall be entitled to \* \* \*two (2) members one (1) member who shall be elected and serve according to Section 37-29-65. ## 2015 Federal Dear Colleague Letter in Reference to Ability to Benefit

Publication Date: May 22, 2015

DCL ID: GEN-15-09

Subject: Title IV Eligibility for Students Without a Valid High School Diploma Who Are Enrolled in Eligible Career Pathway Programs

Summary: This letter clarifies changes made by the Consolidated and Further Continuing Appropriations Act of 2015 to the Title IV eligibility of students who are not high school graduates.

**NOTE:** On December 18, 2015, the Consolidated Appropriations Act of 2016 (Pub. L. 114-113) revised the definition of an eligible career pathway program and eliminated the career pathway alternative Pell Grant disbursement schedules. Therefore, the guidance issued in DCL GEN-15-09 is superseded by the guidance issued in [DCL GEN-16-09](#).

Dear Colleague:

The Consolidated and Further Continuing Appropriations Act of 2015 (Pub. L. 113-235) was enacted on December 16, 2014. The new law changed section 484(d) of the Higher Education Act of 1965, as amended (HEA), to allow a student who does not have a high school diploma (or its recognized equivalent), or who did not complete a secondary school education in a homeschool setting, to be eligible for Title IV, HEA student assistance (Title IV aid) through ability to benefit (ATB) alternatives, but only if the student is enrolled in an "eligible career pathway program" as defined in section 484(d)(2) of the HEA and discussed more fully below.

This letter describes the changes made to section 484(d) of the HEA by Pub. L. 113-235, including the reinstatement of ATB alternatives for student eligibility and the statutory definition of an eligible career pathway program for purposes of Title IV aid eligibility. The letter identifies the ATB tests that are currently approved by the Secretary of Education. It also provides information regarding the retroactive implementation of the provisions described above.

Finally, the letter discusses an additional change made to section 401(b)(2)(A)(ii) of the HEA by Pub. L. 113-235. That change provides that students who first enroll in any Title IV eligible postsecondary program on or after July 1, 2015, and who gain eligibility under one of the ATB alternatives, will have their Federal Pell Grant award determined under an alternative Pell Grant disbursement schedule. That provision is described below, and the 2015–2016 Career Pathway Alternative Pell Grant Disbursement Schedules are attached to this letter.

### Unchanged Student Eligibility Provisions

Public Law 113-235 did not change any of the provisions allowing an otherwise eligible student to receive Title IV aid if the student meets one of the following conditions:

- High School Diploma: The student has a high school diploma.
- Recognized Equivalent of a High School Diploma: The student has the recognized equivalent of a high school diploma, defined in the regulations at 34 CFR 600.2 as:
  - A General Educational Development Certificate (GED);

- A state certificate or transcript received by a student after the student passed a State-authorized examination, e.g., the High School Equivalency Test (HiSET), Test Assessing Secondary Completion (TASC), the California High School Proficiency Exam (CHSPE), or other State-authorized examination that the State recognizes as the equivalent of a high school diploma;
- An academic transcript of a student who has successfully completed at least a two-year program that is acceptable for full credit toward a bachelor's degree; or
- For a person who is seeking enrollment in an educational program that leads to at least an associate degree or its equivalent and who has not completed high school, but who excelled academically in high school, documentation that the student excelled academically in high school and has met the formalized, written policies of that postsecondary institution for admitting such students.
- Homeschool: The student has completed a secondary school education in a homeschool setting that is treated as a homeschool or private school under State law and has obtained a homeschool completion credential. If State law does not require a homeschool student to obtain a homeschool credential, the student has completed a secondary school education in a homeschool setting that qualifies as an exemption from compulsory school attendance requirements under State law.

### Statutory Change

Under Pub. L. 113-235, students who are enrolled in an eligible career pathway program, as defined in section 484(d)(2) of the HEA, on or after July 1, 2014, and who are not high school graduates, or do not meet one of the other eligibility conditions listed above, may be eligible to receive Title IV aid if the student meets one of the following ATB alternatives as defined in section 484(d)(1):

- Passes an independently administered Department of Education approved ATB test.
- Completes at least 6 credit hours or 225 clock hours that are applicable toward a degree or certificate offered by the postsecondary institution.
- Completes a State process approved by the Secretary of Education. *Note: To date, no State process has ever been submitted for the Secretary's approval.*

A student who meets one of those alternatives may use that alternative to establish his or her Title IV eligibility at any eligible Title IV institution where the student enrolls in an eligible career pathway program as defined in section 484(d)(2) of the HEA.

### Eligibility of Other Students Without a Valid High School Diploma (Grandfathered Students)

In 2012, the Consolidated Appropriations Act of 2012 (Pub. L. 112-74) amended section 484(d) of the HEA to allow a student without a high school diploma (or its recognized equivalent), or who did not complete a secondary school education in a homeschool setting, and who was enrolled in an eligible program at a Title IV institution prior to July 1, 2012, to be eligible for Title IV aid under the previous ATB alternatives. This provision was explained in Dear Colleague Letter [GEN-12-09](#), and the eligible students were referred to as having been "grandfathered." The new provision in Pub. L. 113-235 does not affect the eligibility of students grandfathered under the 2012 provision.

### Eligible Career Pathway Programs

Career pathways refer to a combination of rigorous and high-quality education, training, and support services that are aligned with the skill needs of industries in State or regional economies, preparing individuals to be successful in secondary or postsecondary education programs and the labor market. In recent years, the Federal government has worked to identify the elements of a high-quality career pathway program. Under Pub. L. 113-235, Congress provided an opportunity for students who are enrolled in eligible career pathway programs, but who lack a high school diploma or its recognized equivalent, or who did not complete a secondary school education in a homeschool setting, to become eligible for Title IV aid using one of the ATB alternatives.

To become eligible for Title IV aid under one of the ATB alternatives described above, the student must be enrolled in an “eligible career pathway program,” as defined in section 484(d)(2) of the HEA. Any institution, whether public, nonprofit, or for-profit, may offer an eligible career pathway program.

An eligible career pathway program must:

- Concurrently enroll students in connected adult education and eligible postsecondary programs;
- Provide students with counseling and supportive services to identify and attain academic and career goals;
- Provide structured course sequences that—
  - Are articulated and contextualized; and
  - Allow students to advance to higher levels of education and employment;
- Provide opportunities for acceleration for students to attain recognized postsecondary credentials, including degrees, industry relevant certifications, and certificates of completion of apprenticeship programs;
- Be organized to meet the needs of adults;
- Be aligned with the education and skill needs of the regional economy; and
- Have been developed and implemented in collaboration with partners in business, workforce development, and economic development.

As stated above, an eligible career pathway program contains two components: an adult education component and a Title IV eligible postsecondary program component. In this context, “adult education” has the same definition as it does under the Adult Education and Family Literacy Act, Title II of the Workforce Innovation and Opportunity Act (Pub. L. 113-128) and includes academic instruction and education services below the postsecondary level that increase an individual’s ability to:

- Read, write, and speak in English and perform mathematics or other activities necessary for the attainment of a secondary school diploma or its recognized equivalent;
- Transition to postsecondary education and training; and
- Obtain employment.

The Title IV eligible postsecondary program component of an eligible career pathway program must meet the definition of an eligible program under 34 CFR 668.8 in order for students enrolled in the eligible career pathway program to be eligible for Title IV aid.

An eligible career pathway program, as defined in section 484(d)(2) of the HEA, is not itself an eligible program under 34 CFR 668.8 because it contains an adult education component that includes, by definition, coursework that is below the postsecondary level. Therefore, an institution may not include the cost of the adult education component of an eligible career pathway program in a student’s cost of attendance as defined in section 472 of HEA and may not pay for the cost of the adult education component using Title IV aid. The only costs that can be included in a student’s cost of attendance are those associated with the Title IV eligible postsecondary program component.

Similarly, credit or clock hours associated with adult education coursework cannot be incorporated into a student’s Title IV enrollment status, regardless of whether the institution considers the adult education coursework to be remedial. However, costs for noncredit or reduced credit remedial coursework that is not part of the adult education component of the eligible career pathway program, but is associated with the Title IV eligible postsecondary program component, can be included in a student’s cost of attendance. That coursework can also be included in the student’s Title IV enrollment status. For more information on remedial coursework, please see Volume 1, Chapter 1 of the FSA Handbook.

Under the statute, a student is not eligible for Title IV aid if the student is enrolled in elementary or secondary school. However, while the adult education component of an eligible career pathway program includes instruction below the postsecondary level, adult education is not secondary school education.

Therefore, a student enrolled in an eligible career pathway program does not lose eligibility because the student is not considered to be enrolled in secondary school.

As noted above, the term “career pathway program” is also defined in the Workforce Innovation and Opportunity Act, and in other laws, including State and local laws. The definition of an eligible career pathway program under section 484(d)(2) of the HEA may differ from definitions in these other laws. A program that qualifies for funding under the Workforce Innovation and Opportunity Act or another law may not meet the definition of an eligible career pathway program in section 484(d)(2) of the HEA. To provide Title IV aid to students who are eligible only through one of the ATB alternatives allowed under the new law, an institution must ensure that its eligible career pathway program(s) meets the requirements under section 484(d)(2) of the HEA as described above.

#### Approved ATB Tests

As of the date of this letter, the approved ATB tests are:

<u>Test Publisher Name:</u>	<u>Test Name:</u>
ACT Inc.	ASSET, COMPASS, and COMPASS ESL
Association of Classroom Teacher Testers (ACTT)	Combined English Skills Assessment (CELSA)
The College Board	ACCUPLACER
Wonderlic Inc	Wonderlic Basic Skills Test

#### Effect of Timing of ATB Test and Completed Credits on Eligibility for Title IV Aid

A student who was enrolled in an eligible career pathway program as of July 1, 2014, and who meets one of the ATB alternatives prior to July 1, 2014, may be awarded a Federal Pell Grant, TEACH Grant, and any aid from the Title IV campus-based programs beginning with the first payment period of the 2014–2015 award year in which the student was enrolled. A Direct Loan can be awarded for the entire loan period that includes July 1, 2014.

A student who was enrolled in an eligible career pathway program as of July 1, 2014, and who meets one of the ATB alternatives on or after July 1, 2014, may be awarded a Federal Pell Grant, TEACH Grant, and any aid from the Title IV campus-based programs beginning with the payment period in which the student meets the ATB alternative. A Direct Loan can be awarded for the entire loan period that includes the date when the student meets the ATB alternative.

#### Career Pathway Alternative Pell Grant Disbursement Schedules

In general, the Federal Pell Grant Program receives funding from two sources in the Federal budget, *discretionary appropriations* and *mandatory funding*. Public Law 113-235 amended section 401(b)(2)(A)(ii) of the HEA, which provides the amount of Pell Grant funds a student who is enrolled in an eligible career pathway program is eligible to receive. Beginning with the 2015–2016 award year, some students, as described below, will only be eligible for the amount provided under the discretionary appropriation. These Limited Pell Grant awards for such students will be determined using the appropriate Career Pathway Alternative Pell Grant Disbursement Schedules that are attached to this letter.

Limited Pell Grant – Any student whose first enrollment in any Title IV eligible postsecondary program was on or after July 1, 2015, and is eligible under one of the ATB alternatives for enrollment in an eligible

career pathway program, will only be eligible for a Limited Pell Grant award. Institutions must use the attached Career Pathway Alternative Pell Grant Disbursement Schedules to determine the amount for which the student is eligible. The maximum Limited Pell Grant amount that such a student may receive for enrollment in an eligible career pathway program for the 2015–2016 award year is \$4,860.

Note that the Career Pathway Alternative Pell Grant Disbursement Schedules use the same maximum Pell Grant eligible expected family contribution (EFC) that was used to develop the Regular Federal Pell Grant Payment and Disbursement Schedules. Once the student's annual award amount is determined using the Career Pathway Alternative Pell Grant Disbursement Schedules, all other Pell funding calculations (e.g. determining the Pell Grant amount for each payment period) are the same as those used for Regular Pell Grant awards, but based on the Career Pathway Alternative Pell Grant Disbursement Schedules.

Although a student in an eligible career pathway program may have his or her Pell Grant award determined using the Career Pathway Alternative Pell Grant Disbursement Schedules, calculation of the percentage of the student's annual Scheduled Award used will be based on the student's full Scheduled Award under the Regular Federal Pell Grant Payment Schedule. For example, a student in an eligible career pathway program who is only eligible for a Limited Pell Grant award and has an EFC of 0 for the 2015–2016 award year will only receive \$4,860 if that student attends full-time for the full year. The student would only have used 84.1558 percent ( $\$4,860 / \$5,775$ ) of the student's Scheduled Award for the 2015–2016 award year. For more information on calculating Pell Grant awards please see Volume 3, Chapter 3 of the FSA Handbook.

Regular Pell Grant – Any otherwise eligible student whose first enrollment in any Title IV eligible postsecondary program was before July 1, 2015, and who is enrolled in an eligible career pathway program in or subsequent to the 2015–2016 award year, is eligible for a Regular Pell Grant award. For these students, institutions must use the Regular Federal Pell Grant Payment and Disbursement Schedules published in GEN-15-02 for the 2015–2016 award year and the Federal Pell Grant Payment and Disbursement Schedules that are published annually for subsequent award years.

For a student who enrolls in an eligible career pathway program on or after July 1, 2015, an institution must determine whether the student should receive a Regular Pell Grant award or a Limited Pell Grant award based on when the student began attendance in any Title IV eligible postsecondary program, without regard to whether the student received Title IV aid. For example, consider a student who enrolled in a Title IV eligible postsecondary program at School A in August 2003 in the 2003–2004 award year and then enrolls in an eligible career pathway program at School B in December 2015 in the 2015–2016 award year. Because this student first enrolled in a Title IV eligible postsecondary program before July 1, 2015, the student would be eligible for the Regular Pell Grant amount (using the schedules from GEN-15-02) at School B for a maximum Pell Grant amount of \$5,775 in the 2015–2016 award year, regardless of whether the student received Title IV aid for the earlier enrollment at School A.

Documentation – An institution must document its determination as to whether a student qualifies for a Limited Pell Grant award or a Regular Pell Grant award for the 2015–2016 award year and for any subsequent award years. If the institution's determination is that the student is eligible for a Regular Pell Grant award, such documentation could include documentation from the National Student Loan Data System that the student previously received Title IV aid, or a transcript or other documentation from a previous institution that demonstrates that the student was enrolled in an eligible program at a Title IV institution.

#### Title IV Eligibility for Students Without a Valid High School Diploma or Its Recognized Equivalent Who Are Eligible Under One of the ATB Alternatives

The following chart provides a summary of the conditions under which a student who does not have a high school diploma or its recognized equivalent may be eligible for Title IV aid.

<b>Title IV Eligibility for Students Without a Valid High School Diploma or Its Recognized Equivalent Who Are Eligible Under One of the ATB Alternatives</b>

* To award and disburse Pell Grant funds to these students, institutions would use the Regular Pell Grant Payment and Disbursement Schedules described in <a href="#">Dear Colleague Letter GEN 14-01</a> for 2014-2015 and <a href="#">Dear Colleague Letter GEN 15-02</a> for 2015-2016				
** To award and disburse Pell Grant funds to these students, institutions would use the Career Pathway Alternative Pell Grant Disbursement Schedules. The 2015-2016 Career Pathway Alternative Pell Grant Disbursement Schedules are attached with this Dear Colleague Letter

## SB 2869 – Dual Credit/Dual Enroll Clarification

MISSISSIPPI LEGISLATURE  
2011 Regular Session  
To: Education  
By: Senator(s) Lee (35th)

### Senate Bill 2869 (As Sent to Governor)

AN ACT TO AMEND SECTIONS 37-15-38 AND 37-15-39, MISSISSIPPI CODE OF 1972, TO REVISE AND CLARIFY THE PROVISIONS RELATING TO DUAL ENROLLED STUDENTS AND DUAL CREDIT STUDENTS; AND FOR RELATED PURPOSES.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF MISSISSIPPI:

**SECTION 1.** Section 37-15-38, Mississippi Code of 1972, is amended as follows:

37-15-38. (1) The following phrases have the meanings ascribed in this section unless the context clearly requires otherwise:

(a) A dual enrolled student is a student who is enrolled in a community or junior college or state institution of higher learning while enrolled in high school.

(b) A dual credit student is a student who is enrolled in a community or junior college or state institution of higher learning while enrolled in high school and who is receiving high school and college credit for postsecondary coursework.

(2) A local school board, the Board of Trustees of State Institutions of Higher Learning and the State Board for Community and Junior Colleges shall establish a dual enrollment system under which students in the school district who meet the prescribed criteria of this section may be enrolled in a postsecondary institution in Mississippi while they are still in school.

(3) **Dual credit eligibility.** Before credits earned by a qualified high school student from a community or junior college or state institution of higher learning may be transferred to the student's home school district, the student must be properly enrolled in a dual enrollment program.

(4) **Admission criteria for dual enrollment in community and junior college or university programs.** The boards of trustees of the community and junior college districts and the Board of Trustees of State Institutions of Higher Learning may recommend to the State Board of Education admission criteria for dual enrollment programs under which high school students may enroll at a community or junior college or university while they are still attending high school and enrolled in high school courses. Students may be admitted to enroll in community or junior college courses under the dual enrollment programs if they meet that individual institution's stated dual enrollment admission requirements.

(5) **Tuition and cost responsibility.** Tuition and costs for university-level courses and community and junior college courses offered under a dual enrollment program may be paid for by the postsecondary institution, the local school district, the parents or legal guardians of the student, or by grants, foundations or other private or public sources. Payment for tuition and any other costs must be made directly to the credit-granting institution.

**(6) Transportation responsibility.** Any transportation required by a student to participate in the dual enrollment program is the responsibility of the parent, custodian or legal guardian of the student. Transportation costs may be paid from any available public or private sources, including the local school district.

**(7) School district average daily attendance credit.** When dually enrolled, the student may be counted, for adequate education program funding purposes, in the average daily attendance of the public school district in which the student attends high school.

**(8) High school student transcript transfer requirements.** Grades and college credits earned by a student admitted to a dual credit program must be recorded on the high school student record and on the college transcript at the university or community or junior college and high school where the student attends classes. The transcript of the university or community or junior college coursework may be released to another institution or applied toward college graduation requirements.

**(9) Determining factor of prerequisites for \*\*\* dual enrollment courses.** Each university and community or junior college participating in a dual enrollment program shall determine course prerequisites \*\*\*. Course prerequisites shall be the same for dual enrolled students as for regularly enrolled students at that university or community or junior college.

**(10) Process for determining articulation of curriculum between high school, university, and community and junior college courses.** Postsecondary curricula for eligible courses currently offered through Mississippi Curriculum Frameworks must meet the prescribed competencies requirements. Eligible courses not offered in Mississippi Curriculum Frameworks must meet the standards established at the postsecondary level. Postsecondary level developmental courses may not be considered as meeting the requirements of the dual credit program. Dual credit memorandum of understandings must be established between each postsecondary institution and the school district implementing a dual credit program.

**(11) Ineligible courses for dual credit programs.** Any course that is required for subject area testing as a requirement for graduation from a public school in Mississippi is not eligible for dual credit.

**(12) Eligible courses for dual credit programs.** Courses eligible for dual credit include, but are not necessarily limited to, foreign languages, advanced math courses, advanced science courses, performing arts, advanced business and technology, and career and technical courses. All courses being considered for dual credit must receive unconditional approval from the superintendent of the local school district and the chief instructional officer at the participating community or junior college or university in order for college credit to be awarded. A university or community or junior college shall make the final decision on what courses are eligible for semester hour credits. The local school superintendent shall make the final decision on the transfer of college or university courses credited to the student's high school transcript.

**(13) High school Carnegie unit equivalency.** One (1) three-hour university or community or junior college course is equal to one-half (1/2) high school Carnegie unit. A full Carnegie unit may be awarded for a three-hour university or college course upon approval of the local superintendent. Partial credit agreements for postsecondary courses that are less than three (3) hours may be developed between a local school district and the participating postsecondary institution.

**(14) Course alignment.** Once alignment is achieved between university courses, community and junior college courses and the State Board of Education approved high school courses, the universities, community and junior colleges and high schools shall periodically review their respective policies and assess the place of dual credit courses within the context of their traditional offerings.

**(15) Maximum dual credits allowed.** It is the intent of the dual enrollment program to make it possible for every eligible student who desires to earn a semester's worth of college credit in high school

to do so. A qualified dually enrolled high school student must be allowed to earn an unlimited number of college or university credits for dual credit \* \* \*.

**(16) Dual credit program allowances.** A student may be granted credit delivered through the following means:

(a) Examination preparation taught at a high school by qualified teacher. A student may receive credit at the secondary level after completion of an approved course and passing the standard examination, such as an Advanced Placement or International Baccalaureate course through which a high school student is allowed CLEP credit by making a three (3) or higher on the end-of-course examination.

(b) College or university courses taught at a high school or designated postsecondary site by a qualified teacher who is an employee of the school district and approved as an instructor by the collaborating college or university.

(c) College or university \* \* \* courses taught at a college, university or high school by an instructor employed by the college or university and approved by the collaborating school district.

(d) Online courses, including eligible courses offered by the Mississippi Virtual Public School or any postsecondary institution.

**(17) Qualifications of dual credit instructors.** A dual credit academic instructor must meet the requirements set forth by the regional accrediting association (Southern Association of College and Schools). University and community and junior college personnel have the sole authority in the selection of dual credit instructors.

A dual credit career and technical education instructor must meet the requirements set forth by the State Board for Community and Junior Colleges in the qualifications manual for postsecondary career and technical personnel.

**(18) Guidance on local agreements.** The Chief Academic Officer of the State Board of Trustees of State Institutions of Higher Learning and the Chief Instructional Officers of the State Board for Community and Junior Colleges and the State Department of Education, working collaboratively, shall develop a template to be used by the individual community and junior colleges and institutions of higher learning for consistent implementation of the dual enrollment program throughout the State of Mississippi.

**SECTION 2.** Section 37-15-39, Mississippi Code of 1972, is amended as follows:

37-15-39. (1) The purpose of this section is to ensure that each student has a sufficient education for success after high school and that all students have equal access to a substantive and rigorous curriculum that is designed to challenge their minds and enhance their knowledge skill.

(2) The following words and phrases have the meanings ascribed in this section unless the context clearly requires otherwise:

(a) "Advanced placement course" means any high school level preparatory course for a college advanced placement test that incorporates all topics specified by recognized advanced placement authorities on standards for a given subject area and is approved by recognized advanced placement authorities.

\* \* \*

(b) "Pre-advanced placement course" means a middle, junior high or high school level course that specifically prepares students to enroll and participate in an advanced placement course.

(c) "Vertical team" means a group of educators from different grade levels in a given discipline working cooperatively to develop and implement a vertically aligned program aimed at helping students from diverse backgrounds acquire the academic skills necessary for success in the advanced placement program and other challenging course work.

(d) "High concentration of low-income students" means, when used with respect to a public school or school district, a public school or school district that serves a student population with fifty percent (50%) or more being low-income individuals ages five (5) through seventeen (17) years from a low-income family on the basis of: data on children eligible for the free or reduced-price lunches under the National School Lunch Act; data on children in families receiving assistance under Part A of Title IV of the Social Security Act; data on children eligible to receive medical assistance under the Medicaid program under Title XIX of the Social Security Act; or an alternate method of identifying such children which combines or extrapolates that data.

(3) The State Board of Education shall establish clear, specific and challenging training guidelines that require teachers of advanced placement courses and teachers of pre-advanced placement courses to obtain a recognized advanced placement authority endorsed training. A teacher of an advanced placement or pre-advanced placement course, or both, must obtain the appropriate training.

(4) (a) In order to ensure that each student has a sufficient education for success after high school and that all students have equal access to a substantive and rigorous curriculum that is designed to challenge their minds and enhance their knowledge skill, school districts shall offer pre-advanced placement courses to prepare students for advanced placement course work.

(b) Subject to appropriation, funding shall be made available for the 2007-2008 school year so that all sophomores in Mississippi's public schools may take an examination that measures the students' ability to succeed in an advanced placement course. The State Department of Education shall seek federal funding through the Advanced Placement Incentive Grant Program and other available funding for this purpose. Funding efforts must be focused with an intent to carry out advanced placement and pre-advanced placement activities in school districts targeted as serving a high concentration of low-income students.

(c) The State Department of Education must approve all classes designated as pre-advanced placement courses. The department shall develop rules necessary for the implementation of advanced placement courses.

(5) Beginning with the 2007-2008 school year, all school districts must offer at least one (1) advanced placement course in each of the four (4) core areas of math, English, science and social studies, for a total offering of no less than four (4) advanced placement courses. The use of the state's online Advanced Placement Instructional Program is an appropriate alternative for the delivery of advanced placement courses.

Any public high school offering the International Baccalaureate Diploma Program is exempt from the requirements of this subsection. However, the school may participate in teacher training and program funding on the same basis as any high school offering advanced placement courses.

**SECTION 3.** Each local school board shall adopt and implement a written policy with regard to the school district's mandate or requirement for the awarding of a minimum grade which is in compliance with the grading policy requirement established by the State Board of Education Policy 403.

**SECTION 4.** This act shall take effect and be in force from and after July 1, 2011.

## 37-4-3 State Board for Community and Junior Colleges

### TITLE 37 - EDUCATION

#### Chapter 4 - State Board for Community and Junior Colleges.

#### **§ 37-4-3. Establishment of board; composition; qualifications, appointment, terms of office and compensation of members; officers; director of state system of public junior and community colleges; general powers and duties of board.**

(1) From and after July 1, 1986, there shall be a State Board for Community and Junior Colleges which shall receive and distribute funds appropriated by the Legislature for the use of the public community and junior colleges and funds from federal and other sources that are transmitted through the state governmental organization for use by said colleges. This board shall provide general coordination of the public community and junior colleges, assemble reports and such other duties as may be prescribed by law.

(2) The board shall consist of ten (10) members of which none shall be an elected official and none shall be engaged in the educational profession. The Governor shall appoint two (2) members from the First Mississippi Congressional District, one (1) who shall serve an initial term of two (2) years and one (1) who shall serve an initial term of five (5) years; two (2) members from the Second Mississippi Congressional District, one (1) who shall serve an initial term of five (5) years and one (1) who shall serve an initial term of three (3) years; and two (2) members from the Third Mississippi Congressional District, one (1) who shall serve an initial term of four (4) years and one (1) who shall serve an initial term of two (2) years; two (2) members from the Fourth Mississippi Congressional District, one (1) who shall serve an initial term of three (3) years and one (1) who shall serve an initial term of four (4) years; and two (2) members from the Fifth Mississippi Congressional District, one (1) who shall serve an initial term of five (5) years and one (1) who shall serve an initial term of two (2) years. All subsequent appointments shall be for a term of six (6) years and continue until their successors are appointed and qualify. An appointment to fill a vacancy which arises for reasons other than by expiration of a term of office shall be for the unexpired term only. No two (2) appointees shall reside in the same junior college district. All members shall be appointed with the advice and consent of the Senate.

(3) There shall be a chairman and vice chairman of the board, elected by and from the membership of the board; and the chairman shall be the presiding officer of the board. The board shall adopt rules and regulations governing times and places for meetings and governing the manner of conducting its business.

(4) The members of the board shall receive no annual salary, but shall receive per diem compensation as authorized by Section 25-3-69, Mississippi Code of 1972, for each day devoted to the discharge of official board duties and shall be entitled to reimbursement for all actual and necessary expenses incurred in the discharge of their duties, including mileage as authorized by Section 25-3-41, Mississippi Code of 1972.

(5) The board shall name a director for the state system of public junior and community colleges, who shall serve at the pleasure of the board. Such director shall be the chief executive officer of the board, give direction to the board staff, carry out the policies set forth by the board, and work with the presidents of the several community and junior colleges to assist them in carrying out the mandates of the several boards of trustees and in functioning within the state system and policies established by the State Board for Community and Junior Colleges. The State Board for Community and Junior Colleges shall set the salary of the Director of the State System of Community and Junior Colleges. The Legislature shall provide adequate funds for the State Board for Community and Junior Colleges, its activities and its staff.

- (6) The powers and duties of the State Board for Community and Junior Colleges shall be:
- (a) To authorize disbursements of state appropriated funds to community and junior colleges through orders in the minutes of the board.
  - (b) To make studies of the needs of the state as they relate to the mission of the community and junior colleges.
  - (c) To approve new, changes to and deletions of vocational and technical programs to the various colleges.
  - (d) To require community and junior colleges to supply such information as the board may request and compile, publish and make available such reports based thereon as the board may deem advisable.
  - (e) To approve proposed new attendance centers (campus locations) as the local boards of trustees should determine to be in the best interest of the district. Provided, however, that no new community/junior college branch campus shall be approved without an authorizing act of the Legislature.
  - (f) To serve as the state approving agency for federal funds for proposed contracts to borrow money for the purpose of acquiring land, erecting, repairing, etc. dormitories, dwellings or apartments for students and/or faculty, such loans to be paid from revenue produced by such facilities as requested by local boards of trustees.
  - (g) To approve applications from community and junior colleges for state funds for vocational-technical education facilities.
  - (h) To approve any university branch campus offering lower undergraduate level courses for credit.
  - (i) To appoint members to the Post-Secondary Educational Assistance Board.
  - (j) To appoint members to the Authority for Educational Television.
  - (k) To contract with other boards, commissions, governmental entities, foundations, corporations or individuals for programs, services, grants and awards when such are needed for the operation and development of the state public community and junior college system.
  - (l) To fix standards for community and junior colleges to qualify for appropriations, and qualifications for community and junior college teachers.
  - (m) To have sign-off approval on the State Plan for Vocational Education which is developed in cooperation with appropriate units of the State Department of Education.
  - (n) To approve or disapprove of any proposed inclusion within municipal corporate limits of state-owned buildings and grounds of any community college or junior college and to approve or disapprove of land use development, zoning requirements, building codes and delivery of governmental services applicable to state-owned buildings and grounds of any community college or junior college. Any agreement by a local board of trustees of a community college or junior college to annexation of state-owned property or other conditions described in this paragraph shall be void unless approved by the board and by the board of supervisors of the county in which the state-owned property is located.

## MCCB POLICY 9.5

### GUIDELINES FOR ESTABLISHING A NEW CAMPUS OR OFF-CAMPUS SITE AND FOR CHANGING THE INSTRUCTIONAL MISSION AT AN EXTENSION CENTER OR OFF-CAMPUS SITE.

#### Introduction

The definitions of a campus, a comprehensive center, an extension center and an off-campus site are provided within these Guidelines. As one of the powers and duties bestowed upon the Mississippi Community College Board (State Board) in Section 37-4-3(6)(1), these definitions have been established to serve as a mechanism for community and junior colleges to qualify for state appropriations. Upon the initial approval of these Guidelines, the State Board shall study and determine which definition best fits each particular location within each community and junior college district. Subsequent to the initial approval, colleges may request a change in status or a change in status shall be determined by the Mississippi Community College Board.

A college's decision to request the establishment of a new location or to request a change in the status of an extension center or an off-campus site shall be interpreted to mean that both the short range and long range educational needs of the specific area can be met best through the requested expansion or the establishment of a new location.

It is the intent of the State Board that all requests meet the requirements of the Southern Association of Colleges and Schools Commission on Colleges under the initial application process, reaffirmation of the accreditation process, or by the substantive change process, as may be appropriate to the request.

#### Definitions

**Campus:** A campus is a permanent location, which offers an extensive range of educational programs consisting of academic, career and technical, which lead to an associate of arts, associate of applied science or career certificate; as well as, continuing education, adult basic education, workforce training and community service. Complete instructional and student support services are provided on a campus. A campus is staffed primarily with full-time professional personnel, and the facilities are owned by the community or junior college district. There is at least one campus in each community or junior college district. However, in accordance with Section 37-4-3(6)(e) no new community or junior college branch campus shall be approved without an authorizing act of the legislature.

**Comprehensive Center:** A comprehensive center is a permanent location, which offers a broad range of educational programs and services. A comprehensive center offers both credit and non-credit courses in multiple instructional areas that may include academic, career and technical instruction, workforce training and other instruction for professional development and /or lifelong learning. A comprehensive center will have permanent facilities owned or shared by statutory agreement through which the community or junior college is guaranteed utilization. The facilities must be sufficient to carry out the stated mission. Library services and student support services must be comparable to those services located at the main campus. "The number of full-time faculty members must be adequate to provide effective teaching, advising and scholarly or creative activity" (SACS #II, p. 12). There may be one or more comprehensive centers in a community and junior college district or none at all.

**Extension Center:** An extension center is a permanent location, which offers a partial range of educational programs and services. An extension center may be solely academic, solely career/technical, or a combination of these types of curricula. An extension center is established for a specific, stated instructional mission. Library services and student support services are limited directly to serve the type and number of students. Facilities may be owned or leased by the community or junior college district. There may be one or more extension centers in a community or junior college district or none at all. "The number of full-time faculty members must be adequate to provide effective teaching, advising and scholarly or creative activity" (SACS #II, p. 12). There may be one or more extension centers in a community and junior college district or none at all.

**Off-Campus Site:** An off-campus site is a location, which provides a selection of course offerings that support the instructional mission of a campus or center. Such a site may provide minimal library and student support services.

Facilities generally are not owned by the college, but may be leased. The existence of an off-campus site does not imply commitment to maintain or to continue operation. Dual Credit/Dual Enrollment programs and Early College programs offered by a community college at a partner high school would qualify as an Off-Campus Site. A community or junior college must obtain approval from the State Board to offer courses at an off-campus site in accordance with § 37-29-69 of the Mississippi Code of 1972, Annotated.

### **Criteria For The Establishment of A New Campus:**

Pursuant to Section 37-4-3(6)(e) of the Mississippi Code of 1972, Annotated, the following definition and regulations will be used by the State Board when reviewing a community or junior college's request for establishing a new campus.

**Definition of Campus:** A campus is a permanent location, which offers an extensive range of educational programs consisting of academic, career and technical, which lead to an associate of arts, associate of applied science or career certificate; as well as, continuing education, adult basic education, workforce training and community service. Complete instructional and student support services are provided on a campus. A campus is staffed primarily with full-time professional personnel, and the facilities are owned by the community or junior college district. There is at least one campus in each community or junior college district. However, in accordance with Section 37 -4-3( 6)( e) no new community or junior college campus shall be approved without an authorizing act of the legislature.

Community or junior colleges will request State Board approval for the establishment for any new campus.

If the State Board agrees with the initial request, it will support the college's request for legislative action.

### **Criteria For The Establishment of a New Permanent Facility**

A new permanent facility is defined as a facility, building, or structure that is used by the college to offer credit courses, where such courses have not been previously taught and is not a part of a previously defined campus, comprehensive center or extension center and is constructed, purchased, acquired, leased or rented by the college with a reasonable expectation that such classes will be taught at this facility for more than twelve (12) months. Prior to constructing, purchasing, acquiring, leasing, or renting a new permanent facility where academic, career, or technical classes are taught for credit, approval from the State Board must be received.

The general guidelines the State Board will use for approval of such a permanent facility are as follows:

1. The permanent facility must be at least twenty-five (25) miles from that college's or another community or junior college's permanent location. However, under certain extenuating circumstances, such as where there is a heavy population density, and the educational needs of the population are not being met, consideration will be given to such new permanent facilities.
2. The college shall have the necessary funds allocated to the permanent facility's operation to ensure that a quality educational program can be offered at this location. The college shall provide the State Board proof of adequate funding along with the source of that funding.
3. The college requesting approval of a new permanent facility shall provide the State Board with a copy of the long range plan for this facility, a list of anticipated classes or programs to be taught at this facility, and staffing plans.
4. Courses taught at a new permanent facility will not be approved for state reimbursement unless the State Board approves the establishment of a new permanent facility.

### **Criteria For Change in Instructional Mission to A Comprehensive Center or an Extension Center**

The following definitions and regulations will be used by the State Board when reviewing a community or junior college's request for a change in the instructional mission at an existing center or an extension site.

Community or junior colleges will request State Board approval for a change in the instructional mission at an existing extension center or an off-campus site through a formal proposal using the following criteria:

**Definition of Comprehensive Center:** A comprehensive center is a permanent location, which offers a broad range of educational programs and services. A comprehensive center offers both credit and non-credit courses in multiple

instructional areas that may include academic, technical, and career instruction, workforce training and other instruction for professional development and /or lifelong learning. A comprehensive center will have permanent facilities owned or shared by statutory agreement through which the community or junior college is guaranteed utilization. The facilities must be sufficient to carry out the stated mission. Library services and student support services must be comparable to those services located at the main campus. "The number of full-time faculty members must be adequate to provide effective teaching, advising and scholarly or creative activity" (SACS #II, p. 12). There may be one or more comprehensive centers in a community and junior college district or none at all.

A Comprehensive Center differs from a campus in the following manner:

- It does not duplicate upper administration (Ex. President, Financial Officer, Computing Services).
- It is accredited with the campus.
- It does not offer extra-curricula athletic activities.
- It is designed to be solely a commuter campus.

Definition of Extension Center: An extension center is a permanent location, which offers a partial range of educational programs and services. An extension center may be solely academic, solely career/technical, or a combination of these types of curricula. An extension center is established for a specific, stated instructional mission. The extent of Library services and student support services must be in direct proportion to the instructional mission and to the type and number of students served. Facilities may be owned or leased by the community or junior college district. There may be one or more extension centers in a community or junior college district or none at all. "The number of full-time faculty members must be adequate to provide effective teaching, advising and scholarly or creative activity" (SACS #11, p. 12). There may be one or more extension centers in a community and junior college district or none at all.

- A. A college's request for a change in status must include proof of approval from the local board of trustees.
- B. Decisions to change the instructional mission at a center or extension site shall be interpreted to mean that both the short-range and long-range educational needs of the specific area can be met best through this change.
- C. Each district must clearly delineate the long-range development potential of the comprehensive center or center.
- D. A current Educational Master Plan for the district must exist, and the district must show adherence to the plan. If career and technical programs are projected, these must be evident in annual career and technical educational plans. A minimum of five (5) approved career-technical programs shall be required for career-technical centers. As a requirement for an academic center, evidence must be shown that supports an institution's ability to offer adequate labs (learning, language, science, etc.) to support that academic mission.
- E. A sufficient pool of potential clients must be evident. The need for such an expansion may be supported by community requests and /or college surveys. Generally, approximately 600 FTE students would be recommended for a comprehensive center. The 600 FTE's can consist of a combination of academic, career and technical student semester credit hours. Approximately 300 FTE students in either area (academic or career and technical) would be recommended for a center.
- F. Evidence of community support and local revenue sources must be present.
- G. Programs and services must be planned without duplication and without competition of existing programs available within the proposed service area. Historically, centers have not been established within twenty-five miles or thirty minutes commuting time of other campuses and centers capable of offering similar programs; however, the extent of the need for the program will be an important determining factor in relation to the distance. Consideration must be given to all existing postsecondary educational institutions (including universities), both public and private, in the proposed geographic area. Programs and services at proposed locations that would exist in close proximity to existing colleges and universities, both public and private, shall take into consideration existing programs offered by existing institutions and shall also consider the best use of resources.
- H. The college must ensure the common use of resources at all locations, including but not limited to staffing, computer services, financial aid, registration, etc.

- I. Land and facilities are the primary responsibility of the college district. Increased funding for operations must be proportional to those within the current district budget or the system norm. Written pledges of increased tax support from taxing authorities are recommended. Letters of support from community and business/industry leaders may be helpful. Proposed budgets for facilities and for operation during the first three years are also required.
- J. The State Board will assign weights to the above criteria in order to evaluate the proposal from the community or junior college.
- K. Formal comments will be solicited for a period of at least thirty days after the State Board considers a proposal for a change in the instructional mission at an extension center or an off-campus site and action of the board will be forthcoming within 90 days.

**Criteria For Requesting The Operation of A Off-Campus Site**

Pursuant to Section 37-29-69 of the Mississippi Code of 1972, Annotated, the following definition and regulations will be used by the State Board when reviewing a community or junior college's request for establishing a new off-campus site.

Off-Campus Site: An off-campus site is a location, which provides a selection of course offerings that support the instructional mission of a campus or center. Such a site may provide minimal library and student support services. Facilities generally are not owned by the college, but may be leased. The existence of an off-campus site does not imply commitment to maintain or to continue operation. Dual Credit/Dual Enrollment programs and Early College programs offered by a community college at a partner high school would qualify as an Off-Campus Site. A community or junior college must obtain approval from the State Board to offer courses at an off-campus site in accordance with § 37-29-69 of the Mississippi Code of 1972, Annotated.

- A. A community or junior college shall request State Board approval for the course offerings at an off-campus site.
- B. A letter of request from the President of the college must be sent to the Executive Director of the State Board (with a copy to the Deputy Executive Director for Programs and Accountability) at least two (2) weeks prior to a State Board meeting for immediate action of the State Board. The letter must include:
  - 1. Evidence of local Board of Trustee approval of the expansion;
  - 2. The exact name and location (address) of the requested off-campus site;
  - 3. Description of the type of course or courses to be offered (academic, career-technical, dual-credit, etc.);
  - 4. The dates the course offerings are to begin.
- C. The Deputy Executive Director of Programs and Accountability will inform the college president of the State Board's action immediately following the State Board's next regular monthly meeting. Approval of off-campus sites shall remain in effect until the College President notifies the Executive Director of the State Board of a site's termination.

**Funding**

Once all preceding criteria have been documented to the State Board in the form of a proposal or letter as required, recommended to the State Board by the Executive Director, considered by the State Board, sent out on Administrative Procedures for at least thirty days (comprehensive center and extension center), and, subsequently, approved by a majority vote of those members present and voting, the State Board will disburse funding to colleges for students who are enrolled and in attendance on the last day of the sixth week (or its equivalence) at all approved college locations, according to the weights and percentages prescribed by State Board policy and legislative action, under the funding formula. NOTE: No existing location will be diminished in status with adoption of this criteria.

Initial Date of Adoption: June 18, 1993.  
 Revision Dates: September 24, 2001; April 23 2004; September 21, 2012.

## FREQUENTLY ASKED QUESTIONS

### FUNDING

**How are state funds allocated?** Each college gets a base appropriation (15% of support budget and 7½ % of the Career-Tech budget). The remaining funds are allocated based upon annualized FTE (full-time equivalent) enrollment.

**What is annualized FTE?** Annualized FTE is defined as the total credit hours accumulated by Academic, Technical, and Career students during the summer, fall and spring semesters divided by thirty (30). In the Colleges' Appropriation Bill, Academic, Technical, and Career hours are weighted equally. Associate Degree Allied Health programs (Associate Degree Nursing and Associate of Applied Science degree Allied Health programs) are classified as high cost programs and receive an additional amount per FTE in this bill.

**Do Career and Technical FTEs receive the same funding as Academic FTEs?** In addition to the funds allocated in the Colleges' Appropriation Bill, Career and Technical Education programs (AAS and Certificate) get an additional amount of state funds through a separate appropriation to the Mississippi Department of Education. Those funds are also allocated on an FTE basis, but can only be spent on Career and Technical Education programs. In this allocation, there are three different levels of high cost programs. Level 1 programs receive an additional 0.25 FTE; level 2 programs receive an additional 0.50 FTE; and level 3 programs receive an additional 0.75 FTE.

**How are MSVCC courses reimbursed?** The Mississippi Virtual Community College operates on a host-provider model:

- ✓ For HOST colleges, semester credit hours generated during the Summer, Fall and Spring by PART-TIME MSVCC Host students are in a separate MSVCC category in the formula and are weighted at 0.50. This separate category was added to the formula to encourage on-line class offerings.
- ✓ For PROVIDER colleges, the semester credit hours generated by FULL-TIME PROVIDER MSVCC students are counted in the Academic, Technical and Career Categories along with traditional (non-virtual) students. Weights in this category are at 1.0.
- ✓ For PROVIDER colleges, the semester credit hours generated during the Summer, Fall and Spring by PART-TIME MSVCC Provider students are in a separate MSVCC category in the formula and are weighted at 0.50.

**If we give a Pass or Fail grade, can we get semester credit hours for the students?** Any semester hour credit-bearing course a college offers eligible for state funding under the following conditions:(1) the course must be on the uniform course numbering list; (2) the student must have been properly admitted and enrolled for credit (not an auditing student); (3) instructors must maintain a record of daily attendance (attendance cannot be confirmed merely by a final grade in the course); (4) students must meet the enrolled and in-attendance requirement at the time of the census; and (5) instructors must sign and date the attendance roster for accountability purposes. Under the conditions stated above, the state Board WILL provide state funding for the credit hours generated.

## RESIDENCY

**When should a college ask for residency documents on a student?** If anything on the student's application hints that a student may have resided out-of-state at any time prior to enrollment (out of state high school, out of state GED, out of state residency of parents, out of state transfer transcript on which the student is not listed as a MS resident), it's best to ask for the two residency documents.

**Does the residency status of student under the age of 21 always depend on the residency of the parents or guardian?** No, a student under the age of 21 can be declared as an in-state student regardless of his/her parents' current residency, provided the student resides in Mississippi and can present a transcript (a) demonstrating graduation from a Mississippi secondary school and (b) showing he/she attended not less than the final four (4) years of secondary school in Mississippi. Note: The exception is if a student's parents are residents of another state while the student attends the last 4 years at a Mississippi high school and graduates. (This sometimes occurs when residents of bordering states send their children to private high schools in Mississippi).

**We have a nineteen year old student who listed her grandmother as her legal guardian. In this case, do we only need a copy of the guardianship papers, or does her grandmother also need to prove residency? The student listed a physical Mississippi address on her admissions application for both herself and her grandmother (the same address).** If the student is already residing in Mississippi and is a Mississippi high school graduate and completed not less than the last four (4) years of high school at a Mississippi High School, she would automatically be classified as an in-state resident. If not, then she must prove in-state residency by providing a copy of her grandmother's guardianship papers granted by a Mississippi Court. The grandmother would also need to provide a second document from the list of items approved by the State Board to demonstrate her Mississippi residency, since the minor student's residency status is dependent on the residency of the grandmother.

**We have a student enrolling with us who has a MS driver's license but nothing else on the list. Car is in girlfriend's name, he lives with parents, etc., but he is over 21. However, we do have a copy of court papers sent to him at his physical address from the Hinds County Chancery Court. We also have a letter sent to him by the Selective Service System regarding his registering from the draft. It was also sent to the same address that he put on his application. Is this something that would suffice?** The MS Driver's license would serve as primary document; with either of the other two documents showing the address on the application serving as a secondary supporting legal document.

**If someone is currently out-of-state and marries an active duty military, can they get in-state residency the next upcoming semester or will they need to sit out a fall or spring term?** According to the residency law under special rules for a spouse of a member of the armed forces stationed outside of Mississippi, if the military spouse establishes residency in Mississippi and registers with a Community College (CC) or Institution of Higher Learning (IHL), the CC/IHL will permit the spouse to pay resident fees and tuition regardless of the length of time the spouse has resided in Mississippi (MCA 37-103-19 section (3)). However, the student would be required to provide a copy of the marriage certificate.

**We have a student who is under 21 years of age who graduated from high school in another state. She attended a college in that state last semester and now wishes to transfer to a MS community college. She married a Mississippian, who was attending that same out-of-state college last semester as an out-of-state student. He completed all four years at a MS high school. They have moved back to MS and now he and his wife will be attending community college here. The husband is obviously an in-state resident, but what about the wife?** Under the Mississippi Law code 37-103-15 a married person may claim

the resident of their spouse. Therefore, provided the husband is confirmed as a MS resident and they provide a copy of their marriage certificate, the wife would be classified as a Mississippi resident also. However, the college must ensure that the husband was indeed classified as an out-of-state student. The four years of high school and graduation applies only to minors.

**Can a signed letter from a landlord serve as a lease agreement to document MS residency? The student has also provided a MS ID card as documentation that he is a MS resident. The student states that he cannot obtain a utility bill as the utilities are paid by the owner of his current residence that the student rents.** No, only a formal lease agreement, signed by the lessor and lessee, is accepted as the lease document for residency purposes.

**We have a student less than twenty-one years of age, who has lived with a family member (not a legal guardian) for the past ten years. The student's parents live out of state. The student attended the last four years of high school at and graduated from a MS high school. Should this student be classified in-state (based on his high school attendance and graduation) or out-of-state (based on the fact that his parents live elsewhere)?** According to §37-103-7, A student residing within the State of Mississippi who, upon registration at a Mississippi institution of higher learning or community college, presents a transcript demonstrating graduation from a Mississippi secondary school and who has been a secondary school student in Mississippi for not less than the final four (4) years of secondary school attendance shall not be required to pay out-of-state tuition.

**We have a student less than twenty-one years of age, who lives in Mississippi. The student's parents live out of state. The student completed high school in three years in a MS high school and graduated from a MS high school. Should this student be classified in-state (based on his high school attendance and graduation) or out-of-state (based on the fact that his parents live elsewhere)?** According to §37-103-7, A student residing within the State of Mississippi who, upon registration at a Mississippi institution of higher learning or community college, presents a transcript demonstrating graduation from a Mississippi secondary school and who has been a secondary school student in Mississippi for not less than the final four (4) years of secondary school attendance shall not be required to pay out-of-state tuition. The attorney general's opinion is that a high achieving student who completes high school in less than four years is not to be penalized. So, in these cases students are to be treated the same as those who complete in four years.

## ADMISSIONS

**Is the state law which says that a junior/community college may admit a student who has not graduated from high school but has 1 less Carnegie unit than the total number required by the State Department of Education still active? If it is, can we admit a student under these conditions and still ask for the payment on the hours he/she generates.** State Board Policy 9.2 states that a student may be admitted to Academic, Technical (or Career programs) with 1 Carnegie unit less than the total required by the MS Department of Education for a high school diploma, provided they meet all other college or program admission requirements. Colleges are eligible for funding on the hours those students generate.

**We have some out-of-state high schools that do not sign their transcripts. They just put the school seal on them. Of course, we normally don't take transcripts with no signature, but what do we do in this case?** In these rare instances, a transcript with an official raised or stamped seal on official paper would be acceptable. The lack of signature would not be major concern, provided as the transcript shows all the relevant graduation facts, including the years of attendance and date of graduation.

**Are ACT scores required for dual enrolled students?** As yet, there is no statewide ACT requirement for admission of dual credit/dual enrollment students. However, SB 2869 (2011) requires colleges to set admission requirements for dual enrollment/dual credit students. SB 2869 also states that course prerequisites shall be the same for dual enrolled students as for regularly enrolled students at that university or community or junior college, so individual courses or programs may have their own ACT requirements.

**We are considering moving toward an electronic or imaging system for our transcripts and other admission documents. Will the audit team accept a scanned transcript as an official copy? We will receive the paper and scan them into the system and would then provide you access to view the images in some manner.** Yes, imaged copies of official transcripts and other admission documents are acceptable for audit purposes, provided they are clearly legible and easily accessible.

**Are faxed transcripts acceptable?** For audit purposes, faxed transcripts are not considered official. If a college allows faxed transcripts to be accepted for initial admission, official transcripts must be provided prior to the audit date the following semester.

**What about eScript transcripts? Often, they do not contain an actual signature of the high school principal, counselor or registrar.** eScript transcripts are official, provided they contain all the relevant graduation information, are transmitted from a secured Network Member site, and include a statement of authenticity.

**What should an official high school transcript look like?** Since there is much variation between high schools, it's impossible to have a one-size fits all approach to what form an official high school transcript will take. However, a high school transcript will meet the requirements for audit purposes if it meets all of the following criteria: (1) contains either a seal, a signature, or both, demonstrating it was issued by the high school; (2) contains all the necessary graduation information on the student; and (3) is in the usual form provided by the individual high school. In some cases, the official transcripts provided by the high school are, in and of themselves, copies. If that's the case, simply make sure they meet criteria 1 and 2, above. Please note, however, that a faxed high school transcript would not be considered official for audit purposes.

**How recent should an admission application be?** One of the main purposes of the admission application is to ensure colleges have the most current information available on entering students. Therefore, students should have a current application on file at the time of their initial enrollment. For continuing students, address changes should be documented either through a new admission form or a change of address form, depending on the college's policy. Residency determinations must be reviewed on all address changes. Any student who changes from a residency out-of-state to a residency in-state must provide the required two (2) residency documents before being classified as an in-state resident. Colleges set their own readmission requirements for students who have a lapse in enrollment, but generally students who have lapses in enrollment lasting 1 or more years are required to submit an application for readmission.

**Does the MCCB require us to admit Occupational Diploma Students?** No, State Board Policy 9.2 simply states that Colleges may claim those students for reimbursement if the college chooses to admit and enroll them.

**Does the MCCB have requirements for admitting International Students?** Colleges may set their own admission standards for international students. College personnel will want to familiarize themselves with the Student and Exchange Visitor Information System (SEVIS) if they are admitting students on F, J or M visas, because federal law requires institutions to report certain information on those students to the federal government. More SEVIS information is available at: <http://www.ice.gov/sevis/> .

**Does the MCCB audit differently on International Students?** Auditor procedures for international students are the same as for all other students. They are expected to have the documents that correspond to their

admission status (current visa, if classified as an international student; translated transcripts if admitted based upon transcript; proof of residency, if student has established residency status in MS or the U.S., etc.). Please refer to the [MCCB Audit Guidelines](#) for more detailed information on the types of documents we look for during an admissions audit. Note: the MCCB does not audit an institution's international student admission standards or institutional SEVIS compliance.

## ENROLLMENT

**We are experiencing an increase in the number of non-high school graduates enrolling in school. Our Career programs are very full and we need some clarification regarding these non-graduates enrolling in remedial classes. Can these students enroll in these courses and be counted on the audit for both admissions and credit hours?** Remedial courses are considered preparatory academic courses. In order for reimbursement to occur, students enrolling in remedial coursework must meet the criteria for admission to a program that requires academic courses, i.e., an academic (AA) or technical (AAS) program. According to State Board Policies, Academic and Technical Students must meet one of the following criteria in order to be counted for funding:

- The completion of at least one unit less than the minimum acceptable high school units as prescribed by law, i.e. If the state requires 21 high school units to graduate, a student can be admitted into a community /junior colleges with 20 high school units; OR
- A general education development (GED) certificate; OR
- A high school diploma; OR
- A MS Occupational Diploma; OR
- An official transcript from an accredited college or university.

Therefore, ability-to-benefit students enrolling in remedial coursework are NOT eligible for reimbursement, and those records should be removed from your audit files upload.

**Can non-high school graduates take HPR classes such as Health (HPR 1213) and activity classes such as Varsity Sports and general PE activities (weight lifting)?** Activity courses (HPR, PE, etc.) are considered solely "academic" in that they are not part of any career (vocational) or technical program. In order for reimbursement to occur, students enrolling in activity courses must meet the ACADEMIC admission standards listed in the previous question. Therefore, ability-to-benefit students enrolling in activity courses are NOT eligible for reimbursement, and those records should be removed from your audit files prior to upload. In short, for pay purposes, ability-to-benefit students are limited to enrollment in Career (Vocational) programs.

**Our College would like to move to an electronic roster system for all courses. Would the State Board accept electronic attendance rosters for non-MSVCC classes for audit purposes?** Yes, provided your instructors are required to certify their own attendance rosters electronically by affixing their electronic signature. Electronic signatures should consist either of the actual signature or the instructor's initials and birth date. These modifications would bring regular electronic attendance rosters in line with the requirements for MSVCC rosters, which is sufficient for audit purposes.

## GUIDANCE ON DIPLOMA MILLS

(From: <https://www2.ed.gov/students/prep/college/diplomamills/diploma-mills.html> and other cited sources.)

### What is a diploma mill?

The [Higher Education Opportunity Act](#) defines a diploma mill as follows:

DIPLOMA MILL- The term `diploma mill' means an entity that--  
(A)(i) offers, for a fee, degrees, diplomas, or certificates, that may be used to represent to the general public that the individual possessing such a degree, diploma, or certificate has completed a program of postsecondary education or training; and (ii) requires such individual to complete little or no education or coursework to obtain such degree, diploma, or certificate; and  
(B) lacks accreditation by an accrediting agency or association that is recognized as an accrediting agency or association of institutions of higher education (as such term is defined in section 102) by--  
(i) the Secretary pursuant to subpart 2 of part H of title IV; or (ii) a Federal agency, State government, or other organization or association that recognizes accrediting agencies or associations.

The dictionary defines a diploma mill as:

An institution of higher education operating without supervision of a state or professional agency and granting diplomas which are either fraudulent or because of the lack of proper standards worthless. - *Webster's Third New International Dictionary*

**Important:** The [Better Business Bureau](#) suggests you watch for the following features and regard them as red flags when considering whether or not to enroll in a school:

- Degrees that can be earned in less time than at an accredited postsecondary institution, an example would be earning a Bachelor's degree in a few months.
- A list of accrediting agencies that sounds a little too impressive. Often, these schools will list accreditation by organizations that are not recognized by the U.S. Department of Education. These schools will also imply official approval by mentioning state registration or licensing.
- Offers that place unrealistic emphasis on offering college credits for lifetime or real world experience.
- Tuition paid on a per-degree basis, or discounts for enrolling in multiple degree programs. Accredited institutions charge by credit hours, course, or semester.
- Little or no interaction with professors.
- Names that are similar to well known reputable universities.
- Addresses that are box numbers or suites. That campus may very well be a mail drop box or someone's attic.

With the increase in the availability of earning degrees online there has been an increase in diploma mills. Diploma mills often use the Internet to market their programs. Diploma mills often promise degrees for a fee in a few short days or months.

**Note:** Not all online degree programs are diploma mills. Do your homework and research schools that you are interested in attending.

Diploma mills require little, if any, academic work in order to earn a degree. Degrees from diploma mills are sometimes based on life experience alone or a level of academic work that is far below what an accredited postsecondary institution would require. Diploma mills can require little or no work but the result is the same, a degree that has no value and is meaningless.

If you still have doubts, contact your [Better Business Bureau](#) or [state attorney general's office](#) to make sure the school is operating legally in a state and to see if anyone has filed a complaint

**Remember:** A bogus degree from a diploma mill is not likely to impress prospective employers and could be a complete waste of money. Today many employers are requiring degrees from legitimately accredited institutions. Federal agencies are being directed by the federal government's [Office of Personnel Management](#) (OPM) to verify the legitimacy of an applicant's degree(s). According to [OPM](#), "there is no place in Federal employment for degrees or credentials from diploma mills."

## DIPLOMA MILLS AND ACCREDITATION

The logical place to start when making a determination on whether a school is or is not a diploma mill is to examine its accreditation. [Accreditation](#) in the United States is a voluntary, nongovernmental process, in which an institution and its programs are evaluated against standards for measuring quality. Any institution can claim to be accredited. It is important that if you are unsure about a school's accreditation or its accrediting body, it's important that you do your homework.

### ACCREDITED INSTITUTIONS VS UNACCREDITED INSTITUTIONS

Accredited institutions have agreed to have their institution and its programs reviewed to determine the quality of education and training being provided. If an institution is accredited by a recognized agency, its teachers, coursework, and facilities, equipment, and supplies are reviewed on a routine basis to ensure students receive a quality education and get what they pay for. Attending an accredited institution is often a requirement for employment and can be helpful later on if you want to transfer academic credits to another institution.

Unaccredited institutions are not reviewed against a set of standards to determine the quality of their education and training. This does not necessarily mean that an unaccredited institution is of poor quality, but earning a degree from an unaccredited institution may create problems for students down the road. Some employers, institutions, and licensing boards only recognize degrees earned from institutions accredited by an accrediting agency recognized by the U.S. Department of Education. In some states, it can be illegal to use a degree from an institution that is not accredited by a nationally recognized accrediting agency, unless approved by the state licensing agency.

### ACCREDITED POSTSECONDARY INSTITUTIONS AND PROGRAMS

The U.S. Department of Education has published the "positive list" of schools that are accredited by accrediting agencies recognized by the Secretary of Education. The list can be found at <https://ope.ed.gov/accreditation/Search.aspx>.

Note: This is a list of postsecondary institutions and programs that have chosen to be accredited by accrediting agencies recognized by the U.S. Secretary of Education. One of the reasons that institutions seek accreditation is so that their students are eligible to receive federal student aid or other federal benefits. The database does not include postsecondary educational institutions and programs that elect not to seek accreditation but nevertheless may provide a quality postsecondary education. The positive list is simply one source of information; you may need to consult other sources if an institution does not appear on the positive list.

### ACCREDITED SECONDARY INSTITUTIONS

The U.S. Department of Education does not have the authority to accredit private or public elementary or secondary schools, and the Department does not recognize accrediting bodies for the accreditation of private or public elementary and secondary schools. However, the U.S. Department of Education does recognize accrediting bodies for the accreditation of institutions of higher (postsecondary) education. If an accrediting body which is recognized by the Department for higher education also accredits elementary and secondary schools, the Department's recognition applies only to the agency's accreditation of postsecondary institutions.

Accreditation, and the requirement of accreditation, for elementary and secondary schools is regulated by the States with wide variation in its application. In Mississippi, all public schools and some private schools are accredited by the MS Commission on School Accreditation. Their website is here: [List of Non-Public Schools Accredited by the Mississippi State Board of Education](#). Please note, however, that schools that do not receive federal or state funds may choose not to be accredited by the state.

### **7 Warning Signs That an Online High School Is a Diploma Mill**

The following list contains common warning signs that an online high school might be a diploma mill.

- The school's website has no contact information and only displays a P.O. Box number
- The school is not accredited by one of the six regional accrediting bodies or by the DETC
- No one has heard of the school, or the school's name is suspiciously similar to that of a renowned school
- The school has multiple negative reviews from former or current students
- The school awards diplomas to anyone and everyone instantly or in a very short time
- There are no deans, directors, and professors listed on the school's website
- The school's admission process consists of nothing more than submitting your credit card details

### **ACCREDITING AGENCIES RECOGNIZED BY THE U.S. DEPARTMENT OF EDUCATION**

The Secretary of the U.S. Department of Education recognizes select accrediting agencies as reliable authorities regarding the quality of education or training offered by the institutions or programs they accredit. Accreditation by a recognized accrediting agency is part of the requirements for institutions to participate in federal student aid programs.

Accrediting agencies recognized by the Secretary meet certain criteria, the institutions accredited by those agencies meet standards that address the quality of an institution and its programs. An accrediting agency that meets the Department's criteria for recognition is determined to be a reliable authority in measuring the quality of education or training provided by the institutions it accredits in the United States and its territories. Agencies that meet these criteria are placed on the Department's List of Nationally Recognized Accrediting Agencies, which can be found at <https://ope.ed.gov/accreditation/agencies.aspx>.

### **UNRECOGNIZED ACCREDITING AGENCIES**

Unrecognized accrediting agencies have not had their accreditation standards reviewed by the U.S. Department of Education. There are a variety of reasons why an agency is unrecognized, some agencies may be working towards recognition with the Secretary and others may not meet the criteria for recognition.

**An unrecognized accrediting agency should be viewed with caution until its reputation can be determined.** Although these accrediting agencies are unrecognized, it does not mean that they do not have high standards of quality. Likewise, because the Secretary does not recognize an accrediting agency does not mean that the institutions accredited by that agency do not provide a quality education.

### **FAKE ACCREDITING AGENCIES**

**Diploma mills often claim accreditation by a fake accrediting agency to attract more students to their degree programs and make them seem more legitimate.** Because diploma mills aren't accredited by a nationally recognized agency, you will not find the institution's accrediting agency on the U.S. Department of Education's [List of Nationally Recognized Accrediting Agencies](#).

**Tip:** Use the above references to check that the institution has been accredited by a nationally recognized agency. Those accrediting agencies recognized by the U.S. Department of Education are recognized for purposes of obtaining federal dollars.

The fake accrediting agency is just for show; it offers its accreditation for a fee without an in-depth review of the school's programs or teachers. These accrediting agencies do not ensure that students receive a quality education. Often, the fake accrediting agency has simply conducted a business deal with an institution without investigating the institution in any manner.

These fake accrediting agencies may adopt names that are similar to other well known accrediting agencies, and sprinkle legitimate institutions in its list of accredited members. They may even use all the right sounding words in their marketing materials to describe their accrediting standards and review processes. When actually, those accrediting standards and procedures are never put to use and the accreditation is meaningless.

**Tip:** Do not allow these agencies and institutions to mislead you. Remember it isn't enough to know that an institution is accredited; you need to find out as much as you can about the accrediting agency.

### **FOREIGN INSTITUTIONS AND DIPLOMA MILLS**

There is an important distinction between foreign institutions and agencies that accredit foreign institutions. The U.S. Department of Education does not recognize foreign accrediting agencies, however, accrediting agencies that have been recognized by the Secretary of Education may accredit foreign institutions. There are also foreign institutions that market their degrees in the United States, and foreign education ministries may recognize these institutions.

**Tip:** Look out for foreign diploma mills selling their degrees in this country.

Some of these foreign diploma mills claim to have approval from the education ministry of their country to offer degrees, when, in reality, they're operating without the knowledge of the country. Often foreign diploma mills will use the name of the foreign education ministry in their marketing material to make them seem more legitimate. The institution is trying to make students incorrectly believe that its programs have been reviewed and meet some level of quality.

Earning a degree from a foreign institution that is not accredited by a nationally recognized agency can be problematic. To learn more about the issues and problems that may arise from pursuing an unaccredited degree, read over the frequently asked questions found at this site:

[http://www.degree.net/guides/accreditation\\_faqs.html](http://www.degree.net/guides/accreditation_faqs.html).

### **FOREIGN CREDENTIAL EVALUATION**

Often a student will be required, by another educational institution or place of employment, to have their foreign educational credits evaluated in order to determine the comparability between those credits or degree to those received from an accredited U.S. institution. In these instances, a useful service is provided by private services that evaluate degrees from foreign institutions. Not all U.S. institutions, employers, and licensing authorities perform evaluations of non-U.S. diplomas, credits, or qualifications. In many cases this work is delegated to private credential evaluation services, the evaluations provided by these services are then recognized as valid by the necessary entities. Private credential evaluation services will evaluate a foreign degree for comparability to a U.S. degree.

If you are told that you need to have your academic or professional qualifications evaluated by someone other than the institution, employer, or licensing authority to which you are applying, there are several possible sources of information. To find a credential evaluation service you can use the Internet's search engines. You can also refer to the [U.S. Network for Education Information](#) (USNEI) , a Department of Education-administered Web site and public-private partnership, that provides a list of possible credential evaluation services.

**It is important to understand that the U.S. federal government does not recommend or endorse any individual credential evaluation service or group of services, and does not conduct evaluations. The resource links provided here are solely for information purposes and to help in locating potential evaluators.** Please do not send documents or credentials to USNEI for evaluation. Neither USNEI nor the U.S. government serve as a channel of appeal for persons dissatisfied with evaluations.

**Caution:** Like fake accrediting agencies, there are also fake credential evaluation services. These organizations work on behalf of diploma mills to ensure that degrees from these schools are determined to be comparable to a degree that is received from an accredited U.S. institution.

### COLLEGE CREDIT FOR LIFE EXPERIENCE

Although many legitimate institutions give academic credit for life and work experiences, **beware of institutions that offer college credit and degrees based on life experience, with little or no documentation of prior learning.** These institutions do not use valid methods to determine the amount of credit to be awarded. There are many employers, institutions and licensing boards that will question the legitimacy of credit and degrees earned in this way, these organizations will only recognize degrees earned from institutions accredited by an accrediting agency recognized by the U.S. Department of Education.

Legitimate institutions offering credit for life or work experiences may use any combination of the following methods to determine how much credit is given: standardized tests, prior learning portfolio, oral exams, past college credit, and professional certification. The amount of credit awarded will vary from institution to institution. At legitimate institutions credit is awarded only if the work experience is equivalent to what would have been taught in a college level course.

**Tip:** Students should check with other institutions regarding transfer of credit policies to determine if your credits will be accepted by an institution you hope or plan to enroll in.

### .EDU INTERNET ADDRESS

Today, most educational institutions are recognized on the Web by their .edu Internet addresses. However, not all institutions that use an .edu as a part of their Internet address are legitimate institutions. Before the U.S. Department of Commerce created its current, strict requirements, some questionable institutions were approved to use an .edu. The current requirements allow only colleges and institutions accredited by an agency recognized by the U.S. Department of Education to use the .edu, however, some more suspect institutions have maintained the .edu addresses.

**Beware:** Institutions that were approved to use an .edu before the new requirements were put in place may still be using the .edu as part of their Internet address. This means there may be some illegitimate institutions out there with an .edu.
